

### For The Quiet Hour

#### A VESPER PRAYER

The day Thou gavest me  
Has now returned to Thee  
Bearing the deeds with which I filled each hour.  
Lord of our deeds and days,  
I ask Thee not for praise—  
I pray for power!

So much I meant to do,  
When the bright day was new,  
So many hearts I longed to help and heal—  
Now, as the splendors die  
From out the western sky,  
I humbly kneel.

Give me the power to feel  
For hearts that I would heal,  
Give me the power to see with sight like Thine;  
But most of all, give me  
The power to love, like Thee  
O Love Divine!  
—Minnie Logan Upton in S.S. Times.

**KEEP THE HEART FIRES BURNING. OTHERWISE THE church will sense the wandering passion. Spiritual temperature is imperative for a revival. We must have enough spiritual passion to keep our own hearts aglow, and still have enough to spare to kindle the cold souls of the majority of our members. We need a new spirit, not a new spasm.**

Robert Murray McCheyne died at twenty-nine, but all Scotland felt the warmth of his radiant life. Some years ago, a man went to Dundee where McCheyne had lived and preached. On arriving at the manse, the traveler knocked at the door, and the same sexton who had served during McCheyne's pastorate opened the door. The traveler was led by the sexton into McCheyne's study, where his books were still on the table. "Sit down here," said the sexton, taking him up to the chair in which McCheyne worked. "Now put your elbows down on the table," and he put his elbows down. "Now put your face in your hands," and he put his face in his hands. "Now," said the old sexton, "let the tears fall. That was the way the pastor used to do."

No wonder Dundee was stirred! No marvel that Scotland was moved! Was not that the way my Master used to do? Did He not let the tears fall over Jerusalem? McCheyne kept the heart fires burning—they were never banked. Our Lord's enemies tried to stamp out the fire on Calvary. As they stamped on it, they spread it. Pentecost came. Pentecost continues. Pentecost conquers. No tongues of fire on our heads—the fires must burn in our hearts! We must keep the heart fires burning.—Theodore S. Henderson, D. D.

**AN ENGLISH CLERGYMAN, CANON HORSEFIELD, TELLS THE following story, which workers among boys will be particularly glad to read:**

Some little while ago, a revival broke out in one of our great public schools, like Eton and Harrow. The boys knew that they would have a great deal to endure from their fellows when once it became known that they had taken their stand on the side of the Lord Jesus. So they formed a little society of their own and adopted a password; and as they went about, they would help and cheer one another by simply saying "Krob." If one of them was being tormented beyond endurance, this message, "Krob," seemed to empty the power of his trial and to bring victory in. The others could not discover what it meant, until one day the secret came out. "Krob" stood for "keep right on believing." That was all, but it was sufficient. As they looked up again into the face of their Lord, drank again on His never-failing love, these lads "krobbed" and received strength and peace.

#### THE JOY OF INTERCESSION

"I like to feel that though on earth  
We never meet,  
Yet we may hold heart fellowship  
At God's dear feet.

I like to feel in all the work  
Thou hast to do,  
That I, by lifting hands of prayer,  
May help thee too.

I like to think that in the path  
His love prepares,  
Thy steps may sometimes stronger prove  
Through secret prayers.

I like to think that when on high  
Results we see,  
Perchance thou wilt rejoice that I  
Thus prayed for thee!"

**AS A NEGRO LAD, UPON HIS FIRST VISIT IN BOSTON, WAS struggling with his heavy bag across the congested traffic of a busy street, he felt a hand slipped into his own, which led him safely across. The lad expressed his thanks, and the owner of the helping hand said:**

"Look up, lift up, and lend a hand!"  
The boy was Booker T. Washington, who never forgot the touch of that hand, nor the inspiring words of its owner, who was none other than Edward Everett Hale.  
A good community motto for us all would be, "Whosoever thy hand findeth to do."

He that has nothing to give is poor, but he who sees something to do and does it not is poor indeed.

**A CHRISTIAN YOUNG MEN'S PREACHING LEAGUE HAS BEEN organized. It has districted the city of Seoul into eleven wards, and conducted systematic evangelism together with house-house visitation. Dr. Cable reports that Seoul has never witnessed anything like the evening preaching services before. In many instances, the great crowds could not get into the buildings, and filled windows and doorways. Most of the speakers were young men, and a quite exceptional interest has been awakened among the young people by them. The total number of young men deciding for Christ in these spring meetings was over a thousand. The league is now planning to move out into the other large centres of Korea. The meetings at Fusan carried on by this student evangelistic band were of great power. At the evening services, many believers had to go out into the yard, to make room for those that were not Christians. Finally the churchyard itself was opened for meetings, 1,250 being admitted by ticket.**

Various new Christian groups have been organized in southern Korea, one of them by a young Catholic student in the seminary at Ryong San whose father and grandfather had been Catholics. Dissatisfied with what he was learning in this Roman seminary and with its outworking in the lives of his instructors, he gave it all up, returned home, and gathering a group of twenty-five together, sought admission into the Presbyterian Church.

**A WRITER IN ONE OF OUR POPULAR MONTHLIES, IN DISCUSSING the various plans and programs, schemes and suggestions, themes and theories for the betterment of humanity, tersely asks:**

"Why not try religion? Did you ever know of a case where Christianity has been honestly, consistently, sincerely and passionately tried in a community that it did not meet the situation, and transform the conditions? Human propaganda has no inherent leavening power. The best way to bring the leaven of the kingdom into a community is by the free use of celestial leaven."

**AN OPEN AIR MEETING EVERY WEEK FOR EVERY Church!** is the summer slogan of the Chicago Federation of Churches.

### Flesherton

(Our Own Correspondent)

The Sunday School at Mount Zion which was closed for the winter, has been re-organized for the summer with officers elected as follows: Superintendent, Mrs. Thomas Taylor; Secretary-Treasurer, Mrs. J. Hopps; Teachers, Mrs. R. Hannah and Mrs. T. R. McKenzie (Bible Class); Mrs. J. A. Thompson, Mrs. T. R. McKenzie, and Mrs. J. W. Lyons. The school meets at 10 o'clock in the forenoon, an hour before the regular church service.

At the meeting of young ladies in the High School last week, there was organized the Flesherton Ladies' Athletic Club with officers as follows: President, Miss Mary Paton; Vice-President, Mrs. (Dr.) Murray; Secretary-Treasurer, Miss Mabel Gilchrist; Captains, Misses Mable McTavish and Aleda Mitchell. Soft ball practice will be held on Monday and Thursday evenings.

Dr. Burt of Owen Sound gave us a friendly call when passing through town last week.

Dr. Fred Murray and little son, Jimmie, of Toronto, were here on a fishing holiday last week and spent the week-end with Dr. and Mrs. E. C. Murray.

Dr. Thomas Henderson of Toronto, who recently returned from California, spent part of last week and over Sunday with his brother and other relatives.

Mr. D. McTavish spent part of last week with his sons at Oshawa, and brought home a new Chevrolet car.

Mr. R. W. Paton, of Toronto University, made a week-end visit at his home here and supplied his work on the Cedarville and Esplan charge on Sunday.

Mr. Frank Irwin of Durham spent an afternoon here last week having the family plot in the cemetery dug over and seeded anew by an expert lawn maker he brought with him.

Rev. and Mrs. A. E. Armstrong of Meaford paid relatives here a short visit last week.

Mrs. J. Johnston and daughter, Ena, of Dundalk, visited over the week-end with the former's brother, Mr. W. J. Henderson, and daughters.

Mr. and Mrs. George Mitchell and daughter, Aleda, motored to Toronto on Friday and visited until Monday with the former's daughter, Mrs. Clipperton, and other relatives.

Messrs. Charlie and Elwyn Jamieson of Owen Sound spent the half-holiday last week with their mother here and put in her garden for her.

Mrs. Samuel Pedlar, 4th Line, who has been very ill recently and was taken to Collingwood Hospital for treatment, has been brought home again with but very little improvement.

We are indebted to Mrs. Mark Wilson, who is a successful angler, for a nice mess of speckled trout from her catch on Friday last.

Mr. William Stewart, son of Mr. John Stewart, who has been in the Bank of Montreal at Prescott over two years, has been transferred to the branch at Morrisburg.

Dr. Turnbull goes on a short visit to the city this week and will be accompanied home by Mrs. Turnbull, who has been visiting at Toronto and Canfield.

Mr. and Mrs. W. H. Miller and little daughter visited his mother at Thornbury on Sunday.

At the Methodist Church on Sunday morning, the following members were elected Society Representatives on the Quarterly Official Board: John Parker, Wesley Armstrong, Thomas Clayton, Dr. Murray, W. A. Hawken. Mrs. J. Perkins assisted the choir and gave a sweetly rendered solo. In the evening, Dr. Fred Murray of Toronto, who is always appreciated here, gave an effectively rendered solo and took part with his brother, Dr. E. C. Murray, and Rev. H. H. Eaton, in a trio which was very much enjoyed. Mrs. Perkins also sang in the Presbyterian church in the afternoon, and her well-rendered solo was highly appreciated.

Mrs. R. Bell and little son of Erin were week-end visitors with Miss Mary Paton.

Miss Rene Cargoe is home from Toronto visiting her mother.

Mr. James Breeze and daughter of Chatsworth and Mrs. Hall and daughter and Miss Hannah Breeze of Owen Sound, visited Mrs. A. S. VanDusen and Rev. and Mrs. Eaton on Saturday.

Mr. H. Down spent the week-end in Toronto and brought home a new Ford car.

Mr. John Runstadler made a week-end visit in Toronto and was accompanied home by his daughter, Miss Marguerite Runstadler, University medical student, who will holiday for the summer with her parents here.

Rev. H. H. Eaton and Mr. W. H. Miller will attend District Meeting at Salem Church, Proton, this week. We are pleased to learn that Mrs. Roy, who is yet in Toronto after an operation for removal of cataract from her eye, is improving. Mrs.

Williams, here, visited her mother last week.

Miss Helen Bell, teacher at Edmonton, who formerly taught here, writes us interestingly of her life in the West and of her studies during the winter in the University where she is taking a special course. She informs us of a plucky young student who lost both arms in the war, but is now in third year classes studying for law. He types well and writes legibly with his toes and dresses and feeds himself with his feet, all of which shows the grit and courage of the lad. Miss Bell is now enjoying out of door life golfing. She reports a long winter with much snow, but a bumper crop is looked for in the West.

By a communication received on Monday from Mr. Walter Loucks, The Pas, Man., we learn he is already meeting with good success on his fox ranch this season. The young foxes are coming and doing well.

Dr. Fred Murray and son, Jimmie, Dr. T. Henderson and sister, Mrs. Johnston, visited friends at Hanover on Monday.

Mr. C. J. Bellamy was home from Owen Sound spending Sunday with his family.

Mr. W. Turney, Mrs. F. Cairns and Mr. W. J. Bellamy have improved their lawns by removal of front fences. The latter has also improved his veranda and put in a new cement driveway. Work is going on for the installation of water works in the new bungalow to be occupied by Dr. Turnbull.

Mr. J. Williams, representing the Owen Sound Daily Sun-Times, was here on Friday and Saturday in the interests of the paper and gave us a pleasant call.

Mr. and Mrs. W. B. Cross spent the week-end at Chesley visiting the former's mother who is ill.

A meeting in the interests of the Bible Society was held on Monday evening at the representative, Rev. Mr. Harrington, gave an interesting and instructive address on China, illustrated with fine lantern slides. Mr. Harrington was a missionary in China for five years and was, therefore, able to give much information on conditions and needs there. Rev. Mr. Harrower presided over the meeting, and in the appointment of officers for the local branch, Mr. W. H. Bunt was elected President, Mr. George Stewart, Vice-President, and Mr. Richard Allen, to the executive committee, and of considerably greater palatability. Alfalfa ensiled immediately after cutting, no matter what was the stage of maturity, gave an undesirable and unpalatable silage. The wilting of sweet clover, and oats, peas and vetches for several hours resulted too, in the pro-

duction of a type of silage which was somewhat more palatable than that produced by the unwilted material.

The length of the period of storage appeared to have little effect upon the silage which was produced.

From alfalfa, which had been mowed when one-tenth in bloom and wilted in the sun for at least five hours or for a relatively longer period if the sun was not shining, a fairly good silage was secured, while full bloom alfalfa wilted in the sun, gave a silage of better quality and of considerably greater palatability. ### MY OLD HOME TOWN

The streets looked familiar  
As I wandered back today  
To walk in sacred places  
Where my young feet used to stray.  
The buildings, old and crumbling,  
Were once modern in their time,  
To other eyes, they're shabby,  
But they seem not so to mine.  
Somehow a faded glory,  
Almost holy, too, it seems,  
Surrounds the little village  
Where I've dreamed my childish dreams!

It's good to see the old place  
After wandering all these years,  
But why the lonesome feeling,  
And those softly falling tears?  
There swoops o'er me a sadness  
That I can not quite explain.  
It leaves me vainly yearning  
For the good old days again.  
I watch the little children  
Romp and play, and laugh and shout,  
And I feel strangely aged  
With these younger ones about.

Where all the dear old faces  
Of the folk I loved so well?  
Ah, long ago they've scattered,  
Where or whence I cannot tell.  
Dry-eyed again I wander  
Through the wide world up and down,  
But when I die just take me  
To that little old home town.

For there I'm sure the angels  
Have reserved a place for me,  
Knowing how much I loved it,  
It's only old home town, you see!

**Your Skin In SPRING Needs ZAM-BUK**

Quickly soothes irritation & clears away Pimples, Rash, Itchiness, etc.

### WILTING IS DESIRABLE BEFORE ENSILING LEGUMES

Silage from legume crops or mixtures of legumes and cereals appears to be of a much more desirable quality if these crops are wilted for several hours before ensiling. The wilting of alfalfa, in particular, seems to be essential, if good silage is to be made, says W. C. Hopper, Field Husbandman.

Alfalfa, sweet clover and a mixture of oats, peas and vetches were stored at the Central Experimental Farm, Ottawa, in small, wooden silos during the summer of 1924. Each silo was 6 feet high, 3 feet in diameter and held approximately half a ton. The various trials with these crops, which occupied 21 silos, included cutting at different stages of maturity, ensiling before and after wilting and storing for periods of three, six and nine months. The silos were opened during the winter of 1924-25, and the silage was in every respect comparable to that which is produced in large farm silos.

The results of one year's work, though not conclusive, indicate that the stage of maturity and the amount of moisture in these crops at the time of ensiling have an important bearing on the silage produced, the reduction of the original moisture content of the crops by wilting showing the greatest benefit.

There seems to be a greater likelihood of securing a desirable silage from full bloom alfalfa than from this crop cut at an earlier stage of maturity. There is an advantage in cutting sweet clover when the flower buds are well formed but before the crop blooms, because there is a greater probability of securing a second cutting if the crop is mowed at this stage than if let go until the full bloom stage, although the silage from full bloom sweet clover was just as good as that from the crop cut in the bud stage. Silage of good quality was secured from oats, peas and vetches ensiled when the crops were in the milk and in the dough stages, but the latter stage or just when the oats show the first signs of turning appears to be the most desirable time to cut this crop.

From alfalfa, which had been mowed when one-tenth in bloom and wilted in the sun for at least five hours or for a relatively longer period if the sun was not shining, a fairly good silage was secured, while full bloom alfalfa wilted in a similar manner, gave a silage of better quality and of considerably greater palatability. Alfalfa ensiled immediately after cutting, no matter what was the stage of maturity, gave an undesirable and unpalatable silage. The wilting of sweet clover, and oats, peas and vetches for several hours resulted too, in the pro-

duction of a type of silage which was somewhat more palatable than that produced by the unwilted material.

The length of the period of storage appeared to have little effect upon the silage which was produced.

### MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario.—"I am now giving your medicine a fair trial and it surely is doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headaches, tired feelings, pains in my back and across my body. I read letters in the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicines. They must be good when those who take them speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Mrs. Burt H. Hart, Box 1081, Cornwall, Ontario.

Mrs. Hart wants to help other women and is willing to answer letters from sick women asking about the Vegetable Compound.

The bridge of the nose, the temples and the places where the eyes are likely to irritate, are some of the places where cancer often occurs in elderly people.

The specific cause of cancer there is such a thing, is not known. So we do not know what to do in this respect in order to prevent cancer. But it is generally accepted that certain things favor the spread of cancer. These are: Irritation of tissues is one that can frequently be avoided, the avoidance of anything that has some part in the causation of cancer.
