In an interview with Dr. Jamieson MRS. JAMES WEBBER at his home here on Tuesday, he stated that he was not in a position to give any information, but has called an organization meeting for next Tuesday at Toronto in order to lay out a definite program.

So far as he would say at present it is the intention of the committee to investigate all conditions surrounding every phase of the farming industry, including transportation and co-operative marketing and in every way to endeavor to direct the labors of the farmers into such branches of agriculture as would be most remunerative.

"Different parts of the Province." said Dr. Jamieson, "are adapted for different branches of agriculture, and attention will be given to dairybreeding of horses, sheep, referesta-
