

FARMERS NOT EXCITED ABOUT PLEBISCITE

Politicians Who Blew Hot and Cold Now Blow Wet and Dry.

According to Alexander Smith of Ottawa the farmers are vitally interested in the success of the efforts of the League of Nations and kindred organizations working for the revival of trade between nations and the establishment of peace.

Crops and Animals
The crops in Bruce county are fine. They are away above the average. Even fall wheat has come back to the proud position it occupied many years ago.

Flocks of Fowl
Do the farmers feed their grain? Yes, practically all of it, except the fall wheat, and some of that is fed to the fowl, for a farmer is not satisfied with his efforts unless he has flocks of hens, ducks, geese and turkeys.

League of Municipalities
What about amusements? The farmers in due course will figure out any change desired in their own amusements or recreations. They realize that it is not nonsense they want, but some modes or methods of resting the body and at the same time acquiring information and knowledge, for farmers their wives and children have to be posted on many subjects. To assist them in this, they would welcome community of interest and co-operation between the villages, towns and townships.

Now Wet and Dry
You ask about the O. T. A. The farmers are not excited about it. They realize the storm of the last century blew hot and cold, and the politicians of the present day blow wet and dry. This has given and gives opportunity for public opinion to develop as it has done.

15,000 MEN WANTED TO HARVEST WESTERN CANADA'S CROPS
The special Harvesters' trains of the Canadian National Railways from all Ontario points as advertised will make the fastest time to Winnipeg, operating via the new Longlac cut-off, the shortest route between Eastern and Western Canada.

HIGH-LACED SHOES FOR THE CHILDREN URGED

Doctor Hiles Warns Mothers Against Forcing Babies to Walk

Dr. LeRoy V. Hiles, London chiropodist, has prepared the following talk on the important subject of the care of the feet, which appeared in a recent issue of The London Advertiser:

The foot of an infant is generally perfect. It grows rapidly and great care should be taken in selecting the softest materials for shoes and giving sufficient length and width to allow for this growth.

As the infant grows the muscular strength of the legs is increased and eventually the limbs are strong enough to support and carry the body weight. At this time the child will commence to walk of its own accord.

Let us now discuss a few of the more common ailments of the foot. The term 'broken arch' is absolutely a misnomer. Nothing breaks. It is merely a weakening of the leg muscles which cause the foot to be less arched.

Let us now discuss a few of the more common ailments of the foot. The term 'broken arch' is absolutely a misnomer. Nothing breaks. It is merely a weakening of the leg muscles which cause the foot to be less arched.

Farmers Must Co-operate

(Continued from page 1)

ities always had higher quotations for hogs than others—they had the quality, the packers knew it, and were willing to pay for it.

The speaker next dealt with the hog situation generally throughout the country, showing what constituted the good market hog. He said we are raising more hogs than the local market could consume, and it was this surplus that had to go overseas.

Referring to the system of grading, Mr. MacDonald said it was not the hardship many thought. Under it, the producer was paid for quality. The man who raised the best product received the higher price.

Water! Water! Water!
What Is Good Health Worth?
Why take a chance and use water that is polluted and unfit for domestic use, when Pure Water can be had by having a well drilled. We handle Pumps and Pump Repairs.

Satisfaction Guaranteed
