How to Reduce Your Meat Bill \$24. a Year

You spend \$3.00 or less for a roaster and save \$24.00 or more. It is real economy. You can quickly prove it by roasting next Sunday's roast in an SMP Enameled Ware ROASTER. Try it.

SMP Enameled Ware ROASTERS

TOP buying expensive roasts of meat. Buy cuts that are 10 cents a pound cheaper than you have been getting. Roast them in an SMP Enameled Ware ROASTER, and they will have all the juicy tenderness, flavor and nourishment of expensive cuts. In addition to giving you choice meat at lower cost, there is no loss or wastage of meat through excessive shrinkage. An SMP roaster can save a family as much as \$24.00 a year in reduced meat bills.

Here is the proof! As each Canadian consumes roughly 60 pounds of Roast meat per year, an average-sized family of four will eat 240 pounds in the same time. Through buying meat that is 10 cents a pound cheaper, and roasting it in an SMP Roaster, this family can save \$24.00 in one year. The bigger the family the bigger the saving.

As Easy to Clean as China

An SMP Roaster will save time, work and patience too! With a surface of glassy smooth, pure SMP enamel, it is as easy to clean as china. Yes, even after the greasiest, stickiest and hottest roasting. The meat or fat does not burn or stick as it does in the old style open roast pan. An SMP Enameled Ware Roaster is impervious to food odors, has no seams or sharp corners, and cannot rust.
