COUNSEL TO SUNDAY SCHOOL TEACHERS SUCH AS THAT given the other day at Toronto by Canon Howitt is always particularily welcome, because it serves to remind many of what is only too often forgotten-the spiritual and personal nature of the work of the Sunday school teacher. While Sunday schools should have the best possible educational equipment, yet educational work, with only, at most, forty-five minutes available every week, can never produce purely educational results of any great moment. All the more necessary, therefore, to emphasize what the Canon so well put:

There were two things that the Sunday school teacher should seek to do. He should first win the children for Christ. Too often it was found that some teachers were simply content to teach the lesson, and then to think their work was done. The lesson, the speaker contended, should be made only the instrument to win the children to a definite acceptance of Christ as their Saviour. Nothing other than this would ever make the teaching of anyone a

It is obvious that to win children for Christ is far more and other than simple inculcation of truth. And it was on this account that Canon Howitt pressed upon his hearers the vital necessity of the teacher having a personal knowledge of Christ before he could hope to win others.

The High Cost of Sin.

A magistrate in London, England, has discovered that the cost of law-breaking has not kept pace with the cost of living. Fines have remained at the pre-war level while the cost of maintaining courts and police forces and jails has risen greatly As a matter of economic justice the magistrate decided to

double the fines imposed on offenders. That is one way to check the lawlessness which has been rife in all lands since the war. A better way is to get at the sources of sin and crime, and correct them. Bishop Rhinelander of Pennsylvania in a recent address cited immodesty in woman's dress and immoral literature and the depiction of bestiality and crime in the movies as the sources and the products of the anti-Christian drift of the times.

THE ANOMALY OF THE STATE CHURCH FINDS ILLUSTRAtion this time in Sweden. The new Minister for Church and Education is as his predecessor, Socialist and atheist.

IN THE PROGRESS OF A RECENT TRIAL MR. CHARLES M. Schwab said this, in the course of his testimony: "I am sorry to say that nearly all my misfortunes in life have come from acts of kindness to others." On which The Christian Endeavor World makes this pertinent comment:

It is doubtless that many acts of kindness are repaid by ingratitude and sometimes by downright evill-doing. But what shall we do? "Stop doing good," the cynic replies; "take care of yourself and let others take care of themselves." But that would lead to a greater misfortune than any that others could bring upon us. It would make us selfish and self-centred, callous and indifferent, insensible to love, without which life itself is a wilderness. We must learn that kindness is its own reward. It is often vain to look for appreciation from those we help; let us look to God for His approval and rejoice in that

ISLAM IS BACK OF EGYPTIAN HOME RULE, MUCH AS ROME is back of Irish. In the last Alexandria riots Egyptians paraded the streets with wooden crosses on which they spat contemptuously, crying out, "Down with the Nazarene!"

THE MORMONS ARE CONSTANTLY AT WORK COLONISING in the intermountain region and buying up rich farming valleys for their people. The Roman Catholic church in Quebec is doing the same thing in contiguous areas. Thus we learn from a paster in northern Vermont that the Roman church has assisted French Canadians in buying farms in his neighborhood to the extent of almost \$200,000 in a single year.

The Mormon peril does not grow less. On the contrary, Mormons have increased in a more rapid ratio since the last census than any other religious body, there being now 403,000 as against 215,000 ten years ago. Their great growth is due to big families. A picture of their communities is given in a recent number of the Spirit of Missions. The Star Valley, Wyoming, consists of two valleys some fifty miles in length. Here are ten villages wholly controlled by the Mormon organization, and called "wards." Each has its Mormon meetinghouse and its unfailing accompaniment-a dance hall. There are but 200 Gentiles as against 5000 Mormons. There is no library in the whole valley and no reading matter except newspapers and Mormon propaganda. The whole population is inbred nd lacking intelligence, polygamy is practiced, the Book of the Mormons is taught in the public schools, stories of Joe Smith being interspersed with Old Testament ones. None but Mormon teachers are employed, and in general Gentiles are isolated and terrorised.

OUR REFUGE AND OUR STRENGTH

Thou art our Refuge, O our God! When tempests wild surge 'round the soul; We bide us 'neath Thy shelt'ring rod, While raging seas around us roll.

Thou art our "Strength," when weakness holds Our trembling frame in fetters strong; A "present help," Thine arm enfolds With tender succor, all day long.

When fear surrounds, as doth a foe. And earth seems sinking 'neath our feet. "God is our Refuge" quells our woe, And calms us with assurance sweet

"Be still, and know that I am God!"-"The Lord of Hosts is with us still!"-Yea, though we feel His chast'ning rod, We'll trust His love, and fear no ill.

Our "God is in the midst," we know, And, trusting, we shall not be moved; Our "God shall help," as swift, as slow; His word is sure; His promise proved.

"God is our Refuge and our Strength."-Through blinding tears we sing this song; His wisdom we shall prove, at length, And praise Him with the Heav'nly throng. -Boston Transcript.

HERE IS A SUGGESTION THAT CARRIES ITS MESSAGE IN more than one direction: A well-known business employer in America used to select his workpeople solely by means of the voice. Sitting behind curtains in his private office, he caused all candidates to talk unseen and in this way he declared he was able to determine personality, character and even capacity. Some may recall the words of Christ, "By thy words thou shalt be justified, and by thy words thou shalt be condemned."

EAST BRUCE AND SOUTH **GREY TEACHERS HOLD** AT HANOVER teacher could take.

Hanover Proud Host To Over 250 Teachers.—Speakers Cover Many Subjects In Admirable Manner.

(Hanover Post)

With upwards of two hundred and fifty teachers in attendance, the joint convention of East Bruce and South Grey Teachers' Institutes held in the new High school here last Thursday and Friday was generally conceded to be the best yet. The weather was perfect, there was a large attendance, the two Normal school speakers brought interesting messages, everything passed off splendidly, and the meeting was a most successful one.

The following is a report of the proceedings, and much good material has had to be eliminated owing to the demands for space.

We have some wondercases" would soon cease to advance ful writers: Ernest Thompson Seton, and would become a crank or a Charles G. D. Roberts, W. A. Fraser, quack. What about quack teachers? Archie McKishnie, and Marshall asked Dr. Silcox.

THURSDAY AFTERNOON

Mr. Harry W. Alton, principal of Walkerton public school, and president of the East Bruce Teachers Institute, presided over the Thursday sessions and opened the afternoon meeting with an address on "How a Teacher Should Spend the Summer Holidays." After arguing that the teacher's work requires short hours and frequent periods of rest, he went on to say that the teacher should come back to the classroom invigorated in health, with a mind more richly stored with facts, and with a broader outlook on life. He advocated a complete change of environment for at least a part of the holidays, and the various Summer Courses or Univer-

sity Extension Courses offered wide field to improve one's mind. He also urged teachers to travel and said the week's trip through Northern Ontario at a cost of \$55 was one of the cheapest and best tours a

Rev. D. J. Lane of the High School Board then gave a short address of welcome.

An Outstancing Address

Dr. Silcox then gave his second address, taking for his subject "Canadian Literature," and it is well within the realms of truth to say that it was the outstanding address of the convention. In his most scholarly manner, he told of the authors to produce a distinctive Beauty and is known the world believed the ladies were just as good
