Why Ford Predominates

Simplicity of Operation

The Ford is remarkably easy to operate. Gear shifting is done automatically by the feet. The driver's hands are always on the wheel. His eyes are always on the road. He can watch traffic constantly.

There is no possibility of failure to accomplish a gear shift. Ford gears being of the planetary type are always in mesh and every shift is positive and unailing.

The Ford is very easy to steer and responds to the slightest movement of the wheel. It will turn in a circle with a radius of nineteen feet three inches.

The short Ford wheelbase is a boon in congested traffic. It gives easy manipulation everywhere, and enables you to park in crowded sections where a big car is handicapped.

Mather—Shewell—That Council adjourn to meet Monday, the 5th day of May at 3 o'clock, opening tenders for abutment and flooring of Porter's bridge and transaction of general business.

—J. H. Chittick, Clerk.

An Epitaph.

Here lies the boys whose crown was won.

By blowing in an empty (?) gun.

As soon as in the gun he blew.

Up the golden steps he flew.

And met the girl on heaven's green

Who lit the fire with kerosene.

Every Wife Should Know

that Zam-Buk contains in most compact form all the essentials of a perfect ever-ready home skin medicine.

This grand herbal preparation is beautifully soothing for cuts, burns, scalds, etc., or for chafed and chapped skins. It removes all danger of germ-infection, poisoning or inflammation, and heals the most troublesome wound or sore with remarkable ease.

ZAM-BUK is "A Surgery in a Two-inch Box," useful for both Accidents and Skin Disease.
