"BETTER HEALTH through BETTER BREAD" Ask for Browns' Genuine 100% Pure Wholewheat Bread. Nothing added, nothing removed from the wheat berry. MOST of the so-called "whole-wheat" flour sold is not genuine whole-wheat flour. Practically all such flour has certain important elements removed from it in the milling process, so that it will "keep" longer. That is why, even when you bake your own "brown bread" you are not assured of getting genuine whole-wheat bread. Buy Browns' 100% Whole-Wheat "Community" Bread and you will get the genuine. J. & W. AGRICULTURAL BOARD WILL HOLD TWO MEETINGS IN DURHAM

Afternoon At 2 P. M., and Evening At 8 P. M.—Evening Session, Besides Business, Featured by Good Program and Band Music.

The two meetings of the Ontario Agricultural Enquiry Committee here next Tuesday, promises to be a good one and one that it will pay every agriculturist and business man to attend. In the afternoon, the session will partake of a strictly business nature, but in the evening, besides business, a good program is being arranged for, and as an added attraction, Durham City's Band will render several selections.

There will as well be short speeches from members of the Committee, and others. At this juncture it is perhaps well to reiterate what was said last week: The Commission is not here to lecture the farmers or give them any "arm chair" advice on how to do their work. The Committee has been sent out to confer with the farmer in the various sections of the Province, hear their views as to what is the matter with agriculture, listen to their suggestions as to the possible manner of improving these conditions, and then, as business men, try and advise with them in an effort to put agriculture on its feet.

It will be seen that to do this there must be co-operation between the farmer and the Commission. Without it everything is lost, and it is to be hoped there will be a good attendance next Tuesday both afternoon and evening. There is no admission charge and no collection. All it will cost any one who cares to attend is his time, and he will be well repaid for that. Ladies as well as men are invited.

Speaking from a business standpoint, the Enquiry Committee can not be said to be anything new. Businessmen of all trades usually meet once a year to compare notes, talk over conditions, and make arrangements for the next twelve months. Nearly every industry has its annual convention. The only difference in the present case is that the Government bears all the expenses of the Agricultural Commission, while the annual meetings of the Canadian Manufacturers' Association and other industries outside of agriculture have to be financed by the companies themselves.

It would be difficult, however, to have an annual meeting of agriculturists—there are so many of them, but with success this year we feel safe in predicting that the Agricultural Enquiry Commission has come to stay and, while possibly not an annual affair, will meet frequently to confer with the agriculturists of the province with a view to talking over the conditions of the business with a view to offering suggestions as to its improvement. Personally, as to the Agricultural Commission, it is a good thing to us.

Contrary to what some people seem to think, the Commission is an absolutely non-political organization and deals only with the business end of the farming industry.

TO INCREASE PROGRAM OF HIGHWAY BUILDING Ferguson Government Influenced by Conditions of Unemployment.

Influenced by conditions of unemployment existing in the province, the Ferguson Government has decided to increase by \$1,250,000 its contemplated expenditure during the summer on Ontario highways. Announcement to this effect was made today by Hon. George S. Henry, minister of highways and public works.

Mr. Henry said that the decision had been made to undertake an additional 50 miles of road paving. The work, he declared, would be carried out in places which still formed gaps in the provincial highways system.

The Government's original program for this season was the paving of some 115 miles of road, and the grading of an additional 75 miles. The projected cost of this work was in the neighborhood of \$5,500,000.

MILDMAY ASKS COUNTY TO TAKE OVER BRIDGE

Bruce County Will Be Invited to Take Over Mildmay Bridge. The local council had the county engineer examine the Absolon street bridge, with a view to having it revert to the county. The bridge will have to be rebuilt this year and Reeve Fedy will bring the matter before the county council. This bridge is subjected to much heavy traffic, the highway being a connecting link between the provincial and county highways. It is estimated that the new bridge will cost about \$5,000.
