SENSE AND SCIENCE IN RAISING BABIES

By DR. ARTHUR L. FORSTER

Note: Dr. Forster will answer such health questions in these columns as will be of interest to others and permissible in public print. Personal questions will be answered only when accompanied by self-addressed and stamped envelope. Address Dr. Arthur L. Forster in care of The Durham Chronicle.

Being a baby is a hard job. The youngster is helpless—he cannot run, talk or fight. He is subject to the Bell, and a piano solo by Miss Ruth vive. whims of his parents and the caprices of the world at large. It is a wonder to me, sometimes, that as many onstrator in horticulture at the Ag- of Mrs. Fred Noble on March 27, day was a day of blizzards and sunbabies live through this critical time.
