(Our own Correspondent.)
More snow and cold wind. Not much chance for the people with heavy colds while this weather lasts, and there are many. Nearly every household had a victim to this whooping cough or a cough minus the whoop.

Mrs. A. B. McDonald and Miss Janet are improving nicely now. Mr. John L. McDonald returned to Ottawa about the middle of last week after spending a few days with parents here.

We are sorry to hear that Mrs. John McKechnie, Gravel Road West, had to be admitted to Durham Red Cross Hospital for an operation. We learn that she is doing nicely to date, and we hope for her continued improvement.

Mrs. W. W. Ramage is again under the doctor's care, with a nurse in attendance, and all look forward to a speedy recovery.

Another highly esteemed lady, the late Mrs. Thomas Ferguson, has passed away. The death occurred quite suddenly on Saturday afternoon from heart trouble. The deceased had been in poor health for the past year or so, but death was not looked for so soon. The deceased was in her 70th year, was a splendid Christian character, an excellent woman and neighbor, and her death is a loss to all who were privileged to know her. She leaves a surviving husband and a son, Stanley and a daughter, Edna, who has been her faithful attendant during her illness. Four brothers, Robert, Alfred, Herbert and George, and one sister, Mrs. Melness, all of distant points, survive her. We expect, although it is not definitely known, that interment will take place tomorrow. The sympathy of the community goes out to the bereaved at this time.

Mr. Alex McQuarrie is still off work suffering from blood-poisoning in his hand. We hope to see him around in normal health soon again.

The farmers are busy people these days. Some seeding has been done, but the majority are waiting for settled weather.

Front Street will look well in a few days with the new gas stations installed. Aussen and McLean have a fine service now, and A. J. McVicar is working on one in front of his hotel.

Mr. W. McLean is improving nicely after an attack of pneumonia.

INSPECTION TRIPS OF COUNTY ROADS DURING THIS WEEK

Authorities Will Wait More Complete Word of Highway Department Changes.

County Road Superintendent John Johnson and County Road Engineer McKnight are preparing to accompany the County Road Committee of the Grey County Council on the annual trip around the county for the purpose of inspection of all the roads, bridges, culverts, etc., with a view to laying out the work to be done during the coming summer. Mr. Johnson expects that the trip will take place toward the latter end of this week, although he has had no definite word.

In view of the changes which are being made by the Department of Highways at Toronto regarding the road systems throughout Ontario, the county authorities are not going to take action too soon, but prefer to wait until they get fuller information on the subject, and it is expected that a representative from the Department will attend regular June sessions of the County Council for the purpose of explaining the details of the changes. It is known that it is the desire of the Department to have the township authorities undertake the care of the roads in their municipalities to a greater extent than in the past, and with this object in view, have increased the percentage of assistance to be given to the townships.

Another matter which has been decided upon by the Department has to do with the numbering of the Provincial County roads, and also the county roads, particularly those which connect with roads in adjoining counties. The idea is to create uniformity in the numbering so that a road in Grey County connecting with another road in Wellington County will bear the same number, thus making them uniform. These will all be fully explained at the June session of the county council.

What "Getting Out of Balance" Means

If there is a congestion of orders, so that competition exists for goods instead of orders, prices go up, and cost tend to follow, with the result that unless business soon falls out the situation will get seriously out of balance, and depression will take the place of prosperity. A lot of price and wage advances occurred in the spring of 1923 which, for the good of all concerned, had better not have taken place.—The National City Bank of New York Economic Bulletin for March, 1925.

The little town of Ryki, near Lublin, Poland, was nearly wiped out by fire on Thursday night. Two hundred stores with their stocks were destroyed, and 257 houses were burned, only 61 remaining. There was no loss of life.

William Marconi's claim to the invention of wireless telegraphy is disputed by the Soviet Government which announced today that radio communication was invented and actually used by Professor A. Popoff, of the Electro-Technical Institute of Leningrad in 1895, two years before Marconi announced his discovery to the world.

Emma Goldman, the one-time anarchist, deported from the United States in 1919, told a London audience on Thursday night that the report of the British trade unionists who recently visited Russia, was "from beginning to end a travesty of the actual truth." This report of a delegation of the British trade union congress placed the situation in Russia in a most favorable light with reference to public health, housing and the prison system, and declared that the Soviet Government was achieving remarkable results.

The London Daily Mail understands that the late Marquis Curzon bequeathed to the nation two historic ruins on his estate, namely, Tattershall Castle, Lincolnshire, and Rodian Castle, Sussex. The former was built about 1440 and the latter 1390.

Louis Barthou placed his office as president of the Reparation Commission at the disposal of the new French Premier, M. Painleve. The cabinet, instead of accepting his resignation, unanimously voted to thank M. Barthou for his efforts and to request him to continue his work, which he consented to do.

The extraordinary powers of the tribunals of independence in Turkey have been prolonged for another six months, and the tribunal at Angora has been invested with the same authority as those in the eastern villages. (The tribunals of independence were given summary powers of life and death in cases involving insurrection against the nationalist government.)

The native riots at Bloemfontein, with the loss of several lives, are declared by special dispatches to be part of a wider movement fomented by native leaders bent on attaining a higher status for the blacks. It is known that meetings have been held at Johannesburg, at which speeches of an extremist nature were delivered and enthusiastically received. It is uncertain, however, whether there is any Communist influence behind the agitations.

MOTORISTS MUST CARRY LICENSES TO DRIVE IN 1926

Permit Will Be Subject to Suspension For Offences Against Act.

On and after January 1st of next year, automobile drivers will be required to carry operators' licenses, under a bill passed by the legislature.

Under the new system, offenses against the highway traffic act will be endorsed on the driving license, and the license may be suspended for any period not exceeding sixty days. The terms and conditions under which licenses will be issued are to be prescribed by the Lieutenant-Governor in council.

Drivers not in possession of operators' licenses will be subject to heavy penalties. For the first offence, a fine of not less than \$10 and not more than \$50 will be imposed; and for the second offence, a fine of not less than \$20 and not more than \$100. For any subsequent violations, the offender will be liable to imprisonment for any term not exceeding thirty days.

The new system will be similar to that in force in England, where driving licenses have always been obligatory. By licensing drivers, it is possible to keep a much more careful check on offenders as their violations can be endorsed on the driving permit—no matter what car they

are driving. At the present time, responsibility for any offence rests with the owner of the car, and convictions are recorded on the automobile license. With the new system, it will be possible for the police to prosecute the actual driver, whether he is the owner of the car or not.
