TEN NEW RIDINGS IN DOMINION HOUSE OF COMMONS

Nova Scotia Loses Two Seats, With Ontario and Quebec Unchanged.—Western Provinces to Have Additional Ridings, Says Redistribution Report.—Two Hundred and Forty-Five Seats in All.

After many weeks of map-studying, of giving and taking of protests of members at the proposed loss of ridings, and the merging of others, the report of the Redistribution Committee report is ready and was submitted to the House of Commons last Monday afternoon by its chairman, Hon. E. M. MacDonald.

The report was unanimous as far as the Liberal and Conservative members of the committee were concerned, but four Progressives dissented because of riding losses. Generally speaking and as outlined in the House when the Prime Minister introduced the Bill at the beginning of the session, there will be 245 seats in the next Parliament of Canada, instead of 235 as at present, or an addition of 10. The only Province to suffer a loss of seats is Nova Scotia, which must submit to the subtraction of two. Ontario and Quebec remain unchanged, as also do New Brunswick and Prince Edward Island. Additions are made in all the Western Provinces. Ontario changes are as follows: New constituencies—Three in Toronto, West Essex, Kenora and Rainy River, and North Temiskaming.

Seats eliminated—East Elgin, Simcoe South, North Oxford, East Peterboro, Lennox and Addington, Dundas.

The subtractions are as follows: Grenville and Dundas, to be joined as one constituency; Lennox and Addington disappears, Lennox going with Prince Edward and Addington with Frontenac; there will be one Peterboro instead of two, East Peterboro going with Hastings, the other Hastings to be South Hastings, instead of East and West Hastings as previously; there will be one Elgin instead of East and West; Dufferin disappears, to be joined with South Simcoe; North Ontario disappears, to be joined with Muskoka.

The Brantford seat will be known hereafter as Brantford City. To show how two seats are added in north-western and New Ontario, the new seats and the old seats will be given below: The old seats (six) were: Algoma East and West; Fort William and Rainy River, Port Arthur and Kenora, Nipissing, Temiskaming.

The new seats will be: Algoma East and West; Fort William, Kenora-Rainy River, Nipissing, Port Arthur-Thunder Bay, Temiskaming, North and South. The first important rural change is the combination of Dufferin with South Simcoe, the new seat to be called Dufferin-Simcoe. Then a change is made in Elgin, the two seats East and West, being united, but the Townships of Malahide and Bayham are excluded and the city of St. Thomas is included in Elgin. These two townships go to Norfolk.

There will be three Essexes instead of two, as at present. The three will be known as East, West and South Essex. Kent will include the gone of Chatham and will include the town of Tilbury, which goes to East Essex.

Fort William will be a seat in itself, Rainy River and Kenora going to make up the seat, Frontenac will take in Addington, which is taken from the present seat of Lennox and Addington, and Lennox goes to Prince Edward, making the latter seat Prince Edward-Lennox.

WILDER'S LAKE FOR FISH HATCHERY

Provincial Government to Deposit Black Bass for Experimental Purposes.—Arrive Next Week.

Some time next week a consignment of parent black bass will arrive in Durham and be later deposited in Wilder's Lake, situated in the government sanctuary in Egremont. This will be the first evidence in this part of the county of the one-time reported intention of the government to start a fish-breeding ground in this neighborhood.

Some years ago, Wilder's Lake had several thousand bass fingerlings deposited in it by local citizens which were purchased privately, and it has been generally understood ever since that the lake was fairly well stocked with this popular member of the finny tribe, though reports also state that so good was the feeling that they have persistently refused to be captured to any great extent.

It is with the idea of mixing the blood that the government recently approached Dr. Jamieson on the matter, with the suggestion that he allow the Department to deposit a certain number of parent bass with the understanding that they be allowed to remove a similar number of the new variety when they deem it expedient.

Should the experiment prove a success, it may be possible that either Wilder's Lake or some other lake in this part of the county may be used as a breeding ground for black bass with which to re-stock other districts from which the variety is disappearing.

GOOD FALL WHEAT GROWN ON GLENELG TOWNSHIP FARM

Cool Weather and Recent Rains Have Worked Wonders.—Hay Crop Much Better Than Anticipated Earlier in Season.

On Monday afternoon Mr. C. R. Robinson of Glenelg, now on the Moffat farm brought us in two long stalks of fall wheat each six feet two inches in length. These were pulled from a field of seventeen acres, about ten days previously and though above the average length, perhaps, Mr. Robinson tells us that in any part of the field the grain is sufficiently high to touch the hat of a man of ordinary height. Up to the present the grain is all standing straight up, and filling well. The crop promises to give excellent returns, forty bushels to the acre, being thought to be a probable average.

Grain crops in this locality are excellent in appearance and are filling well owing to the cool weather, or rather the absence of intense heat. The hay will be light generally, but much better than was looked for a few weeks ago. The recent rains have been worth millions to the farmers and they are cheerful over the prospects of a good harvest.

FISHERMEN MEET HERE NEXT WEDNESDAY

Good Attendance of Grey County Sportsmen Expected to Talk Over the Situation.

The meeting of fishermen and other sportsmen, called for the town hall here next Wednesday afternoon at 4 o'clock is, judging from the numerous replies being received by the sponsor, Hon. Dr. Jamieson, in reply to his circular of a few days ago, likely to be attended on a large scale by representatives from all over the county. While called a meeting for sportsmen, the session is open to all who are interested in the preservation of the fish and game, reforestation, and other live topics that will come up.

The question is an important one, and it is to be hoped that the meeting will be able to draft some sensible hints and resolutions to be presented later to the Department.

TRINITY CHURCH CEMETERY UNDERGOING IMPROVEMENTS

Work Commenced At Renovating Old Burying Grounds Last Week.

The trustees of Trinity church cemetery have commenced a campaign for the renovating and beautifying of the cemetery on the second concession of Glenelg, and already a couple of successful bees have been held, with the prospects of more to follow. About half the cemetery has been ploughed up and the leveling up will continue till completed.

There is no doubt that the transformation of Durham cemetery during the past couple of years has been largely responsible for the present movement, and the enthusiasm locally, especially among those having relatives buried there, speaks well for the success of the scheme.

We understand the trustee board will shortly issue an appeal to interested parties living at a distance for funds to carry on the good work, and it is to be hoped that a liberal response will be made.

Trinity cemetery is the last resting place of a good many of the old pioneers, who came to this country upwards of seventy years ago, and the plan to beautify the place should have the support of everyone, more especially those whose ancestors, parents or others, rest in this old burying ground.

DURHAM PUBLIC SCHOOL 100 PER CENT EFFICIENT

Entrance Results Show Principal Graham Successful in Passing All Pupils.—Four Took Honors.

The Entrance examination results came to hand Monday and were a pleasant bit of news to Principal Graham and his twenty-four candidates when it was known that out of those who wrote not one had failed. One hundred per cent efficient is about all any person can expect, and The Chronicle feels that the citizens of the town generally will join in congratulating Mr. Graham and pupils on their phenomenal success. The list of successful pupils who wrote at Durham and other centres appears below.

WEATHER LOOKS OMINOUS FOR HOLIDAY PLEASURE SEEKERS

Morning Broke Cold and Disagreeable, With Threatening Rain.

This morning looks anything but pleasant, and during the early hours was cold and cloudy. In fact, it looks anything but holiday weather and pleasure seekers over the half-holiday need not anticipate any real warm sunshine from present appearances.

This is the day the Presbyterian choir goes to Wasaga Beach, the Women's Institute to their picnic at Holstein Park, the Holstein football club play their semi-final game with Milverton, and the Durham junior baseball team clash in a league fixture with Drayton on the local diamond. To-day is also the day of the Mount Forest bowling tournament, with several local rinks competing.

It is to be hoped that the day will clear up and warm up for these various events, though it is not very likely this hope will be realized. It is more like a day in early spring, than the 17th of July.

SEATTLE TO DURHAM THREE WEEKS BY MOTOR

Washington State Residents Visit Bentinck Relatives, and Report Pleasant Trip Across Continent.

Mr. and Mrs. Ronald McDonald and two daughters of Seattle, Wash., return home this week after visiting his brother, Reeve D. J. McDonald of Bentinck, and sister, Mrs. Will Lamont of Brant, and other friends.

They motored the whole distance of 3,500 miles in a Ford touring car, and on returning will go by Buffalo, Chicago and Duluth. On the trip here they took a more southerly course, coming by way of Salt Lake City, and entering Canada from Port Huron. They had wonderful luck, and with the exception of a couple of punctures and breaking two spring leaves, they had no mishaps.

They had a camping outfit with them and spent only two nights in hotels during the trip of three weeks and three days. The roads were not all good, but an average of about 150 miles a day shows the going to be good as a rule. They used 154 gallons of gasoline, an average of 22 miles to the gallon. The most of this would be American gallon measure, five gallons being equivalent to four of our gallons. Figured on the basis of the Canadian gallon, they made a trifle over 28 miles on a gallon for the whole trip.

W. J. FIRTH WAS CONTRACTOR WHO BUILT RETAINING WALL

CHRONICLE IN ERROR LAST WEEK IN REPORTING WORK DONE BY McDONALD AND SON.

In our report of the completion of the retaining wall on Garafaxa street hill last week, we gave the credit for its erection and the superior work done to McDonald and Son, having been informed by a member of the council, who no doubt inadvertently gave us the wrong name.

The retaining wall was contracted for and built by W. J. Firth of Upper town who made an excellent job of it, with which the council was well pleased.

Messrs. McDonald and Son were the contractors on the sidewalk running from Dr. Smith's residence south on Countess street.

TRANSFERRED TO WINDSOR

Mr. S. Cull, for the past ten months accountant in the Royal Bank here, leaves for Windsor on the 1st of the month, where he has been transferred. Mr. Cull, though a comparative stranger in town yet, has made a lot of good friends, who regret his departure, and we believe, he himself feels that he would like to remain longer, but as the transfer to Windsor is a promotion, he would be indeed foolish not to move.

While here he was a courteous, efficient official, and a valuable asset to the local branch of the Royal Bank.

His place here is being taken by Mr. J. L. Casey, transferred from Embro.

PRESENTED WITH RING BEFORE LEAVING TOWN

Mr. D. G. Banting, who has for the past three or four years been accountant in the Standard Bank here, left for Stroud, near Barrie, Tuesday afternoon, where he has been appointed manager of the branch at that place.

Before his departure, a few of his friends met at Town's jewellery store and presented him with a Masonic signet ring. Though impromptu, the gathering was a most pleasant affair and Mr. Banting expressed his appreciation of the gift and of the good wishes of his friends.

TWENTY-THREE LODGES IN TWELFTH PROCESSION

Celebration Last Saturday In Durham An Unqualified Success.—Between Four and Five Thousand People In Town for Glorious 12th.

ST. PAULS AND KNOX HOLD ANNIVERSARIES ON SUNDAY

Egremont and Normanby Churches Should Have Big Attendance at Sunday and Other Gatherings.

The annual anniversary services of St. Paul's Anglican church, Egremont, and Knox Presbyterian church Normanby, are being held on Sunday afternoon and evening next.

On Monday evening the annual St. Paul's garden party is being held on Mr. Thomas Tucker's lawn, and on Wednesday evening the Knox church congregation will hold their garden party on the grounds at Watson's school house.

Both these annual events are popular affairs and will likely draw a large crowd.

SUCCESSFULLY GRADUATED FROM CHIROPRACTIC SCHOOL

Mr. and Mrs. Joseph Patterson, who have been in Toronto for the past couple of years are visiting friends and relatives in town and vicinity. Both graduated recently as Chiropractors and are entitled to the prefix "Dr.". Dr. Patterson is a son of Mr. and Mrs. Samuel Patterson on the second of Glenelg and Mrs. Patterson is a daughter of the late Joseph Atkinson and Mrs. Atkinson. We congratulate them on their success and hope they may be equally successful in the practice of their profession. They have not yet decided where they will locate.

BASIS OF NEW CHURCH WAS LAID THIS WEEK

Board of Trustees Appointed At Toronto To Ask and Receive Funds

At a meeting of the executive of the Presbyterian Church Association Monday afternoon and evening, held in St. Andrew's Institute, Toronto, presiding, and members present from Nova Scotia, New Brunswick, Manitoba and Quebec and many parts of Ontario, a board of trustees representative of all parts of the Dominion was appointed to ask for and to receive funds "for the continuing of the Presbyterian church at home and abroad." This board will, for all practical purposes, be the nucleus of a new Presbyterian church in Canada which will carry on Presbyterian affairs for those churches and congregations which do not go into the new United Church of Canada.

The Trustees

The personnel of this board of trustees, consisting of 25 leading Presbyterian ministers and laymen, as named will be as follows:

H. A. Robson, K. C., Winnipeg; Judge A. Farrell, Regina; J. MacGregor Mitchell, Halifax; Col. Thos. Murray, Glasgow; John N. B., and John McCall, Montreal; James Rodger, Montreal; Jackson Booth, of Ottawa; General Arthur Ross, Kingston; Hon. John Agnew, Charlottetown; D. G. T. McQueen, Edmonton; D. W. L. Clay, Victoria, B. C.; Thos. McMillan, Toronto; Colonel Moodie, Hamilton; James Scott, Rev. D. T. L. McKerrill, Rev. John G. Inkster, Rev. T. W. Taylor, James Taylor, James Turnbull, G. Tower Ferguson, Colonel J. F. Michie, Adam Ballantyne, K. C., Rev. J. A. Mustard, J. A. Milne, all of Toronto; John Penman, Paris, Ont., Dr. A. J. MacGillivray, Guelph, Ont., D. A. J. Fraser, of Montreal, as chairman.

Steps were taken to complete organization in the branches in various parts of Canada for the continuance of the Presbyterian church.

Determined To Continue.

The reports received from all sections of the Dominion, stated Rev. J. W. McNamara, secretary, indicated a firm determination to carry on the work of the Presbyterian church.

A sub-executive committee of the association, consisting of twenty members, was appointed to draw up a statement defining the policy of the Presbyterian Association auspices, in various parts of the Dominion for the purpose of making more fully known the association's stand and objects.

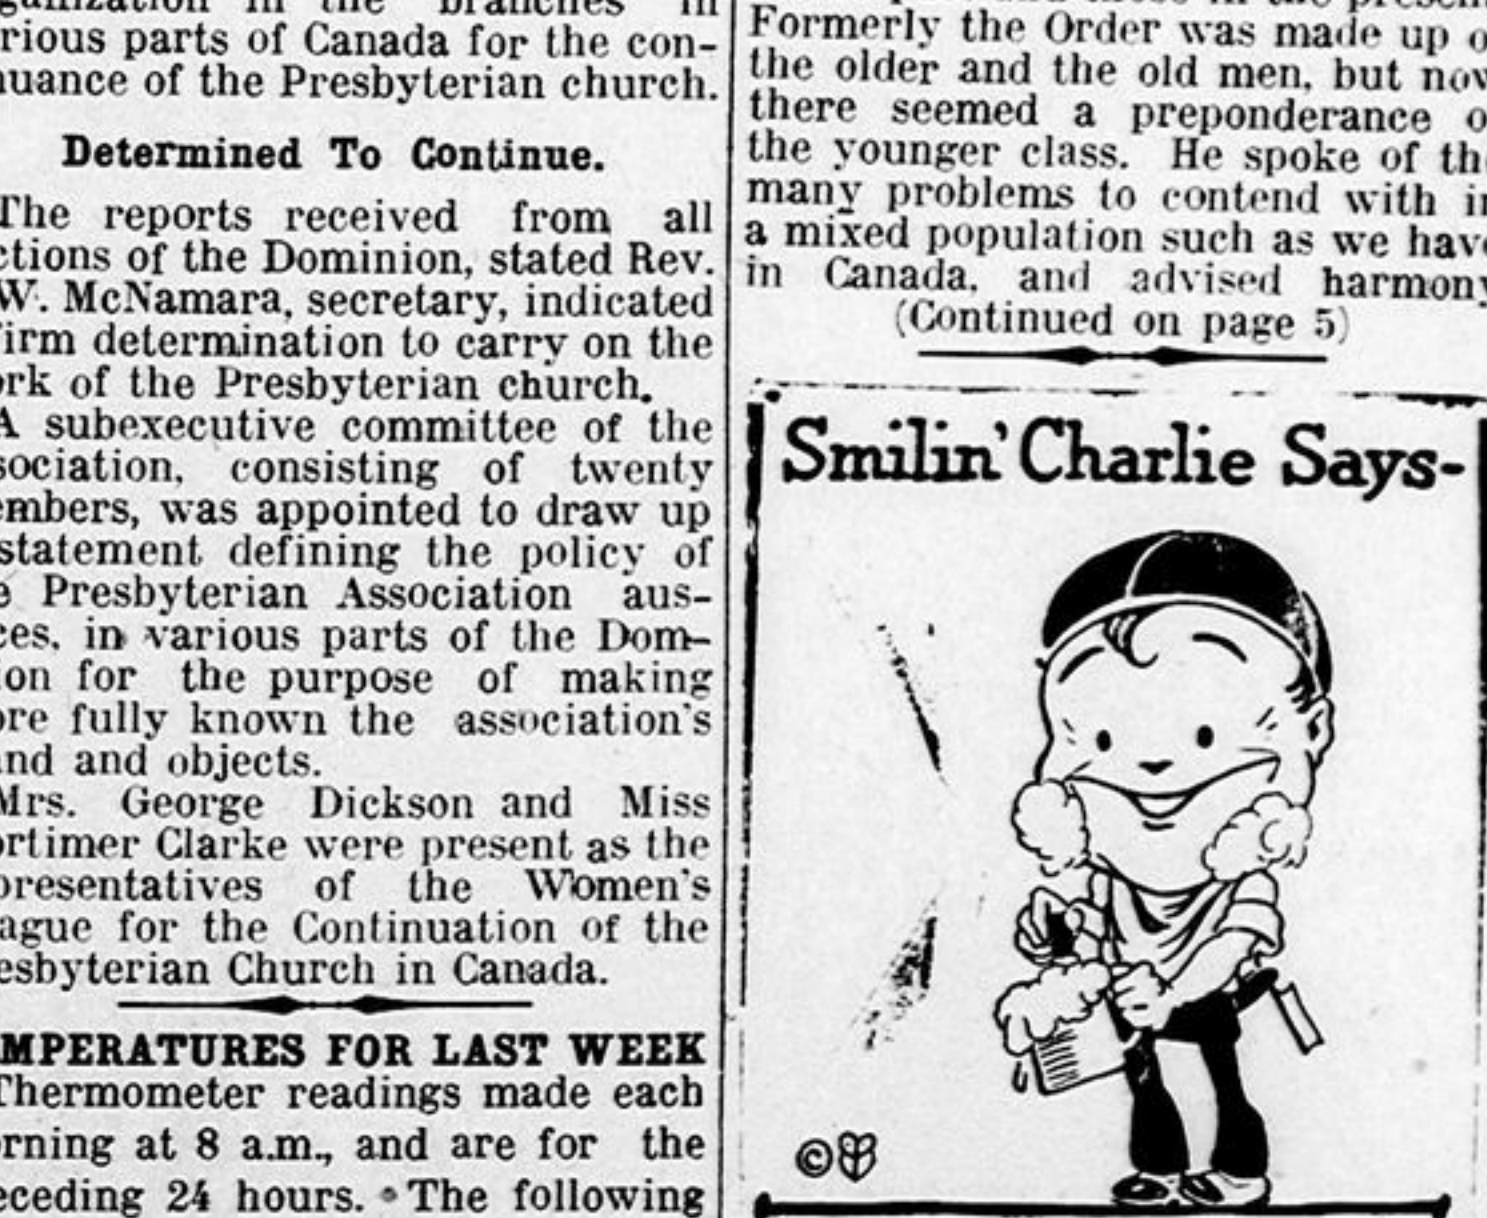

Mrs. George Dickson and Miss Mortimer Clarke were present as the representatives of the Women's League for the Continuation of the Presbyterian Church in Canada.

TEMPERATURES FOR LAST WEEK

Thermometer readings made each morning at 8 a.m., and are for the preceding 24 hours. The following are the maximum-minimum temperatures for the week:

	Max.	Min.
July 11	77	52
12	79	61
13	80	64
14	72	50
15	69	42
16	74	61
17	69	49
