Dr. Tuck of Toronto spent the week-end with Mr. and Mrs. A. Tuck.

Mr. and Mrs. L. B. Nicholson and boys of Weston, formerly of this place, spent the early part of the week renewing acquaintances.

Arthur Abbs spent a few days recently with his parents at Tiverton. R. J. Gadd, accompanied by Arthur Brown and Clarence Fenton, went to Hamilton on Sunday. Mrs. Gadd had spent the week in that city and Mr. Gadd motored down to bring her home. When the return trip was to be made, Arthur and Clarence could not be located, hence were left in the city. As the return trip was being made, an accident occurred that might have proved serious. A car going the opposite way was being met. This car was being followed by another car which turned out to pass the car in front. By the way this car was turned it appeared to Mr. Gadd that it would collide with his car, hence he guided his car to avoid a collision. As he was close to the side of the road his car went over a fifteen-foot embankment. The top and windshield were smashed. Mrs. Gadd had her leg badly injured and Mr. Gadd's hand was badly cut. The car was righted and brought Mr. and Mrs. Gadd home without any further trouble.

ALTITUDE GIVES FLAVOR TO TEA

Orange Pekoe Simply Name of Leaf.

"Let me have a pot of orange pekoe tea."

How often we hear this expression in restaurants and tearooms. Yet, if you asked "What is orange pekoe?" the answer would almost invariably be, "I don't know, but I do know it is supposed to be good tea."

Orange pekoe is simply the name of the leaf and the distinguishing mark of the size of the leaf. It is not arbitrarily nor necessarily the best tea by any means. You may have good, bad or indifferent orange pekoe tea.

Goodness of the leaf is judged by the flavor, which depends upon two things, the elevation at which the plant is grown and the care exercised in the manufacture of the tea.

The higher the elevation of the tea garden the richer the leaf is in essential oil, which constitutes its flavor.

Every Government Sale Province is a Bootleggers' Paradise

LIQUOR once sold cannot be controlled. The evil lies in the liquor, not in the method of its sale, nor in the form of the package. This is proven in every Canadian province where government sale, in varying forms, has been tried. With easier access to intoxicating liquor, drinking has increased enormously. More drunkenness and crime associated with drunkenness have naturally followed. Bootlegging—instead of being CURED by so-called government "control"—is flourishing to a degree that makes Ontario's illicit sale seem small and insignificant by comparison. A ghastly failure, serving only to MULTIPLY the very evils it was heralded to cure! That is the story of government sale of liquor in BRITISH COLUMBIA, in MANITOBA, in QUEBEC.

British Columbia and the Bootleggers

The Vancouver World, a newspaper friendly to the government, has declared in an editorial: "British Columbia is the bootleggers' paradise".

The Attorney-General of that province—who is the official administrator of the Government Liquor Control Act—said in a recent speech: "The greatest bootleggers of all are the brewers and export liquor dealers".

Dr. A. E. Cooke, of Vancouver, in The Canadian Congregationalist, asserts: "The Government controls neither the manufacture, importation, transportation, nor exportation of liquor. The distillers and brewers control all these, and the Government simply acts as one of their sales agents, controlling about 50 per cent. of the retail end of the trade. The whiskey ring and the bootleggers control the rest."

Manitoba Sick of "Control" in Less Than a Year

Eleven months after Manitoba adopted its government control system, an open-minded investigator of conditions in that province, sums up the situation in these words:

"I leave Manitoba impressed with the evidence that both wets and dries are dissatisfied with the government control system—the wets because there is no legal sale of beer by the glass and because there is some delay and trouble in getting hard stuff, and the dries BECAUSE BOOTLEGGING AND DRUNKENNESS HAVE GREATLY INCREASED."

The same neutral authority declares: "There is no dispute in Winnipeg about bootlegging. Everybody—dries, wets, moderationists, police, government officials, business men, professional men and rounders—tell the same story. The unanimous verdict during the week of August 24th, when I was in Winnipeg, was that bootlegging was being carried on on a tremendous scale, that the city was wide open, that the hotelmen had no re-

gard for the will of the people as expressed in the disapproval of sale of liquor by the glass, and that something had to be done."

Quebec under Government Sale Eclipses Open Bar Evil

Quebec, with its longer experience in government sale, has drifted still further back toward the evil days of the open bar. In fact, the only difference between the Quebec "tavern" and the old bar-room is that customers sit down at tables to drink, rather than stand up at a bar!

And while Quebec goes on spending more money for booze than for education (\$28,000,000 annually for liquor and \$26,000,000 for educational purposes), crime is rampant. The Montreal Gazette was recently constrained to declare: "Montreal is a perfect Mecca for evil-doers, with vicious, immoral resorts and gambling joints, the hiding-places of the alien and other criminals from all corners of the continent."

Ontario Has Higher Hopes

Ontario citizens do NOT want THIS province to become "a bootleggers' paradise". They do not want their government to go into partnership with the distillers and brewers, splitting the booze business "fifty-fifty" with bootleggers—which is the best any government has been able to do under "government sale".

The responsible electors of Ontario DO want the happier homes, women and children, made possible by The Ontario Temperance Act. They DO want to defeat the liquor traffic's insidious effort to turn back the clock. They DO want Ontario to be spared the costly experience of such bootleggers' paradises as British Columbia, Manitoba and Quebec.

In this belief, and with the Government pledged to "give active and vigorous enforcement" of The Ontario Temperance Act, the Ontario Plebiscite Committee asks, with every confidence, that Ontario citizens give the Government an unmistakable mandate on October 23rd.

For the Honor of Old Ontario mark Your Ballot thus:

Are you in favour of the continuance of The Ontario Temperance Act? X

Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?

Why Endure PILES MISERY

The weakening agony of piles robs life of its pleasure, turns days of brightness into days of misery, and brings periods of acute suffering. Overwhelming evidence proves Zam-Buk incomparable for banishing the pain, bleeding, swelling and inflammation.

Mr. Alf Brown, of Merriton, writes: "I hope that my testimony will reach thousands suffering from that dreadful ailment, piles. For six years I was never free from pain. No one ever spent more money in search of a remedy. A sympathetic friend gave me a part of a box of Zam-Buk to try. Its soothing power was marvellous, and I soon had a further supply of this grand herbal healer. I used Zam-Buk until the old painful trouble was gone completely."

Equally successful for eczema, psoriasis, salt rheum, pimples, boils, bad legs, ulcers, scalp disease, poisoned wounds, cuts, burns, scalds, etc. Dealers everywhere sell Zam-Buk at 50c. box, 3 for \$1.25
