"ZAZA" STAR ROLE OF MANY NOTED ACTRESSES

Gloria Swanson in New Paramount Picture Said to Excel Them All.

When "Zaza," the great French play was produced in Paris some twenty-five years ago, and which was the starring vehicle for Madame Rejane, it was believed by many critics that it would be impossible for any American actress to portray that arduous role as artistically as the actress named, but these critics were in error as the evidence show-ed. The play was for many years a reigning success on the American stage with many notable actresses in the title role.

The picturization of this charming play by Paramount with beautiful Gloria Swanson in the title role is said by many to be a far more powerful characterization than has ever been seen on the American stage or screen. In this splendid picturization, which will be shown at the Veterans' Star Theatre

Friday and Saturday. Miss Swan-son relies entirely upon the power of pantomime art in which the French always have been adepts, but those who have seen the great screen artist in her wonderful em-cional interpretations, in which she has appeared for several years, will be the first to declare that Miss Swanson is the only American screen star who vests the role of "Zaza" with a power never hereto-

fore witnessed in silent drama pro-ductions.
The support provided for Miss Swanson in this play, headed by H. B. Warner, is exceptionally prais-eworthy, each role being in the hands of an artist. The photoplay was splendidly produced by Allan Dwan and in point of direction and pho-tography, as well as sterling portray-als, it ranks as a masterpiece of the screen.

D. M. SAUNDERS
Gent's Furnisher - Durham, Ontario

The Moderation League of Ontario

President, Mr. I. F. Hellmuth, K.C.

The large majorities in favor of Government Control cast, one after the other, by the Western Provinces of Manitoba, Saskatchewan and Alberta were not made possible by the votes of only those who desired a change for the purpose of personal indulgence. There could have been no adoption of Government Control had it not been for the votes of total abstainers. In Manitoba, after almost a year, only a small proportion of those who voted for Government Control has taken out permits to purchase liquors.

An examination of the figures will further show that very many people who had previously voted for Prohibition had, after several years' trial, decided that the time had come for a change.

Why?
Not because it was desired to revert to the old "Bar" system of drinking. Not because there was any question about the universal desire for tem-perature, respect for law, and decent environment for the children.

Not because the public conscience had become deadened.
But Because:
There had grown a feeling, amounting to a conviction, that Prohibition was not living up to the prophecies of those who had advocated its adoption, and that it was creating evils as great as those it pretended to subdue, but much more difficult to deal with.

Thoughtful men and women do not ignore what they experience and observe. It is generally agreed that a step was taken in the right direction when the public drinking bar was abolished. But the good of that step has been challenged by the enormous traffic done by the Bootlegger and the huge output of the home-brewer and illicit distiller.

The Moderation League proposes to hold to the good that has been accomplished, but to meet squarely the challenge of the Bootlegger and the Moonshiner.

Prohibition does not frighten the Bootlegger. It created him, and it keeps him alive.
Does anyone doubt how the Bootlegger will vote on October 23rd?
Does anyone think that if the Bootlegger could be assured that present conditions would last for, say, ten years he would not greatly extend his business, and become even more daring in his operations?

In the meantime the Bootlegger has grown wealthy and powerful. No matter what is done he will not now be easily abolished. Drinking contin-ues on a scale the magnitude of which is unsuspected by the ordinary citizen, and consequences, which do not find their way into statistics, but are nevertheless disastrous to the individuals concerned and to the com-munity, follow.

The decent, self-respecting and law-abiding citizen has been penalised, but the orgies of the other class, provided they are conducted with sufficient secrecy, have remained unchecked.

The Province is also losing the huge revenue which those who desire to use liquor, properly and moderately, are willing to pay for the privilege. Can the Province afford to lose this revenue? Can it continue to ignore the conditions being created on every side?

The answer lies with the electorate.
With many of the ideals of Prohibition the Moderation League of Ontario is in entire sympathy. The only motive underlying the activities of the League is that of a sincere desire to promote the interests, social, financial, and moral of the Province. There is no wish to provoke contro-versy or ill-feeling. Appeal is made to the experience and observation—not to the passions and prejudices—of the people of Ontario. It is con-tended that there exist sufficient grounds obvious to anyone who does not willfully close his eyes to them and regarding which there is no difference of opinion, to justify the position taken by the League.

Altogether, the time has come for a change.
Government Control can be had by marking your Ballot as follows:—

1 Are you in favour of the continuance of The Ontario Temperance Act?
2 Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Govern-ment control? X
