MANY PRESENT AT WOMEN'S INSTITUTE ANNUAL MEETING

(Continued from page 1)

is still in the Women's Institutes. These have grown to such proportions that they demand more time and energy. He had just returned from a week's visit to Northern Ontario, and although no two Institutes are just the same, he noted the intense earnestness of the women all over. It has become a world wide movement. Special mention was made of Denmark, a delegate from that country having been appointed to come to Ontario to look into methods of instruction in Domestic Science and Agriculture for women. After the delegate heard of the Women's Institutes, she spent two weeks investigating their methods.

The development has been wonderful, he said. It is important what women of Ontario think of Women's Institutes. We should have it established in our minds that we will be guardians of the best interests of the youth of our land, and in the community wield an influence for that which is uplifting. The Women's Institute is becoming a national force, and its success lies in the fact that the work has been carried on by voluntary organization. Women have put forth their best effort to help themselves, and the Department will then come to their aid in sending literature, speakers for the summer series of meetings, demonstrators for the courses; viz., Domestic Science, Nursing and First Aid, Dressmaking, Millinery, etc.

The monthly meetings with a program, both attractive and instructive, was the only occasion for many a woman to meet her neighbors on a common footing, and the help and inspiration received at these and the District Annals and conventions was a great factor in adding to proficiency in the home. Leaders were discovered who revealed powers and capabilities to themselves and to their neighbors. Then with united action, they could attack community problems, such as, libraries for schools, amusements for young people, beautifying of cemeteries, parks, etc. The speaker advised looking forward to the future as an age of human efficiency, and utilizing the knowledge of the doctor, the dentist, the dietician and the nurse in educating the children, and it is the duty of officers to extend this work. In closing, Mr. Putnam reminded his audience that the Department was glad to furnish help, but said that success rested with themselves.

The "First Aiders"

A new feature at the meeting was the appearance of a band of girls—"First Aiders,"—who were organized last September under the auspices of the Durham Women's Institute. Fourteen girls marched in singing one of their songs. The Secretary, Miss Caroline Mitchell, gave a report of their meetings. Mrs. Harding, first guide for the sewing class, explained their work and told of the visit from Miss Slieter of Kitchener who judged the sewing. Mrs. Pickering, second guide, then presented prizes which were financed by the mother branch. Others who deserve mention in this line are Mrs. Burgess and Mrs. Livingstone. The prize winners were: Misses Evelyn Baird, Alice Nicholson, Ila Allan, Norma Allan, Dorothy Douglas, Dorothy Pickering, Elizabeth Harding, Josie Falconer, Isobel Jamieson, Mary Moffat, Violet McLean, Abbey McLean, Caroline Mitchell and Anna Ritchie.

Mr. Putnam, with some good advice and a deal of humor, presented a diploma to each girl for her sewing which consisted of a specimen of darning, a patch, a bag and a nightgown.

Mrs. Graham and Miss E. Scott were guides for the business part of their program, their health talks, demonstrations, contests, etc. Miss Scott gave a synopsis of their work and presented Miss Evelyn Baird, leader of the winning group, with a basket of chocolates as a prize. Mrs. Arthur McGowan, on behalf of herself, Mrs. Farrel and Miss Sadie McDonald, guides for the physical training of the girls, gave a report of their part in the work. Their reports were interesting and much appreciated. Following another song, the girls marched out. The meeting was brought to a close by singing the National Anthem when the delegates made their way to the basement for lunch, which was served by the Durham Branch.

The receipts of the District for the year 1924-25 were \$196.79, and the expenditures amounted to \$145.61. The combined receipts of District and Branches were \$2,049.85 and the expenditures \$1,434.42.

A FRUIT TREE TEST

The European Red Mite, sometimes called the plum spider mite, is a major pest of plum orchards in Ontario. It also attacks cherries, apples and peaches, and has been found in British Columbia and the Maritime Provinces. Details of its appearance, life history, the injury it causes, and its control, are given in Circular No. 39, just issued by the Entomological Branch of the Dominion Department of Agriculture. Severe infestation robs the trees of vigour and dwarfs and degrades the fruit. The adults are carmine in color. The eggs are pink at first, and later a dull, dark red, and the nymphs are a dull red. Dry, hot weather, favors rapid multiplication and wet, cool conditions tend to keep the pest under control. In order to combat the mite, no special sprays or applications are necessary. Spraying twice with commercial lime sulphur 1-40, at the regular time for other pests is sufficient, but as the mites are found on both sides of the leaves, it is essential to cover all part of the foliage. The Circu-

EXAM. RESULTS DURHAM HIGH SCHOOL

The following is the final report of the examinations in Form I. and II. held within the Durham High School for the year ending June 1925.

There were in all 532 papers written upon. Of these, 466, or 88 per cent were of pass or honor standing, an increase of 6 per cent as compared with 1924, while 66, or 12 per cent were failures.

The Department of Education sets papers in Canadian History, English Grammar, Botany, Zoology, Physiology, Art, Arithmetic and Geography, and students failing in the tests set by the school staff have the privilege of writing the Departmental Examinations in these subjects.

- (1) denotes first class honors, 75 per cent or over.
(2) denotes second class honors, 66 to 75 per cent.
(3) denotes third class honors, 60 to 65 per cent.
(C) is a pass, 50 to 59 per cent.
(F) indicates a failure.

FORM I.

Table with columns: Student Name, Latin, French, Literature, Composition, Algebra, Botany, Zoology, Geography, History, Art. Lists students like Anderson, Christine, Baird, Grace, etc.

Form I. Medal awarded to Ernest Neaves.

FORM II.

Table with columns: Student Name, Latin, French, Literature, Grammar, Arithmetic, Geometry, Zoology, Physiology, History. Lists students like Arnett, Reggie, Allap, Aylmer, etc.

Form II. Medal awarded to Fred Kelsey.

COW KILLS WOMAN

Mrs. Samuel Smith, aged 72 years who with her husband lived 2 1/2 miles south of Exeter on the London Road, was killed by one of the milk cows on Friday of last week. She and her husband were driving the cows in at milking time when a Jersey cow, usually a quiet animal, attacked Mrs. Smith, catching her about the chest with its horns and tossing her in the air. Assisted by Mr. Smith, the injured woman was able to walk to the house but the shock was too much for her, and she died a few hours later.

A CLOSE CALL

The "newsie" on the C. N. R. train undertook to take a walk along the track, to get a little fresh air on Tuesday, June 2, before his train pulled out. In some manner unknown, he slipped into the water, and was nearly drowned before Con Protisch came to his rescue and threw a rope around the drowning lad and pulled him out. He was unconscious for some time, but after the water was pumped out of him and otherwise revived, he was questioned but could give no idea of how he slipped into the water, in fact did not appear to know what happened. He was able to proceed on his train later.—Meaford Mirror.

When a rich man dies, he leaves no more than a poor man. They both leave everything.

HYMENEAL

TORRY-BOYCE

On Wednesday, June 17, at 5 p.m., one of the prettiest of summer weddings was solemnized at the home of Mr. and Mrs. Richard Boyce, Crawford, when their only daughter, Mary Ann Marguerite, was united in marriage to George Henry Torry, only son of Mr. and Mrs. William Torry of Bentinck. Only the immediate relatives were present.

The home was beautifully decorated for the occasion, the ceremony being performed in the drawing room in front of a bank of flowers and ferns, starred with white peonies and roses. Rev. Asher P. Latzer of Hanover United Church, officiated. The bride, who was unattended, was given away by her father, and wore a beautiful gown of white silk, crepe and lace. She also wore a silk tulle veil, caught with orange blossoms and arranged in cap effect. She carried a bouquet of peony roses and maidenhair fern and wore the groom's gift, a crescent brooch set with pearls. Mrs. Clifford Howell of Durham played the wedding march.

Following the ceremony, the guests entered the dining-room where a bounteous repast was served, the bride's table being prettily arranged with white peonies and roses, while the bride's cake of three storeys adorned the centre. Later Mr. and Mrs. Torry left on a honeymoon trip for Toronto and other points, the bride travelling in a beautiful gown of brown brocade silk canton crepe with hat and shoes to match, and wrap of pointed twill with trimmings of fur. Upon their return, Mr. and Mrs. Torry will reside in Bentinck.

The Chronicle joins in extending best wishes to the young couple.

WALKER-RITCHIE

A quiet but charming wedding took place at the First United Church manse, London, with Rev. Dr. William Beattie officiating, when Edna May Ritchie, only daughter of Mrs. Elizabeth Tolchard, formerly of Chesley and Durham, became the bride of C. H. Walker, son of Mr. and Mrs. D. Walker, of Fort William. The bride, who was unattended, was graceful in her gown of white charmeuse satin with silver trimming and wore a large white hat with lily of the valley. The bride carried a large bouquet of Butterfly roses and maidenhair fern, and wore the groom's gift, a string of pearls.

After the ceremony, the bridal couple were entertained at dinner at the home of the bride's mother. The latter was gowned in heavily beaded black satin and wore a solid sterling silver barpin, the gift of the groom. After spending their honeymoon at Port Stanley and London, Mr. and Mrs. Walker motored to Leamington, where Mr. Walker has charge as organist and choir leader of the United Church. A reception is being held in the church for Mr. and Mrs. Walker and the new minister and his wife on June 29.—London Free Press.

There is a bright side. The husband or wife who feels abused gets even by loving the children more.

BRAITHWAITE PROPERTY SOLD TO H. MURDOCK

Deal Completed Last Saturday and Possession Will Be Given Next Fall.

A property deal was completed last week whereby Mr. Herbert Murdock of Marion, Indiana, purchased from Mr. Doyle Braithwaite his property on Corktown hill south of town. Possession, we understand, is to be given late next fall.

Mr. and Mrs. Murdock, former residents here, but for the past couple of years living in the United States, came home to attend the funeral of her mother, the late Mrs. Miles Wilson, and it was while here that the deal was put through. While he likes his present position, Mr. Murdock feels that he would have better health at an outside job, and it is altogether likely that he will go into the chicken business next spring. Mr. Braithwaite, we understand, intends moving to town.

You can pick the hicks. They act most important at a fashionable resort.

THE BEETON WORLD

An Ottawa Citizen gazed At the Milverton Sun amazed Using Hamilton Specs. He noticed more clearly, we hope, Through the Walkerton Telescope All its spots, stripes and checks.

A Kitchener Record he kept (While the Lucknow Sentinel slept) Of each thing he saw. In an Ottawa Journal neat, He recorded it sheet by sheet, Quite according to law.

The Barrie Examiner came For to duly inspect the same On the Aymer Express. 'Tis sure Chesley Enterprise, this, The Examiner said, "Oh, bliss! We will print it, I guess."

Now what did the Citizen see As it gazed at the Sun in glee And continued to scan it? A Goderich Signal, you say? Or a Southampton Beacon? Nay nay—

'Twas a Coldwater Planet.

NEWSPAPERDORBELL

Of course he's right. The sun is a Goldwater Planet. And that's why his poem is called the Beeton World. —Toronto Star.
