Unborn Babe Gets Life Afler Mother Was Killed

WHEN the babe, shown nestled in this pretty nurse's arms, grows up, it certainly will have one heart-rending yet unusually remarkable story to tell of its origin. Its mother, Mrs. Sidney Kulia, was so seriously injured in a Los Angeles automobile crash that she died a few minutes after the accident. The babe -unborn at the time-was quickly given life through an impromptu and remarkable Caesarian operation by a police surgeon. After the heroic feat, it was hastily entrusted to the care of Miss Beryl Kerr-pictured above-senior nurse of the White Memorial Hospital in Los Angeles. Meanwhile the bodies of the babe's mother, father and older brother, killed in the crash, were being prepared for burial. Miss Kerr states that the youngster is perfectly normal in every respect and, in spite of its untimely start, will live a perfectly normal and healthy life. Tis indeed a story that causes one often to ask—"Will wonders ever

Monte Carlo Police Couldn't Appreciate This Scene

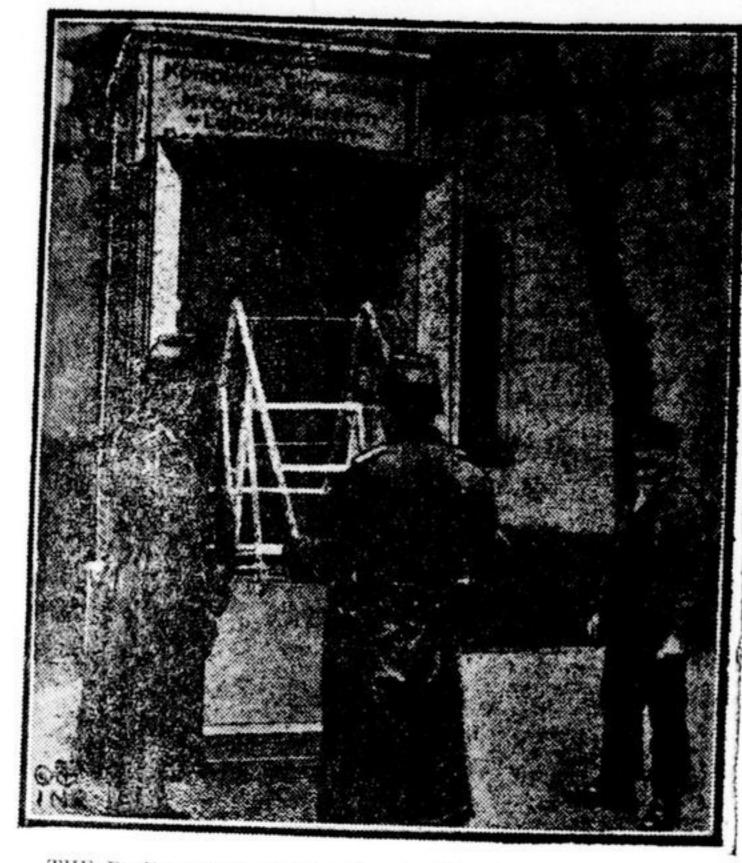

YOU would think that even a French policeman could appreciate beauty-no matter how costumed-but it didn't work in this case. These beauties, members of a special revue that played at Monte Carlo, happened to parade on the terrace in their stage costumes. Naturally, a crowd was quickly attracted which greatly preved the guardians of the law. Above, you see one of them arguing with the girls who, shortly after, heeded his orders.

Every Desert An Orchard---Pretty Soon?

THE lowly, spineless cactus of the desert is on the road to being made useful to mankind. Largely through the efforts of Luther Burbank, the world-famous plant wizard. Mr. Burbank has spent more than a quarter of a million dollars and almost fifteen years of time to make a fruit-producing plant out of the spineless cactus. And he claims that, within the course of a few years, its deliciues fruit-which is very nourishing and has an individual taste of its own-will add millons of dollars to the world's food market and will be raised in practically every country. The photo above shows Mr. Burbank in his experimental garden at Santa Rosa, Cal., looking over one of his specimens of fruit-bearing cactuses.

Public First Aid Booth Is Novel Idea

THE Berlin Safety Service has instituted a novel and helpful feature for the comfort and protection of the wayfarer who meets with injury. It's a "First Aid" booth, the first of its kind in the world, and contains every means for giving quick attention to accident victims. It has a portable stretcher with wheels and neatly arranged cabinets containing bandages and other first aid appurtenances.

Gliders vs Planes--A new Form of Competition

SOMETHING new in the annals of aircraft was a meet recently staged in the Hochgebirge at Garmische-Partenkirchen, Germany. Giant gliders-such as the one pictured in the foreground above-were pitted against motor air-machines. Just what the results of the competition were, has not been reported.

Breaking Records As Easy For Him As Breaking Dishes

SPORT writers everywhere call this wiry-looking athlete "the greatest runner of all time." And he isn't even a Greek at that. He's a Finn. Paavo Nurmi by name—though it's hardly necessary to mention that fact in view of his great footwork performances which have made him the talk of the sporting world. He's the lad who came over here a few months ago and, inside of sixty days, made us throw our athletic books in the ol' ashcan. Fifteen new distance records were established by him at the time while showing his heels to this country's best speed artists. There's no use printing any new record-books the way Nurmi is going along. His speed and endurance seem to know no limit and, time and again recently, he shattered his own marks for various distances. Just now he's still in training, and the country, no doubt, will be startled by his feats on the outdoor cinder paths this summer.

Unity Still Reigns!

THERE is one pleasant thought again in the offling in the United States as they approach their annual duty of observing Memorial Day. And that is symbolized by this picture. It denotes the brotherly harmony and unity between the north and south which will again manifest itself in honoring the living defenders of this great nation and pay loyal tribute to the memory of its dead heroes of three great wars.
