Naughtiness. There is much to be said for the view that in the naughty girl, like the naughty boy, there is the making of a good citizen. Naughtiness is often a sign of vitality, high spirits and grit. It is frequently caused by an excess of energy. Wisely guided, it becomes a valuable force. Revolt may be a nuisance, but it can be harnessed to useful effort and beneficent service. Lightning is merely mis-directed electricity.

Presenting young man: "I love your daughter, sir—and what is more, I cannot live without her!" Her father: "Then why come bothering me? I'm not an undertaker."

SUCCESSFUL EUCHRE. The euchre held in the town hall Tuesday night under the auspices of the hockey club was fairly well attended, considering the season of the year and the fact that a good many other affairs of this kind have taken place this past few weeks. There were approximately thirty tables in the play and after euchre and lunch, a pleasant hour was spent in dancing. In the euchre, Miss M. Hunter won first ladies' prize, and Mr. E. Schenk stood highest in the men. The proceeds of the evening, augmented by \$70 granted by the Town Council will be used for presentations to the hockey team and management in recognition of the clean sport and superior hockey played by them this winter. Just what the boys will be presented with or when the affair is to take place, have not yet been made public. He's Right at That. Officer: "Hey, you, mark time." Plebe: "With my feet sir?" Officer: "Have you ever seen anything mark time with its hands?" Plebe: "Clocks do, sir."

Ask The Senate. Fortune Teller: "Your husband will be brave, generous and rich—Chen! "How delightful! Now tell me how am I to get rid of the one I have now?" Aply Named. "Papa," asked Willie, "why do they call it the mother tongue?" "Well," answered the father, "just see who uses it most."

PRATTS Baby Chick Food

A Scientific Ration for the Successful Raising of Young Chicks

FOR YOUNG CHICKS, DUCKS, GESE AND TURKEYS. Furnishing nutrition, in similar proportion as usually supplied by the mother hen; a food that lays the foundation to make sturdy, vigorous, healthy chicks and bring the greatest number to maturity. Pratt's Baby Chick Food furnishes the material to produce bone, muscle and flesh; it is nature's food carefully combined in just such rations as are best suited to the needs of the newly hatched youngsters, whether they are to be raised artificially or otherwise. Altogether it is the poultry raiser's insurance against many losses—a profitmaker in successfully raising the greatest number of future producers.
