

Priceville

(Our Own Correspondent) The week is starting out fairly well. The weather is still cool but generally speaking, nice and certainly it ought to be nice weather for men and horses that are working.

Owing to the keen interest that is being shown here over the question of Church Union, and the local condition of a tie vote, a congregational meeting was held on Sunday last in the Presbyterian Church here to discuss the situation. A fair representation was present. A considerable amount of discussion was listened to and a vote taken, the consequences of which we can give no information on, but the one big lesson that we took away with us from the meeting was a demonstration of what we would call real Christian spirit by our veteran elder and friend, John A. McDonald, a gentleman of strong principles who spoke briefly but to the point, when he stated that he was prepared to worship with the prevailing side. How easily the problem could be settled generally if we could all fall in like that, union or anti! We do not wish to pass remarks either way, but we wish to show that we appreciate the stand taken by Mr. McDonald. We hope to see him in his usual place for many years yet.

Miss Olive McLean is home for a while as her father is needing much attention, and we are sure Mrs. McLean will be glad to have such help through what we hope may be a very short period.

We haven't any fish stories this season as yet. We will have before fall though.
