### Down But Not Out.

Coach (to young lady student who has torn her bloomers while playing baseball)—Do you want a substitute? Young Lady (full of school spirit) No, I want a pin.

## THE HANDLING OF MILK

### A Column Dealing With Milk and Its Products

**Pasteurization — Preservatives — Commercial Buttermilk — Cheese From High and Low Testing Milk. —Milk From Sweet Clover —Gelatin and Bacteria in Ice Cream.**

(Contributed by Ontario Department of Agriculture, Toronto.)

Following are summaries by the Department of Extension of the O.A.C., Guelph, of work done in that institution with milk and some of its products:

#### Value of Pasteurization.

To test the value of pasteurization as an acid in keeping milk in a usable condition for a long period, a study was made by the Dairy Department of the Ontario Agricultural College during July of 1923. Similar samples of raw and pasteurized milk subjected to a temperature of 53° to 54° F., gave results as follows: The raw milk did not keep for twenty-four hours, while the pasteurized milk was sweet at end of third day. Similar samples of raw and pasteurized milk held at 37° to 43° F., gave the following results: The raw milk kept sweet for less than forty-eight hours, while the pasteurized milk was still sweet and in good condition at the end of two weeks. The trials show the great value of pasteurization in the fluid milk trade and the necessity of low temperatures for holding the milk after pasteurizing.

#### Milk Preservative.

Investigational work carried out by the Department of Bacteriology, O.A.C., that is of special interest to the cheesemakers and managers of factories, was concluded during the past year. Many factory managers had experienced trouble in keeping the composite samples of milk in good condition for the period required by the Dairy Standards Act. The result of the O.A.C. Bacteriological Department investigation shows that not less than six grains of corrosive sublimate is required to keep a one pint sample in good condition for forty days. The amount should be used if the butter fat tests are made either once or twice a month.

#### Commercial Buttermilk.

In the Dairy Department of the Ontario Agricultural College during the past season a few lots of commercial buttermilk were made by using either pasteurized skim-milk, or the buttermilk from churnings of pasteurized sweet cream, not ripened before churning. To the milk was added 20 per cent. water, 5 per cent. culture and one-half ounce of salt per one hundred pounds of milk. This was allowed to stand until the next morning when it was nicely coagulated. The coagulated milk was then poured into the churn and churned for about twenty minutes. This made a buttermilk that was in good condition, had good flavor, was smooth, and did not separate. After churning one lot for fifteen minutes a small amount of cream was added. The churn minutes were continued until the nine minutes the cream had churned into fine butter granules which gave it the appearance of "old-fashioned" buttermilk and was well liked. Comparative Yields From High and Low Testing Milk in Cheese-making.

Investigations carried out by the Dairy Department and the Chemistry Department of the O.A.C. College with regard to high testing milk used in the manufacture of cheese gave results that are interesting to cheese factory patrons. The low testing milk contained 12.01 per cent. solids and 3.41 per cent. fat. The high testing milk contained 12.29 per cent. solids and 3.62 per cent. fat—not very much difference between the two samples. The yield of cheese per 1,000 lbs. of milk was \$9.85 lbs. from the low testing lots, and \$9.84 lbs. from the higher testing lots, or nearly six pounds of cheese more per thousand pounds of milk for a very small increase in the percentages of fat and total solids. This is further evidence of the injustice of paying for milk on the basis of weight only and not considering the fat and solids content of milk when dividing money among patrons of cheese factories.

#### Milk From Sweet Clover.

The Dairy Department of the Ontario Agricultural College made four lots of butter during July when the cows were pasturing on sweet clover. The butter was scored when fresh, and again after holding in storage, but none of it had a flavor that could be attributed to sweet clover. These results are similar to those obtained in 1922.

#### Gelatin and Bacteria in Ice Cream.

With the great increase in the consumption of ice cream and the development of the ice cream manufacturing business various schemes have been evolved to take care of the demand in a way profitable to the manufacturer when selling this food, making examination of various samples of gelatin sent to the Bacteriology Department of the Ontario Agricultural College some samples were found to have a bacterial content as high as 960,000 per gram. Wholesome ice cream cannot be made if low grade gelatin is used in its preparation.

#### Cowpeas.

As a rule cowpeas should not be cut for hay before the pods begin to turn yellow. The best quality is produced and the hay cures most readily if the vines are cut when most of the pods are full grown and a considerable number of them are mature. At that stage of growth none of the best hay varieties will have dropped their leaves and the plants will have practically attained their full growth.

## WEEKLY NEWSPAPER GIVES EXCLUSIVE NEWS

A prophet is rarely recognized in his own country, and one might add that a local weekly newspaper seldom has the support which it merits in its own community.

Support in this case means more readers, more subscribers, more circulation, which is the life blood of any paper. These weekly papers deserve support because having a definite and important mission in their respective constituencies, they fulfill it faithfully and well.

Every issue of the average weekly paper contains scores of news items which cannot be found elsewhere. In addition to the principal news of the day, your local paper publishes any number of interesting items about people you know, right in your own town or in the neighboring townships.

The reports of council meetings, agricultural societies, special sales, school and church news, fires, accidents, deaths and births, marriages, entertainments, advertisements or merchandise for sale by your own stores—all the hundred and one items of exclusive news are gathered and published for you every week in the year by your local paper, and you cut off a source of information, instruction, entertainment and guidance which cannot be replaced by any other medium.

Getting old is just a matter of keeping your mouth shut when there is nothing in particular to come out.

### NOTICE TO CREDITORS

In the matter of the estate of Charles Caldwell, of the Township of Bentinck in the County of Grey, Farmer, deceased.

Notice is hereby given pursuant to R.S.O. 1914, Chap. 121, Section 56, and amending Acts, that all persons having claims against the estate of Charles Caldwell, late of the Township of Bentinck in the County of Grey, Farmer, deceased, who died on or about the 18th day of January, A.D. 1924, are required to deliver or send by post prepaid to Lucas & Henry, Solicitors for the Administrator of the estate, on or before the 14th day of June A.D. 1924 their names and addresses, a full description of their claims in writing, and the nature of the security, if any, held by them.

And take notice that after such last mentioned date, the Administrator shall proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which she shall then have notice, and the said Administrator will not be liable for the said assets, or any part thereof, to any person or persons of whose claim notices have not been received by her at the time of such distribution.

Dated at Durham this 21st day of May, A.D. 1924.  
LUCAS & HENRY,  
Solicitors for Jane Caldwell,  
Administratrix of the Estate.

### NOTICE TO CREDITORS

In the matter of the estate of Thomas Bailey, late of the Township of Bentinck, in the County of Grey, Farmer, deceased.

Notice is hereby given, pursuant to Section 56 of the Trustees' Act, R.S.O. 1914, Chap. 121, that all creditors and others having claims or demands against the estate of the late Thomas Bailey, who died on or about the 14th day of May, 1924, at the Township of Bentinck, in the County of Grey, are required on or before the 25th day of June, 1924, to send by post prepaid, or deliver to Middlebro', Spereiman & Middlebro', solicitors for the executors, their Christian names and surnames, and addresses and descriptions, the full particulars in writing of their claims, a statement of their accounts and the nature of the security, if any, held by them.

And take further notice that after such last mentioned date the executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said executors will not be liable for the said assets or any part thereof to any person or persons of whose claim notices shall not have been received by them at the time of such distribution.

Dated at Durham this third day of June, A.D. 1924.  
Middlebro', Spereiman & Middlebro',  
Solicitors for the Executors.

## POST OFFICE REVENUES

The report of the Postmaster General for the year ending March 31, 1923, has just been issued by Postmaster General Charles Murphy.

The surplus for the year of the work of the Post Office Department in Canada was slightly less than a million and a half dollars.

Interesting information regarding the gross revenue of the post offices is given. Here are a few of the figures of gross revenue for the different post offices in this district:

Allenford	\$1,712.77
Annan	294.89
Ayton	2,212.99
Barrow Bay	63.93
Berkeley	430.62
Bognor	467.55
Cargill	1,430.13
Ceylon	719.00
Chatsworth	2,996.18
Collingwood	23,080.57
Chesley	9,715.92
Clarksburg	2,897.03
Dornoch	488.90
Dundalk	5,674.40
Durham	7,483.75
Elmwood	1,606.22
Eugenia	413.05
Feverham	856.01
Flesherton	2,812.33
Hanover	15,645.94
Hepworth	1,409.99
Holland Centre	721.27
Kemble	801.68
Kilsyth	267.88
Lions Head	2,063.52
Mackdole	6,805.68
Meaford	11,945.82
Owen Sound	52,613.95
Port McNicoll	2,403.50
Shallow Lake	755.69
Tara	3,544.39
Tobermory	622.02
Warton	8,899.28
Williamsford	307.58
Woodford	439.38

### THINGS TO REMEMBER

There are only two cities in Canada giving a five-cent street car fare. These are Hamilton and Ottawa. In other cities the charges are as follows: Vancouver, 6 cents; Toronto, Montreal and Winnipeg, 7 cents; Calgary and Edmonton, 10 cents. All the systems in Alberta and Saskatchewan are municipally owned, and only one-man cars are used. The five prairie cities—Calgary, Edmonton, Regina, Saskatoon, Lethbridge—charge each a cash fee of 10c.

The Canadian fishing industry has dimensions greater than is generally known. There were 45,283,700 lbs. of sea fish landed on both coasts of the Dominion during February, while in the same period last year only 23,753,700 lbs. were taken. The value of these catches were 1,002,744 and \$749,139, respectively. Increased catches of cod, haddock, hake, pollock, herring, salmon, smelts and scallops were reported.

The national debt of Canada is frequently referred to in parliament and in the press, but that of the several provinces is not often referred to, except at election times. The funded debt of the respective provinces is a very heavy liability

## THEY TELL THEIR NEIGHBORS

### Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

and is given as follows: British Columbia, \$78,068.311; Alberta, \$75,537.386; Saskatchewan, \$52,772.777; Manitoba, \$86,331.121; Ontario, \$224,923.113; Prince Edward Island \$900,268.

A prudent man is one who has his blood pressure tested before reading his son's school report card.
