New Premium Policy for Rams

The Dominion Government some three or four months ago made a change in the policy of giving premiums to rams. Heretofore the individual who never before owned a pure bred registered ram could get a premium of \$10.00 divided into two annual payments of \$5.00 each. The policy is now changed. The following are the main points:

- 1. That there must be ten farmers in a community who apply. (The size of the community has not been defined.)
2. These must own at least ten ewes each and have never used a pure bred ram.
3. They must purchase rams of the same breed.
4. All male lambs must be castrated and all lambs docked.
5. Applications must be received not later than December 31 of the year in which the ram was purchased.

Quite a large number of farmers have requested these premiums this year, but they are too late unless they have nine other farmers to form a club.

All those securing first premiums last year must sign the forms for their second premium and return not later than December 31 this year.

FIELD INSPECTION OF POTATOES FOR CERTIFIED SEED

The acreage inspected this year for certified seed potatoes was considerably below that of 1924, which, however, was not unexpected.

The area inspected throughout the country—not including British Columbia—was approximately 13,500 acres, of which 10,000 acres, or seventy-five per cent, passed the two field inspections. With an estimated crop from this area of 475 to 200 bushels per acre of the Irish Cobbler variety, and 225 to 250 bushels of the Green Mountain variety, there will again be a large quantity of certified seed potatoes available, sufficient for extensive planting; in Canada next season, and for extensive export to other markets where the favorable reputation of such seed has become firmly established.

As an indication of the merits of certified seed potatoes, it will be interesting to readers to note that comprehensive information has recently been collected by Mr. H. C. Moore, of East Lansing, Michigan, on the results obtained from 14,627 test plots of certified versus non-certified seed planted in all parts of Canada and the United States, and that the average increase per acre in favor of the certified seed was 46.4 bushels, and in Canada alone,

PROFESSOR KATZ COMING

Professor Katz, the well-known eye specialist of Listowel, will relieve eye sight trouble again at the Hahn House, Durham, on Tuesday, November 10, by the method that seldom fails. If you have any eye trouble at all, young and old, you should consult Professor Katz while he is in town as by our great skill and experience in glasses, we prescribe glasses not merely to see but to restore, too, as you all know Professor Katz's good work around here for years in relieving eye sight trouble. We can help you even if others have failed. Glasses at reduced prices.—E. Katz. 1pd

Hints for the Household

For November

By BETTY WEBSTER

Readers, Note: If you have any questions concerning Recipes, and other Household Hints you would like to ask Betty Webster—address her in care of The Durham Chronicle.

HOUSEHOLD HINTS

Well Planned Housework Do all possible cleaning, ironing, washing or baking in the morning. Make possible preparations for dinner in the morning, leaving just the finishing to be done at dinner time. Save sewing, mending, writing and such tasks for afternoon or evening. These can be done after one is dressed for the evening. It allows the housewife a chance to be off her feet and thus—gives her a rest worth while.

Save Starch

Do not throw away starch left in a bowl. Put bowl aside until starch has settled at the bottom. Pour off the water. Place bowl with starch in the oven for a few minutes until the starch cakes. Then it can be put away and used another day.

The Proper Way to Hang Clothes Hang clothes up to dry in as near the position they are worn as possible.

COOKING HINTS

Turnip in Potato Cases Cook turnips and mash when done. Bake potatoes. When done, scrape out middle. Mix equal amount of potato and turnip together. Mash and season with butter pepper and salt and little milk and cream. Place in the potato shells. Place in oven and brown. Serve hot.

88 bushels This information, and the knowledge, through personal experience, which large numbers of growers have acquired during the past few years, warrants the statement that there is no doubt about the quality of seed which has fulfilled requirements.

Some outstanding features as a result of inspection for certified seed are, the general improvement in cultural practices followed by the growers who enter their fields for inspection, the interest which they evince in the various diseases and the practice of the methods recommended for their control, and the honest efforts they put forth to comply with the tuber inspection standard when preparing their crops for sale. These features are of great assistance to the efficient conduct of the inspection service, and are much appreciated.

Any growers interested in the above work, or desirous of securing a supply of certified seed for planting next season, may secure further information by communicating with the Dominion Botanist, Central Experimental Farm, Ottawa.

FEEDING PULLETS FOR WINTER EGG PRODUCTION

For winter feeding of the laying pullets at the Experimental Station, Lennoxville, Quebec, 1 part wheat, 1 part corn and 1/2 part oats is used as a scratch grain, says J. D. Lang, Poultryman, Experimental Station, Lennoxville, Quebec. The corn should be cracked before mixing with the wheat and oats, otherwise the birds will eat a relatively larger quantity of corn because of the difference in the size of the kernels. This scratch grain is scattered morning and afternoon in litter about 6 to 8 inches deep, so that the birds will have to work for the grain in order to get it. This is merely a compulsory form of exercise, without which a satisfactory production of eggs cannot be expected. A dry meal mixture consisting of equal parts, bran, middlings, cornmeal and oatmeal, with 12 to 15 per cent of beefmeal, is kept in an open hopper where the birds may help themselves. Grit and oyster shells are also kept in open hoppers. At noon, it is desirable to feed some form of hay. Green feed, such as mangolds, cabbage, sprouted oats, or clover hay. Green feed must be provided to take the place of the grasses which the birds pick for themselves while on range during the summer. Mangolds are greatly relished, and clover leaves, if they can be obtained, are excellent. Give the pullets sour milk to drink whenever possible. If milk cannot be secured, it will pay to get a small quantity of green cut bone, or cooked refuse meat. Feed the pullets regularly. If fed irregularly, they are restless and

Puffed Rice Brittle

(The kind children like most.) 1/2 box of Puffed Rice. 1 large cup brown sugar. 1/2 cup of water. 1 tablespoon of vinegar. 1/2 teaspoon of cream tartar. Butter size of walnut. Vanilla.

Method: Butter a deep cake pan. Put rice into it to 1 inch depth. Then make a taffy. Cook together the sugar, water, vinegar and cream tartar. Boil until it hardens when dropped into cold water. Add butter and flavoring. Pour over puffed rice.

Red Cabbage and Apples

1 red cabbage. 1 cup of boiling water. 3 tablespoons of butter or bacon grease. 2 tablespoons of vinegar. 1 small onion. 5 tart apples. 2 tablespoons of sugar. 1 tablespoon of flour. Salt.

Method: Chop up onion. Melt grease. Cook onions in fat until tender. Shred cabbage and add to onion. Mix well. Add water, cover, cook until cabbage is almost done. Then a half hour before serving add chopped apples, sugar, vinegar, salt and flour. Cover and cook until apples are tender. Serve hot.

BAKING HINTS

Boiled Raisin Cake 2 cups of sugar. 2 cups of hot water. 1/2 cup of butter and 1/2 cup of lard. 2 teaspoons of cinnamon. 1 teaspoon of cloves. 1/2 package or 1 whole package of seeded raisins. Salt. 2 cups soda. 3 1/2 cups of flour.

Method: Cook altogether—sugar, water, butter and lard, cinnamon, cloves, raisins, salt. Bring to a boil and boil 1 minute. Then add soda. Beat hard and let cool. When cool, add flour which has been sifted twice. Bake in a slow oven for 1 hour.

Baked Calves Hearts

4 hearts. Stuffing. 1/2 loaf of bread. 1 onion. Sage if desired. Seasoning. Boiling water.

Method: Wash hearts and remove all fibrous tissue. Fill with stuffing made as follows: Break up bread. Cut up onion. Add seasoning. Pour in enough boiling water to mix well. Place stuffed hearts in roasting pan. Pour 1 pint boiling water over hearts. Bake 2 or 3 hours and baste frequently.

LITTLE BOY KILLED AT MITCHELL

Four-Year-Old Child's Head Crushed in by Road Roller.

Crushed to death by a ten-ton road roller as he played on St. George street about 4 o'clock Friday afternoon of last week was the terrible fate which overtook the four-year-old son of Mrs. John Ratz, Jr., of Mitchell. The fatality shocked the community and reacted on the lad's mother to such an extent that she is under doctor's care and in a critical condition.

The little Ratz boy with two other children about his own age, had been playing on the street where the town road roller was at work, and they had been watching the machine as it moved about on a section of St. George street which is being rebuilt. The engineer of the road roller, Ezra Robinson, did not notice the little fellow, who evidently had got close to the massive roller and stumbled and fell in front of it. The roller passed over his head, crushing it flat.

Seaside Border (to newcomer)—"I say, old man—I don't think I'd touch the rice pudding if I were you. There was a wedding on this street yesterday."

"What do you think of modern dancing, Mrs. 'Eggs?" "Ah, give me the time when they used to dance minarets and pokers."—London Mail.
