

Priceville
(Our Own Correspondent)

Say, folks! Isn't it a grand thing to see the dust flying the first week in April. This must be a record for this hill-top, as we never had such highways or weather before. South Grey would not be such a bad place to live in if we could expect such winter and spring as we have had and are having now. It's hardly fair to expect Priceville to compete with Florida. We hardly seem to know how to fit ourselves to such conditions as there is a heavy form of cold very prevalent all spring.

We are very sorry to hear of little Miss McDermid, daughter of Mr. and Mrs. Harold McDermid, who was admitted to Durham Red Cross Hospital, where she underwent an operation for mastoids. We sincerely hope for her speedy recovery.

We see the road drags have been used extensively on the highways. It would be fine if a few of our other streets could be dragged at this time as it would improve them very considerably.

The Wright Bros. are doing quite a feed business this spring. Corn and mixed feed are being sold in considerable quantities at a very reasonable figure for this year.

Mr. John Jones is busy getting his fox ranch ready. He has secured a piece of land at the rear of the Fisher lot now owned by Mr. Archie McArthur. It is an ideal location and well out of the village proper.

Maple syrup is moving well this spring. We wonder now many are complying with the government regulations? It is something like egg grading, we know very little about it in practice.

We see the late Alex. B. McDonald properties are up for sale. This ought to be a fine chance for some one who wishes to start a business in our village as it is a good central business stand.

The Durham Furniture Co. has a fine stock of logs in the C. P. yard. It doesn't look like hard times here as there must be 100,000 feet of logs—first class stuff, too.

Winner of the "Grand National"
"Sprig" was the winner of the "Grand National" steeplechase this year, ridden by T. Leader. Although his great effort created much surprise in racing circles he was a very popular winner. It was considered that the horse had not much chance of carrying off the honors, but his name was entered by Mrs. Partridge in memory of her son, who was killed in the Great War, whose one ambition was to win this race.

In tea, as in everything else, you get only what you pay for. Tea of good quality is satisfying and economical—poor tea is a costly disappointment. A lot of poor quality, cheap tea is being offered to the public today.

THE RHYMING OPTIMIST

There is no loss, however much you grieve for toil that now seems wasted or misspent; ah! cease your doubting and through faith believe those hours will yield you yet a new content! The blooming tree that fell before the wind, the nest of speckled eggs the tempest wrecked, these bear up proof of any Power unkind, sustain no cruel theory men erect. There is no loss; because you cannot read the finished story of creation's task; you cannot gauge the use or weight the need of any part, nor is it yours to ask. Be sure of this: the toiler reaps some gain with every honest effort which he spends; no force is barren, but each yields, again new strength to further new and greater ends.
