### DURHAM SCOUTS WON FROM HANOVER TROOP

#### Good Game Dished Up by Two Scout Teams Here Saturday Night—Lots of Thrills Put On by Youngsters, Who Showed Possibilities for Future Teams in Both Towns.

The few spectators who lined the boards on Saturday night at the local arena were treated to a nice little game of the national winter pastime. The local Troop of Boy Scouts took on the Hanover pucks and beat them to the tune of 4-3. It was a very nice game of "shinny" and there are several lads on both teams who are "comers."

In Hanover this winter, they have had a church league, and every youngster with any hockey aspirations has had an opportunity of strutting his stuff. As a result, the lads from the Furniture town played a nifty brand of hockey. Their combination was nice, and had it not been for the superior weight and speed of the Durham lads, the final tale might have been different.

Moon played a fast, hard-checking game. Gill Wilson was also good on the defence, and McElraith and Raymond McGirr shone at left and right wing respectively. The local team had speed and stick-handling to burn; but apparently knew nothing about combination. Passing the puck was the last thing they thought about. However, their individual work was good and pulled them through.

The teams:  
Hanover.—Goal, McGee; defense, Buck and Derby; centre, Pepler; wings, Ries and Dankert; Sub, McElraith.  
Durham.—Goal, McEachnie; defense, W. Wilson and Vollett; centre, Moon; wings, McGirr and McElraith; Subs., Clark and K. Wilson.

It is hoped to play of the tie with the Trail-Rangers on Saturday night next, if the ice holds good. Next year it is hoped that a juvenile league will be organized at the beginning of the season.

#### Factory Won From High School

In an interesting game of hockey last Thursday night, the Durham Furniture Company team defeated the High School sextette 3 goals to 2. There was plenty of action at this match, and while there was only a small attendance present, the crowd and players were very enthusiastic. Following are the teams:  
Factory.—Goal, Becker; defense, McDonald and Vollett; centre, McDonald; wings, Graham and Snell; Sub, Vollett.  
High School.—Goal, Clark; defense, Wilson and Havens; centre, Moon; wings, McElraith and Elvidge; Sub, McGirr.

#### Stone Plant Beat Factory

Another interesting contest was staged Tuesday of this week when the Stone Crushers defeated the Board Trimmers' outfit 7 goals to 2. It was a slap-bang affair; that is, a slap with the stick almost every check, and a bang when one of the players went into the boards when met head-on by the heavy-weight defense of either team. The Stone Plant team, however, had the edge in the scoring, and when full slingers had quite a tend on the saw and screwdriver artists. The teams lined up as follows:  
Stone Plant.—Goal, Clements; defense, Donnelly and Rimmer; centre, McDonald; wings, Wilson and Rowe; Sub, K. Wilson.  
Factory.—Goal, Becker; defense, McDonald and Vollett; centre, Vollett; wings, Saunders and Styles; Sub, Westlake.

#### RETURNED RECENTLY FROM SOJOURN IN ENGLAND

Dr. Miln Harvey, Brother of Mrs. W. A. McGowan of This Town, Arrived Home to Arthur Following Tempestuous Voyage.

The Arthur Enterprise of two weeks ago contains the following of interest to many Durhmites.  
"Dr. Miln Harvey, F.R.C.S., arrived home on Saturday after an absence of over two years in England and Scotland. Dr. Harvey devoted himself to post-graduate work while in the old land, and gained a wide and varied hospital experience. He was successful in securing the degree of Fellow of the Royal College of Surgeons, from the University of Edinburgh. This is one of the highest degrees obtainable in the profession. Dr. Harvey had a long and very stormy voyage across the Atlantic, being on the ocean for twelve days, about twice as long as is regularly required to make the trip from Liverpool to New York."

Following Dr. Harvey's arrival, a family reunion was held at which all the family were present, including Mrs. W. A. McGowan of this town, and at which a most joyous time was spent. Dr. Harvey will be remembered by many in Durham, as four years ago, while on vacation, he spent some time with the Rob Roy Mills. We understand that there is a likelihood of Dr. Harvey returning to England shortly, where he has been offered a most lucrative position on the staff of one of the larger hospitals.

Welbeck.  
(Our Own Correspondent)  
Mr. and Mrs. Archie Watson spent Sunday afternoon with Mr. and Mrs. Revel Boyce.  
Mr. Gordon Goldsmith and lady friend spent Sunday afternoon with Mr. Fred Haug.  
Miss Florence Robertson spent the week-end with Miss Jessie Ledingham.  
Mr. Lorne Goldsmith spent Sunday afternoon with Mr. Percy Ledingham.  
Mr. James Walsh and Miss Marie Walsh spent the week-end with Mr. and Mrs. W. Weihenkel of Brant.

### TEEN-AGE BOY ADDRESSED ROTARIANS

#### George Dunn Was Given Remarkable Reception by Moose Jaw, Sask., Rotary Club Following Address on "The British Empire."

A few weeks ago, The Chronicle referred to the success of George Dunn of Moose Jaw, grandson of Mr. and Mrs. W. Laidlaw of this town, who won out in the Bryant Oratory Contest in that city, open to members of the Collegiate. This young lad, still in his early teens, by request, delivered this same address to the Rotary Club of his native city, and created such a favorable impression that it should be an example for all boys to follow. It is with this in mind that the following from The Moose Jaw Daily Times is given:

George Dunn, entrant in the recent Bryant Oratory Contest at the Central Collegiate, delivered his address, "The British Empire, Its Unity and Progress," to members of the Rotary Club at their noon luncheon in the C. P. R. banquet hall on Monday. Mr. Dunn was the guest of Rotarian Finlay Cassidy. He is a son of W. F. Dunn, barrister.

It was a unique circumstance, a striking youth addressing a body of men all of whom were many years his senior, but the youthful speaker appeared entirely at his ease and carried his address off in true oratorical style, unflinching in diction and fluent in expression.

George Dunn, it will be remembered, was a member for Moose Jaw city at the past two sessions of the Saskatchewan Older Boys' Parliament, and has been a leader in local boys' work for several years.

His address on the British Empire was listened to with rapt attention by the Rotarians, who accorded him an ovation such as any full blown speaker of experience would have been delighted to receive.

The speaker's address was delivered just as it had been given at the Bryant Oratory Contest, and as a prize winning effort, its reception by the Rotarians was whole-hearted.

Mr. Dunn traced the development of the British Empire from its early beginning, also tracing the rise and fall of the previous empires, the Egyptian, Babylonian, Grecian and Roman. It was only in the past 200 years, he said, that the British Empire had risen pre-eminent among the nations, and this advance was due to the remarkable reforms in the national life of Great Britain during the 18th and 19th centuries.

The British Empire, said the young speaker, had been founded upon the principles of fair play, tolerance of the weaker nation and regard for human rights and privileges. Britain had learned her lesson in the bitter school of experience, and by her experience with the United States during revolutionary times knew the value of true friendship and understanding, as contrasted with the power of force.

Founded upon true principles and dedicated to the principles of right, the British Empire had triumphed over many obstacles until it represented now the greatest international solidarity in the history of the world.

"The component parts of the British Empire," said the speaker, "are held together by ties that are lighter than air and stronger than steel—the ties of mutual love and respect."

### C. F. U. A. CRITICIZE FIRE EQUIPMENT

#### Several Recommendations Made for Improvement of System of Fighting Fires in Town.

The finding of the Inspector for the Canadian Fire Underwriters' Association, who inspected the Durham equipment on the 15th of last January, reached town this week, and the report contains several recommendations for increasing the efficiency of the Fire Department for the combating of future conflagrations. After giving a statement of conditions as they are, the Inspector makes the following recommendations:

Wood shingles laid in mortar are regarded as unsafe within the fire limits. No matter how laid, these should not be allowed within the fire limits.

The storage of inflammables, not now regulated by law, should be limited to five barrels of coal oil, petroleum, etc., and of crude oil, benzine, gasoline, etc., to five gallons.

The steam engine of 330 gallons capacity per minute should be replaced by one of not less than 600 gallons.

The fire tanks filled by the engine or by surface water have a capacity of apparently 12,500 gallons; these should have a capacity of at least 72,000 gallons. Additional tanks are also required so that hose of excessive length should not be necessary. To give adequate protection, tanks or pumping stands should be placed not less than 600 feet apart in the business section and 1,000 feet in the residential.

There are 4,100 feet of first-class hose in service. There should be at least 1,500 feet.

Instead of the longest ladder on the truck, 36 feet, there should be an extension ladder long enough to enable the firemen to reach the top of the highest mercantile building.

Winter sleighs should be provided for the hose, also a sleigh on runners for the ladders and runners for the steam fire engine.

The strength of the brigade is sufficient (24 men), but as it is a strictly volunteer brigade, none sleep in the fire hall. It is recommended that a few of them do this, including the engineer. If this is not done, the chief and engineer should at least have telephones in their dwellings. It is also recommended that the firemen be paid a nominal sum for attendance at fires as well as for practice.

A proper hose-drying tower is recommended instead of the present sloping racks, this tower being sufficiently high to give 55 feet below the suspenders.

A night patrol is also recommended.

We regret that we have not more time or space to publish more of this report, but we think we have given enough to show that the time is not far distant when the town will have to do something for its fire equipment or else be content to pay exorbitant rates for fire insurance protection. With the numerous recommendations provided, we feel that the cost would go a long way toward providing an adequate waterworks system. It is our opinion that it would be time well spent for every citizen to acquaint himself with affairs as they appear to the Canadian Fire Underwriters' Association, and if the time ever comes when we are called upon to cast a vote on the waterworks question or fire equipment by-law, he will be able to do so with a good deal more intelligent information than was to hand the last time.

### FORMER RESIDENT DIED ON MONDAY

#### Mrs. Samuel Wilson of Shallow Lake Died at Home of Son.—Was Sister of Mrs. J. W. Vickers of Durham.

The Tuesday issue of The Owen Sound Sun-Times reports the death of Mrs. Samuel Wilson, a former well-known resident of Durham vicinity. The Sun-Times says: "Following an illness of some months with creeping paralysis, she passed away Monday evening a well-known and highly respected resident of Shallow Lake, Mrs. Samuel Wilson, her death occurring at the home of her son, Mr. Joseph Wilson, Owen Sound, North."

The late Mrs. Wilson was born near Toronto in 1853, and at the age of six months, came with her late parents, the late Mr. and Mrs. Vason, to Durham, and on October 27, 1873, was married to Samuel Wilson, taking up residence on the farm near Durham, residing there for 22 years. Thirty years ago, they removed from Durham to Shallow Lake, residing there until a few months ago, when they went to live with their son in Owen Sound.

"Surviving besides her aged husband, are three sons: Thomas, Joseph and John of Owen Sound; six daughters, Mrs. William Hillis, Mrs. David Hillis, Mrs. Joseph Shipley, all of Shallow Lake; Mrs. James Flood and Mrs. Arthur Graham of

Shouldice, and Mrs. Duncan McMillan of Grickshank. There are also four grandchildren and four great-grandchildren.

"Two years ago last October, they held their Golden Wedding."

Mrs. Vickers left here on yesterday afternoon's C. P. R. train for Owen Sound to be in attendance at the funeral to Boyd's cemetery, Shallow Lake, today.

### LATE JAMES WILSON WAS LIFELONG RESIDENT

#### Well-known Figure in Life of Durham and Vicinity Passed Away Yesterday Morning Following Four Months' Illness.

This week it is our duty to report the death of one of our oldest residents in the person of Mr. John James Wilson, who passed away at the home of his daughter, Mrs. W. E. Bourne, yesterday morning after an illness extending over a period of four months.

Though Mr. Wilson's death was caused from kidney and bladder trouble, it was hastened by an accident four months ago while visiting his daughter, Mrs. James Banks of Riverview, in Proton, when he slipped on a pile of stone and dislocated his shoulder in the fall. Since then he has always been ailing, and though for a time it was thought he might recover, little hope was held out for him in the past month or so.

A resident here and in this vicinity for the past seventy years or more, he was one of the best-known men in this district, a quiet, inoffensive old gentleman, industrious and held in high regard by all. He was born near Cooksville eighty-four years ago last November, and when a lad of about thirteen years of age, came to Bentinck in the vicinity of Vickers with his parents, where he spent about thirty years. In 1885 he was married to Miss Mary E. Wiggins, who survives, and some forty years ago, moved to Glenelg, where they remained until nine years ago when they moved to Durham and have since resided with their son-in-law, Mr. and Mrs. W. E. Bourne.

Besides his widow, Mr. Wilson leaves to mourn their loss, two sons and three daughters: Samuel, in North Dakota; James, in Saskatchewan; Janet (Mrs. James Banks), in Proton Township; May (Mrs. Albert Middleton), and Elizabeth (Mrs. W. E. Bourne), both in Durham. Three brothers also survive: Thomas, in Durham and Archie in Eversmont, just south of town, and Samuel, in Owen Sound, whose wife passed away on Monday evening of this week.

The funeral takes place tomorrow afternoon from the residence of Mr. Bourne on Queen street. The service at the house and grave will be taken by Rev. W. H. Smith of Knox United church, and interment will be made in Durham cemetery. We sympathize with the bereaved family.

### ST. PATRICK'S BANQUET WAS BIG SUCCESS

The St. Patrick's supper in the Queen Street church Wednesday night was an unequalled success, at least it should be judging from the big crowd in attendance, which necessitated three sittings at the tables set in the basement of the church. As the program is on as we go to press, this Wednesday evening, we cannot tell anything about it, but have no hesitation in saying that it will be a good one. As for the supper, however, we know all about it, as we were there and can safely say that it was the equal if not the superior, of any heretofore put on by that congregation. Comment on the program is withheld until next week.

### PRICEVILLE W. M. S. MET LAST WEEK

#### St. Columba Ladies Held Very Successful Monthly Session at Manse on Wednesday.

The W. M. S. of St. Columba United church met on Wednesday, March 10, at the Manse, Priceville. Mrs. Robert Parslow, the Vice-President, was in the chair. Two delegates, Mrs. R. Parslow and Mrs. (Rev.) McCormick, were appointed to attend the Presbyterian to be held in Orangeville on March 23. On learning that there was a deficit in the missionary budget for the Presbyterian, the members decided to make an offering toward the fund, contributions to be handed in not later than Sunday, March 21.

The topic taken for the March meeting was "Prayer and the Missions," and was taken by Mrs. A. S. Muir, Mrs. E. Mather and Mrs. D. G. McLean. At the close of the meeting, a social hour was spent while lunch was served, this bringing to a close a pleasant afternoon.
