NOT ENTIRELY A JOKE

In describing the political situation in the United States, the Globe correspondent, Mr. Tom King, says that Mr. Davis already humorously complains that democratic prohibitionists are alarmed by the report that he was once President of the Bar Association. It is by no means certain that this would not | be used as an effective argument against Mr. Davis, ridiculous as it may appear. There is a Canadian instance of a similar perversion. When Mr. Laurier-as he was then known-entered the McKenzie government he had to face a by-election in which it was charged against him that he was not a good Catholic. He had become a Minister, and some of his enemies represented that this. meant a minister preaching from a Protestant pulpit. It was also said his children had not been baptized -which was true in words, though false in intent. for Mr. Laurier had no children. He was defeated, and it may be that these stories contributed It would be unwise for the friends

of Mr. Davis to suppose that his Being engaged and then getting four weeks of age. Shelled corn is Presidency of the Bar Association will not turn away prohibition votes. unless fully explained. For one person who thinks of the legal profession when the Bar is mentioned there are hundreds who think of the saloon. The tricky politician never dismisses a charge because it is absurd; he has an uncanny understanding of the working of the uninformed mind.
