SPRING FLOWERS

Great is the pleasure of the gardener when the first snowdrop appears, says Isabella Preston, Specialist in Ornamental Gardening, Experimental Farm, Ottawa. This is the first flower in most gardens, but its dainty white bells are very appealing and attractive to most people.

Another very early flower is called Bulbocodium vernum and it makes a splash of color immediately after the snow has gone. The flowers are much like crocuses in appearance though botanically they differ. They are light reddish purple in color and remain in bloom for about two weeks.

Scilla sibirica, a small bell shaped blue flower, and alba, which is a creamy white variety, come next and are in bloom with the crocuses. Some of the best of these showy bulbs are Cloth of Gold yellow, the earliest of all. Mont Blanc, white, purpureus grandiflorus dark purple, Margot pale lilac blue, albion purple dark purple, Madame Mina pale lilac with darker stripes.

Of the perennials other than bulbs, one of the earliest to bloom is Arabis albidia (Rock Cress) which makes the sheets of white in borders and rock gardens so familiar in spring-time. The single variety is the earliest, but the double form is a much finer flower and remains longer in bloom.

Another white flower which follows arabis is Iberis sempervirens (perennial candytuft). This plant is of a shrubby nature and the clusters of flowers stand up above the ground and make handsome clumps. The foliage is dark glossy green, very different from the greyish green leaves of Arabis.

Alyssum saxatile, though not quite so hardy as the plants just mentioned, is well worth trying. It makes clumps of bright yellow which are very effective in the spring garden.

Aubretia, a dwarf growing plant with flowers of various shades of mauve, needs protection in the Ottawa district.

Myosotis (Forget-me-not), a well-known old favorite, should be in every garden. It seeds itself freely, but can be easily destroyed when it encroaches on other plants.

Narcissi are among the most beautiful of spring flowers, and should be mixed in the perennial border in clumps of ten or fifteen of the same variety. The varieties vary in hardness, and the following are among the best: Sir Watkin, Emperor, Empress, Mme. de Graaff, Seagull, White Lady and Barrii conspicuous.

Tulips.—Early flowering varieties can be planted among the Arabis and Forget-me-nots and beautiful effects obtained by careful arrangement of the colors, or they can be put in clumps as suggested for the narcissi. Varieties: Cottage Maid, pink and white, Couleur Cardinal, deep crimson, Chrysolora yellow, Keizer ruddy apricot, Darwin and cottage tulips bloom the previous year. There are a large number of varieties, and it is difficult to make a selection, but the following are beautiful: Darwins—Bartigon, crimson; Clara Butt, pale pink; King Harold, deep purple; Pride of Haarlem, bright red; Princess Elizabeth, deep pink; Valentin, bluish violet. Cottage—Gesneriana spatulata, bright scarlet; Inglescombe, pink; Moonlight, pale yellow; Mrs. Moon, deep yellow; Picotee, white edged crimson.

Tulips are followed by Irises and spring has changed to summer.

How She Knew

A city-bred girl married a young farmer. As her husband came into the house one day, she exclaimed: "Oh, John, I found four quacks' eggs among the two dozen you brought in this morning." "Ducks' eggs," said John. "How do you know they were ducks' eggs?" "Why," she answered, "I put them in water, and four of them floated."

RED CROSS TEA, MAY 29.

Hints for the Household

For May

By BETTY WEBSTER

Readers, Note: If you have any questions concerning Recipes, and other Household Hints you would like to ask Betty Webster—address her in care of The Durham Chronicle.

TIMELY HINTS

A linen shower is sure to be appreciated by a bride-to-be. Linen is something she has to have, and from a linen shower, she gets a lot of extra, usable, beautiful articles she might not be able to have otherwise.

The Hope Chest

If a girl planning to be married has not already started a hope chest, now is the time to do it. Here is a general list of what is almost necessary to have:

- 3 linen table cloths (round or oblong as you have planned your table). Two of them medium sized—6 napkins to match each. One of the table cloths large for extra company. Twelve napkins to match. 2 luncheon cloths, 6 napkins to match each. 2 doily luncheon sets (1 Madeira, 1 Italian cut work or filet). 2 plain, serviceable doily sets. 2 embroidery centre pieces. 4 bureau scarfs. 26 kitchen towels (6 for glasses, 15 for dishes, 5 for hand). 4 dish cloths. 9 sheets. 7 pairs of pillow cases. 2 comforters. 2 pairs of woolen blankets. 2 quilts. 1 bath room rug.

14 wash rags. 31 towels (10 bath, 15 plain linen or cotton, 6 linen for guests). Make as many things as possible. Watch sales. Use what you have as far as possible. For instance—dandy dish rags can be made from centre of old vests, doubled and buttoned.

COOKING HINTS

Cherry Pudding 1 cup flour. Salt. 1 level teaspoon baking powder. 1 cup stoned cherries. 1/3 cup milk. Method: Put in small greased molds. Steam 10 minutes. Make a syrup. Use remaining juice and cherries cut up. Three tablespoons of sugar. Add a little salt. Boil ten minutes.

Apricot Bavarian Cream 1 level tablespoon granulated gelatin. 1 cup syrup drained from canned apricots. 2 egg yolks. 1 lemon—juice and grated rind. 1/2 cup of sugar. 1 cup sliced apricots. 2 egg whites. 1 cup or bottle whipped cream. Method: Cook in double boiler—gelatin, syrup, egg yolks, lemon and

BAKING HINTS

Butter Cake With Strawberry Sauce 1/3 cup of shortening. 1 cup of sugar. 1 egg. 1 cup milk. 1 1/2 cups flour. 1/2 cup salt. 4 teaspoons baking powder. Vanilla.

Method: Cream shortening and sugar. Add beaten egg. Then 1/2 milk and 1/2 flour with salt and baking powder. Then add remainder of milk, flour and flavoring. Beat well. Bake in a shallow pan in a hot oven 20 minutes. Serve hot—cut in squares with strawberry sauce topped with whipped cream.

Strawberry Sauce 2 cups of strawberries—washed and hulled. 3/4 cup of sugar. Let stand with sugar for some time. Crush or leave whole—according to taste.

DUTIES OF ROAD SUPERINTENDENTS

In order that Township Councils may receive the Provincial grant on roads, under the new act recently passed by the legislature, Township Road Superintendents must be appointed by by-law, which must be immediately submitted to the department of Public Highways for approval. The general duties of Township Road Superintendents are as follows:

- 1. To attend regular meetings of council, or special meetings if so desired by the council, to receive instructions regarding work to be undertaken and carried on by him; also to report at meetings of the council as to the road work then in progress. 2. To report to the council early in each year as to the work required the coming season, to carry out the instructions of the council with regard thereto, and to perform such business or other services as may be required of him from time to time under the instructions of council. 3. To supervise all work of construction and repair on the roads and bridges within the exclusive jurisdiction of the township council. 4. To acquaint himself with the best methods of constructing and maintaining good roads, and of operating graders, crushers, rollers or other road machinery used by the municipality. 5. To employ, direct, discharge all men and teams required to carry on the work, and to advise the council as to materials required. 6. To see that all washouts, drain and culvert obstructions, bridge failures, and other unforseen defects are repaired or guard-railed with the least possible delay so as to prevent further injury to the road or accident to the users of the road, and to act promptly in all cases of emergency. 7. To keep an accurate record of the men employed and the work done, and to furnish (on forms prescribed by the council) pay sheets, receipts and vouchers to the council at proper intervals for their approval, in order that the municipal treasurer, under authority of their certificate, and upon being satisfied with the correctness of the statement, may issue cheques for the payment thereof. 8. To see that all work (especially for the road grader, is staked out, and see that it is undertaken systematically so that no time be lost in taking men, teams and machinery

from one part of the municipality to another.

10. To keep stored and protected all machinery, tools and implements owned and used by the municipality, and to store and protect all supplies and material not immediately used.

11. To supervise the performance of all work done by contract, and certify as to its completion.

12. To arrange for the systematic use of the road drag, as far as the council may direct.

13. To report to the council at the close of each year, showing in detail the character, location and cost of each separate work undertaken.

Mr. Marshall urged the most complete co-operation between councils officials and all concerned to get the very most benefit obtainable under the new act, and cause no conflict of authority. Road Superintendents are servants of the council and should in all cases endeavor to carry out the work in harmony with their superiors.

SUCCESSFUL CROPS

SEED is the vital factor in the whole crop process. Successful crops can come only from clean, vigorous seed. The selection of the seed best suited for your locality may mean the difference between a good and a bad crop. Make full use of the free advisory services of your nearest agricultural college. They can help you to avoid mistakes. Write to the Department of Agriculture at Ottawa for a list of "300 Hints to Better Farming."
