Mix the quantities of soap and coal oil together first, then add the two quarts of boiling water. This will make an emulsion if thoroughly mixed, to which a gallon of warm water must be added before applying to the animals. An ordinary stable brush is a good instrument with which to apply the emulsion. Care should be taken to saturate the skin over the entire body. Repeat the treatment in ten days; another brood will be up and doing by that time. Sheep dips prepared by reliable manufacturing chemists are available and very useful in destroying cattle lice. GENERAL HINTS

Housecleaning

Housecleaning is not what it used to be. It is not a thing one has to electrical improvements and vogue of eliminating non-essentials, has come the period of almost constant cleanliness. Of course, to be tend to reduce the numbers of vermin November is a good month for this and leaves one fresh to enjoy the holidays and the winter months. Some good rules to follow are:

1. Begin with closets and drawers. How to clean closets:

- (a) Hang heavy clothes and furs outdoors.
- (b) Send soiled clothes to clean-(c) Give away to needy anything
- you will not be able to use and which will always be in the way Better some good than no good. Wash woodwork, floors an
- drawers. (e) Paint woodwork, drawers and
- cracks in floors with turpentine. Use a regular paint brush for this. This leaves a closet absolutely clean and free from any insects. 2. Clean rooms, least used, first,
- so that it will not be necessary to trail through them with dirt from other rooms. 3. Plan ahead for cleaning and
