FALL FAIR DATES 1927

For the first time in a good many years The Chronicle publishes below a partial list of the dates of Fall Fairs throughout this section of Ontario, as issued by the Ontario Department of Agriculture.

We have no idea why these dates cannot be issued correctly from the Department, but it is a curious fact that they are not and although the mistakes are not frequent, there are usually enough of them to destroy confidence in the balance of the list.

MIDGETS BEAT HANOVER IN FAST GAME

Outclassed Hanovers on Their Own Grounds Last Thursday Night and Now Have Fairly Secure Hold on District Championship.—Walkerton Plays Here Tonight.

The Durham Midgets got one notch closer to the O. A. L. A. championship last Thursday night when they trimmed the team at Hanover by the score of 6 to 3.

Referee, Ries called the players to business shortly after 7 o'clock and from the start it could be seen that there was to be a contest. It took Durham five minutes to notch the first goal, they got another three minutes afterwards, while another sixty seconds saw the third counter slip in behind the Hanover goalie.

The second session was not quite so good, and for a time it looked as if Hanover was going to tie it up, if not forge ahead in the goal-getting. The home team did all the scoring in this period, getting three of them. The first counter must be called somewhat of a fluke, as it was not a clean-cut shot and it did not have missed the nets had it not struck the goalie's pad.

Durham got two counters in the third part of the game, both being scored after six minutes of play, leaving the score 6-3 with Durham leading. There was no more scoring this period, and while the third and final playing time was put in in the twilight, neither team was fortunate enough to slip one past the opposing goalie. It was too dark to see the ball and this period was the worst of the four.

From the commencement both teams played brilliant lacrosse at times. Following the first session it was felt that possibly the Durham's had shot their bolt in the first fifteen minutes and that the Hanoverians were to have a walk-over for the rest of the game, but the score of the second session, together with the hopefulness of the Hanover team, made the third quarter a very interesting one.

Walkerton Here Tonight

Tonight on the local grounds the Walkerton team is billed to play their return match with our own team. While the general consensus of opinion picks Durham to win, it should be remembered that the Walkertonians have developed wonderfully since these two teams last met and may upset the dope of the experts. Anyway, it will be good game, and because of the short evenings, will have to be called at 6 o'clock sharp.

LOCAL BOWLERS WON

One of the four rinks of Durham Bowlers who took in the tournament at Hanover on Civic Holiday, were successful in winning the first prize in the third event, the prize being a casserole each. The winning rink was composed of Messrs. W. S. Hunter, J. H. Firth, J. H. Hunter and T. Henderson.

The tournament is reported a big success, over forty rinks competing, despite the fact that there were many celebrations and counter attractions on Monday.

The reason you enjoy scandal about others is because the contrast makes you feel virtuous.

DO YOU REMEMBER FROM GLENELG AND PRICEVILLE

When Whit, & Johnston were editors of The Durham Chronicle? When The Durham Standard, in 1857, was edited by the late S. L. M. Luke?

When east of Edge Hill you could scarcely see a span of horses in Glenelg—then all oxen—and now you can hardly see an ox in the whole township?

When at logging bees they thought they could not roll up the logs without a good glass of rye or malt, and sometimes from the effects of the strong stuff some might be thinking they are as strong as Samson.

Probably the first frame barn built in Glenelg (Mr. Vessie's) two miles north of Durham, in 1854, or if anyone is living who were small boys looking at the raising?

When there were six churches or worshippin' places in Priceville, viz., Catholic, Methodist, Baptist, Disciples, Free Church, Old Kirk, both Presbyterian? And now there is only one church and a hall of the old Presbyterian, which holds strong yet.

When the late William Purdy ran a one-horse treading machine 70 or 75 years ago? Twenty-five bushels of wheat threshed was counted as a day's work. The charge was \$7.00 a day, and wheat at 50c a bushel, it would be a good thing for a small boy to find out how much the farmer had to the good.

When there were four grist mills in Glenelg, viz., Durham Kelly's, Hayward's Falls, Pomona, and Purdy's Mills, Traverston? None of these is in operation now as all are wiped out of existence but Traverston Mills are there yet.

When the old pioneers of the township of Proton carried a bar

of flour on their back from some of the old residents of the Durham Road 70 or more years ago. Now their descendants are reaping the benefit of the hard labor of their fathers, and now some of them the most prosperous farmers in the county of Grey.

When the late Archd. McLellan taught in S. S. No. 2, in the year 1863 and had as pupils four school teachers who failed to pass at the examinations. They were Samuel Queen, John and David Allan from Egremont, and William Campbell, then from Dornoch. The first three passed away some time ago, but Mr. Campbell is living yet at half way between 80 and 90 years.

Well now, this is what we remembered this Monday, the 1st of August. It is Civic Holiday but is kept by the farmers as hay day, for all who have hay will be busy today, while others are trying to finish haying.

Quite a number attended the service in Glenelg Centre Baptist church yesterday to hear the Rev. Mr. Farmer of Owen Sound. The Majority of his hearers were farmers of a different class.

We were pleased to have a call from the Rev. Mr. Taylor and Mr. John A. Graham one evening last week, and also Mr. and Mrs. Fred Williams of the Soo, accompanied by Miss Kate McFayden. Mrs. Greenwood and Miss McLean were afternoon visitors, also.

Miss Cameron of Toronto paid a visit to her friends, Mrs. McCannell and Mrs. McPherson of Lambton street.

Miss Ada McLean of Toronto paid a flying visit to her aunts on Lambton street on Civic Holiday.

WOMEN'S INSTITUTE HOLD PICNIC

The Women's Institute Picnic was held on Wednesday at the home of Mrs. E. S. McArthur. After several items of business were disposed of Miss Kerr of Varney gave a very interesting talk on her trip through Western Canada, which was much enjoyed by all.

UNDERWENT OPERATIONS

Thomas Hazzard of Flesherton was admitted to Durham hospital this week and underwent an operation for appendicitis. Two children, also from Flesherton, were admitted at the same time and had their tonsils removed. The patients were accompanied by their physician, Dr. Turnbull, who assisted Dr. Jamieson in the operation.

Did You Ever Stop to Think

Just what a ten dollar bill which a farmer spends in his home town may accomplish? Let us follow it around. Probably the dry goods merchant gets it first. He passes it on to the hardware merchant in payment of an account. The hardware merchant pays it in wages to one of his employees. This employee pays it to his landlady, who pays a grocery bill with it. The grocer can then pay his butcher. The butcher then passes it on to his produce merchant, and this produce merchant, buying largely from the farmer, passes this ten dollars back to the farmer, from whom it originally came. Thus it has, in its ramblings among the home town people, served many useful purposes and yet it is still in the community to again serve.

If Sent Away To Distant Merchants

That ten dollar bill is gone for good. It may serve to build up the large city elsewhere. But so far as the home community is concerned, its usefulness is at an end, and the community has been drained of just that much working capital.

When In Need of Printing

Remember that orders left with your home town printer will serve to pay wages of workmen who in turn spend this money with local business houses, thus serving to maintain that round of business which is necessary in order that rural towns throughout Canada may flourish and prosper.
