## TO WIN THE WORLD

Would you win all the world for Christ?-One way there is and only one;-You must live Christ from day to day, And see His Will be done.

But who lives Christ must tread His way, Leave self and all the world behind, Press ever up and on, and serve His kind with single mind.

No easy way,—rough strewn with stones, And wearisome, the path He trod. But His way is the only way That leads man back to God.

But his lone cross and crown of thorn Endure when crowns and empires fall. Thy might of His undying love In dying conquered all.

Only by treading, in His steps, The all-compelling ways of Love Shall earth be won, and man made one With that Great Love above.

-John Oxenham.

CERTAINLY NO ONE WOULD THRUST THIS COUNTRY BACK to the conditions that obtained a generation or two ago, but who among us will deny that we could, as a nation, reach back into the past and bring into the present a few of the things that our fathers and grandfathers had and which we have neglected of late years.

Time was when the family altar was the rule, not the exception. In that time, the family Bible was far more than a mere ornament of family record. Its well-thumbed pages testified to a spirituality and a religious devotion that nerved the pioneers to sacrifices of which the present generation knows

Around that family altar in the days long gone by, father, mother and children knelt in humble devotion and gained that help and inspiration that nerved them to splendid deeds and secrifices.

In those days, parents were not content to leave to an hour of Sabbath School once a week the religious training of their

In those days, men and women daily lived their religion, and were members of the church militant . . . Might it not be well to re-establish the family altars in this land.

Would we not profit as a nation if we placed less reliance upon man-made laws and earnestly sought to get back to the plain and simple teachings of Jesus? That way lies help for the solution of our national ills.

-Adapted.

THE TASK OF THOSE WHO SET OUT AT THE BEGINNING to save the world with and for Jesus Christ was at least as uphill and overwhelming as that before ourselves today, but they tackled it, and considering all the forces against them, with what miraculous success! Even through them what God has achieved!

I HAD ALWAYS DESIRED TO OWN A BIBLE, AND BEGAN very early to save my pennies. The amount did not grow very fast, for my first salary (for taking care of cattle for some of the neighbors) consisted of one coarse homespun suit, a pair

of heavy shoes, and about fifty cents a year. I pinched and saved, saved and pinched, till one day I heard that a man farther down the valley was going to sell out at auction. I knew he had a Bible. Perhaps that would be sold too! I had to be there at the auction.

Before I left, I went behind our stable and prayed that God would help me to get the book I was longing for.

The Bible was brought out, and I put up my bids, but a man went farther than I could go. With a sinking heart, I saw

him take the book from the hand of the auctioneer. I don't need to tell of my sorrow, my tears and crying. Evidently the man had seen my disappointment, for after some days, he came and offered me the book for what I had

remembering ever and always that every evil conquered, every wrong righted, helps the coming of the kingdom.

THE LATE PRINCIPAL DENNY ONCE POINTED OUT THAT more is said about money in the New Testament than about anything else.

So much of common and rather sordid talk has money for its subject that it might have been expected that the Gospels and Epistles would have had a mind above it.

Yet the briefest reflection makes it clear that money is just the outward symbol of much that is best in man. Money honestly acquired is thought, labor, diligence, skill and courage. A man's money is the man transmuted.

If that be realized, the tremendous responsibility of a Christian in regard to money is manifest. The man who wastes his money on folly or self-indulgence is wasting himself.

Yet how seldom is this recognized. Christ has won the intellect of the world; the great enterprising, thoughtful nations are Christian. And He has won the moral sense of the world. There is no country so sure to respond to sentiments of mercy and helpfulness as the Christian countries.

But Christ has not to any such degree won the money power of the world. And for that reason, His cause lingers. -Life and Work.
