We extend true and heartfelt sympathy to the bereaved friends of the late Rev. Alexander Leslie, a former pastor of Crawford Presbyterian church for seventeen years. Mr. Leslie's character was marked by scholarship, energy, sympathy and piety. His congregation loved him and the recollection of his pure, noble, upright Christian life is securely locked in memory's sweet chamber, never to be effaced. We could wish the world had the principles of the deceased and it would be a safe world to live in.
They are not dead who live in hearts they leave behind. In those whom they have blessed. They live a life again. And shall live through the years. Eternal life and grow. Each day more beautiful. As time declares their good. Forgets the past and proves Their immortality.

We saw many sale bills posted in these days when our government is trying to place men on the land from the old countries, that there must be something wrong, as we see farmers of years' standing selling out completely. Who is right? The farmer or our government.

She has been a resident here for upwards of 70 years and passed away at the ripe age of 89 years. During her recent years she has been tenderly cared for by her daughter, Mrs. J. A. Smith. Her last illness was of short duration—pneumonia—and she could not rally. She leaves two sons, A. R. Burrows of Calgary, and the Rev. A. E. We were all pleased to have Mr. McCabe back on the mail route for a few days. Our mail man was laid up with a sore hand. It was like a visit from an old friend.
Miss Bessie McKeeken came up from Toronto to spend a few days at the old home.
A most enjoyable time was spent on Tuesday evening when the friends and neighbors, also co-workers of the Varney church, gathered at the home of Mrs. Janet McKeeken to wish her good-by before leaving the old home. After a short program Mrs. McKeeken, Cecil and Bessie, were called to the front, when an address was read by Mrs. Earl Mead and a purse of money was presented. Mr. Earl Mead made a fitting reply on behalf of the McKeeken family. Dr. Leeson, Mr. James Blyth and others made short speeches. The rest of the evening and some of the morning were spent in games and dancing.
We hope those who understand replenishing the larger rivers will act on the suggestion of Dr. Jamieson and do what they can to help the fish supply. If the whole system could be restored as it was when this place was settled and every little stream and brooklet had a free course into the larger streams, we could have good fishing on our own farm, as in boyhood we caught trout that would credit to large streams, and extremely healthy oies, too; but now they are extinct owing to cattle tramping in the banks, causing grass and weeds to choke up the passage from the large streams. Careless woodmen in clearing the streams also did their bit in closing streams that not only produced fine trout, but also sent a good food supply to the wash of worms from well-fertilized fields which lay adjacent to them and which abounded in good fish food such as is not found on the banks of a river. A good food supply is very helpful to production, but as the perfect organization of the trout system will never again be achieved, we should do what we can to help the rivers.

Edge Hill.
(Our own correspondent.)
The return debate between the Rocky and Edge Hill clubs in this school on Friday evening drew a large crowd. Sleighs from the Rocky and from Zion helped to swell the crowd. Mr. Herb Edge, President of Edge Hill Literary Society, filled the chair and in a short address extended a hearty welcome to all. A short and varied program was given before the debate.
A Gazette, edited by Misses Rita Glencross and Islay McKechnie, representing the two clubs, and read by the latter, was a clever production and was much enjoyed.
The debate was: "Resolved: That man has worked more for the love of money than for the love of humanity." The Edge Hill speakers, H. H. McDonald and W. J. Ritchie, represented the affirmative, while the negative was strongly upheld by the Rocky speakers, Miss Sadie Lawrence and Mr. Harold McKechnie.
The affirmative speakers showed where a great many in the professions appeared to be influenced by the love of money. Strikes, monopolies and combines were mentioned, also the rush to the gold mines, the slave trade and the forcing of the opium trade on China by the British Government.
The negative speakers emphasized instances where appeals for aid offering money as the reward had failed, while appeals for the love of humanity had met with a ready response. The heroic sacrifices of the soldiers in the Great War, the splendid work of doctors and nurses, the aid of institutions, and hospitals, were also mentioned to show what man was doing for the love of humanity.
Mr. Charles Weppeler of the Rocky acted as timekeeper and allowed each speaker twelve minutes, the leader of the affirmative having four minutes for reply.
The judges were Revs. Smith, Whealen and Peters, the latter taking the place of Mr. C. C. Middlebro' who was unable to be present.
The judges' decision was presented by Rev. Smith, who explained how they had arrived at their decision.
The Rocky speakers were awarded the debate by a nice margin, and are to be congratulated on their splendid showing. Edge Hill, however, is in the lead on the two debates, the total scores standing, Edge Hill 136, and the Rocky 127. This

leaves Edge Hill the winners of the round and they must now meet No. 7, Normandy.
Mr. Peters and Mr. Whealen both spoke briefly mentioning the benefits to be derived from debates such as had taken place this winter. Lunch was served, after which the meeting was brought to a close by singing the National Anthem.
Remarkable Demise.
The ways in which application forms for insurance are filled up are often more amusing than enlightening, as the British Medical Journal shows in the following selection of examples:
"Mother died in infancy."
Father went to bed feeling well, and the next morning woke up dead."
"Grandfather died suddenly at the age of 103. Up to this time he had fair to reach a ripe old age."
"Applicant does not know cause of mother's death, but states that she fully recovered from her last illness."
"Applicant has never been fatally sick."
"Applicant's brother, who was an infant, died when he was a mere child."
Grandfather died from a gunshot wound, caused by an arrow shot by an Indian.
"Applicant's fraternal parents died when he was a child."
"Mother's last illness was caused from chronic rheumatism, but she was cured before death."
Capital Idea.
(St. Catharines Standard.)
The St. Thomas Times-Journal says, "You can spell Labor without a capital, but you can't run a Labor

Government without it." That's why some portion of the British Labor party wants a capital levy.

Every Bad Leg
needs Zam-Buk, whether it result from an old sore or injury, or is more often the case, through old standing varicose weakness. How the powerful herbal Zam-Buk builds-up the weakened tissues and sets things right, is told by Mr. R. S. Reynolds, of Leesburg, Fla., U.S.A.
"As the result of inflammation set up by a horse kick," he writes, "terrible sores appeared all over the lower part of my leg. It was a year before the limb took a real turn for the better."
Needs
"I started out to try Zam-Buk, quite prepared to persist with the balm if it showed the least sign of doing good. Zam-Buk's first effect was to remove from the sores all their angry inflamed appearance. New skin and tissue formed as I persevered with Zam-Buk, and every sore was gradually but surely healed."

THE
VOL. 57.—NO. 2960.
VESSIE IS CHAMPION; BRINGS IN 1,600 FEET
Biggest Load of Logs of the Season Delivered to Factory Yards on Tuesday of this Week.
Last week we reported George Newell as having brought in 1,330 feet of logs to the yards of the Durham Furniture Company, which up to then was a record. Previously, William Vessie north of town had hauled in 1180 feet.
Not to be outdone, Mr. Vessie this week hauled into town the biggest load of the season, scaling 1,600 feet at the factory yards. This load surpassed by 270 feet, the nearest competitor, and was all hardwood, consisting of nine logs.
We are waiting watching and wondering what the next week will bring forth—whether Mr. Newell will try for another record; whether Mr. Vessie will endeavor to beat his own, or whether some dark horse is lying back and will walk into town some fine day with the record load of the season.
According to the Owen Sound Sun-Times, which has also been reporting some big loads up in that county that none of our local teamsters can touch, there is a new-spacer scrap on in which one driver accuses another of "searching the bush" for dry logs in order to make a bigger load. We might say for the Durham teamsters, however, that their loads are all hardwood, cut this year, and are therefore heavy.
We are waiting for new records to be hung up.

GUELPH LADY DIED HERE
AT HOME OF DAUGHTER
Mrs. Elizabeth Jones Died Sunday at Home of Daughter, Mrs. A. W. Nicholson—Interment Made On Tuesday in Guelph Cemetery.
Many Durham friends will sympathize with Mrs. A. W. Nicholson and family in the death at their home here on Sunday night of Mrs. Nicholson's mother, Mrs. Elizabeth Jones, which occurred following an attack of influenza and pneumonia. Mrs. Jones had been visiting with her daughter here since Christmas, and while not well-known in Durham, was very highly esteemed by those who had the pleasure of her acquaintance. The remains were removed from Durham Monday morning and taken to the home of her daughter, Mrs. A. Alan, Guelph, from where the funeral was held to Guelph cemetery.
Mrs. Jones was a well-known resident of Guelph, and Monday's "Mercury" pays the following tribute to the passing of a highly esteemed resident of the city. It says:
"In the passing of Elizabeth Jones, widow of the late John Jones, whose death occurred at the home of her daughter, Mrs. A. W. Nicholson, Durham, on Saturday, Guelph lost one of her oldest residents. The late Mrs. Jones, who was in her 72nd year, was a native of Ayrton, but resided in Ayrton until she was 16 years old, when she moved to this city, where she had resided continuously for the last fifty years in the family home on Preston street. Mrs. Jones left Guelph on December 26, on a visit to her daughter in Durham, and it was there that she contracted influenza, followed by an attack of pneumonia, to which she succumbed. The deceased was particularly well known and highly respected in the community, having gained many warm friends during her long residence in the city. Her passing is a dear loss to her family, who will long mourn the loss of her dear mother, who was a devoted member of the Christian delphian faith. She leaves to her daughters, Mrs. Alex. Alan, Guelph; Mrs. T. W. Nicholson, Toronto; Mrs. A. W. Nicholson, Durham; and three sons, John, Richard and Arthur of Guelph. The deceased is survived by one sister and two brothers, her death being the first break in the family."
The Chronicle joins the numerous friends here in tendering sympathy to the sorrowing ones.
