BITTER MILK

Exposed as it is to contamination, not only in the stable, but also with every subsequent handling, milk is always infected to a degree, depending upon the sanitary conditions employed, by many types of bacteria which find in it ideal conditions for growth.

A bitter taste in milk is occasionally due to specific substances in the feed which are absorbed into the milk. In such cases, the milk is bitter when drawn, while the remedy lies in removing the offending feed. Other cases, often epidemic in nature, arise where bitterness develops after the milk is drawn, and in such instances, bacteria are the cause of the trouble.

The production of bitterness by the bacteria was found to be encouraged by contact of milk with air, either by increasing the exposed surface or by agitation. When milk is stored any length of time, it is better, in dealing with bitter milk troubles, to keep the exposed surface at a minimum in proportion to volume and to minimize agitation.

The complaint is frequently made that farming is not a money-making business, and we never yet heard of a millionaire in the ranks of out-and-out-farmers. However, it might be interesting to set down a list of one's town friends and relatives and check up on their wealth.

Hints for the Household

For January

By BETTY WEBSTER

Readers, Note: If you have any questions concerning Recipes, and other Household Hints you would like to ask Betty Webster—Address her in care of The Durham Chronicle.

HOUSEHOLD HINTS

Suggestion for Cooking Vegetables

It is most convenient and practical to cook again as many of certain vegetables can be used in one meal. The vegetables I refer to are spinach, turnips, cauliflower, peas and beans. The first night serve them plain with butter, salt and pepper, and on the second night, cream the remaining vegetables.

Frost Proof Windows

Rub windows with cloth dipped in alcohol. Polish with dry cloth. They will shine brilliantly and be practically frost proof.

COOKING HINTS

Mousse

Mousse is an ideal dessert for every class and occasion. It is also good and easy to make. It is especially nice for the winter months. Method: Just whip your cream stiff. Add sweetening and flavoring. The flavor can be of the bottled or canned variety. When pineapple or other fruit is used, the platter or dish should be garnished with the fruit used with possibly the addition of a cherry.

Raisin Puffs

2 eggs. 1/2 cup of butter. 2 tablespoons of sugar. 2 cups of flour.

1 cup of milk. 1 cup of raisins (chopped). 1 teaspoon of vanilla. 3 teaspoons of baking powder.

Method: Mix butter and sugar. Add beaten eggs, Add flour and baking powder, then milk and flavoring. Last add the raisins dredged with flour. Pour in individual molds and steam for one hour. Serve warm with foamy sauce.

Foamy Sauce

1/2 cup of butter. 1 cup of powdered sugar. 3 eggs. Vanilla.

Method: Cream butter and sugar together. Add yolks of eggs well beaten. Add the flavoring and last add the egg whites beaten stiff.

Date and Orange Salad

This makes a nice combination for a winter salad. Arrange prettily and serve with French dressing.

BAKING HINTS

Tree Cake

This can be made in one long piece or when cut, it can be as small tree cakes.

4 egg yolks. 3 tablespoons of cold water. 1 teaspoon of vanilla. 1 cup of sugar. 1 1/2 tablespoons of corn starch. 3/4 cup of flour.

1 heaping teaspoon of baking powder. Little salt. 4 egg whites.

Method: Beat egg yolks and water together until very light. Add the sugar and flavoring. Beat well. Fold flour, corn starch and salt into first mixture. Beat the whites very stiff and the last thing, fold whites into first batter. Pour cake into large dripping pan. Be sure to line pan with paper and grease. Bake 15 minutes in a moderate oven.

Have a clean cheese cloth ready and sprinkled with powdered sugar. Take cake from oven and lay on cheese cloth. Remove paper and spread cake with a butter frosting. Roll cake up. Wrap cheese cloth around it to hold it in shape. When cool, frost with remaining frosting. Decorate or run fork through frosting to resemble a log.

Frosting

3/4 cup of unsalted butter. 1 1/2 cups of sifted confectioner's sugar. 1 tablespoon of warm strong coffee. 1 egg white.

Method: Cream butter and part of sugar. Add coffee slowly and mix continually. Beat egg white stiff. Add remaining sugar. Mix altogether thoroughly. If necessary, add more sugar.

CHECK THEM UP

The complaint is frequently made that farming is not a money-making business, and we never yet heard of a millionaire in the ranks of out-and-out-farmers. However, it might be interesting to set down a list of one's town friends and relatives and check up on their wealth.

THE SMALL TOWN

Some people in small towns complain that the big cities draw all the business from rural communities. This is a mistaken idea. All over the country there are shining examples to prove that manufacturers, merchants, mill operators and numerous other productive enterprises are established, thrive and distribute their products more economically from a small town than from a populous centre.

READ THIS AND THEN THROW ON MORE COAL

Central and Northern Argentina are in the throes of an abnormally long heat wave, and no immediate relief is in sight. There have been numerous prostrations at Buenos Ayres and at other places. Many people are sleeping in the open. Ice factories are reported in various interior cities. A windstorm brought some relief last night, diminishing the humidity.

One resolution which it is hoped Buffalo has made for 1926, and is determined to keep, is to make safety zones safe.—Buffalo Courier.

NOTICE TO CONTRACTORS

Separate sealed tenders marked, "Tender for Contract No." will be received by the undersigned until 12 o'clock noon on Monday, February 22, 1926, for the following work on the Provincial Highways:—

- Grading 1285 Chatsworth South towards Durham 6.5 1286 From swamp north of Markdale Southerly 6.1

Plans, specification, information to bidders, tender forms and tender envelopes may be obtained on and after Monday, February 1, 1926, at the office of the undersigned or from Mr. W. R. Alder, Resident Engineer, Durham.

A marked cheque for \$500.00 payable to the Minister of Public Works and Highways, Ontario, or a Guaranty Company's Bid Bond for a similar amount must be attached to tenders. A Guaranty Company's Contract Bond for 50 per cent of the amount of the tender will be furnished by the Contractor to the Department when Contract is signed. All bonds must be made on departmental forms. The lowest or any tender not necessarily accepted.

S. L. SQUIRE, Deputy Minister of Highways, Department of Public Highways, Ontario. Toronto, January 18, 1926.
