A thrifty girl can wear a dress a long time—just take it up at the hem every year. After a man outgrows Santa Claus he still thinks there is some kind of closed car that never will rattle. It isn't that we need so much money but that we need a little so often. A bride weeps at her wedding but with the groom ignorance is bliss.

CALIFORNIA'S GOLD

Mammy Songs and the Mason-Dixie Line have all melted it seems, before the Sun in the orange groves of California. And there's a reason. The praise is going to the worthy. If there are cloudy days in California, one never hears of them, and it is reasonable to suppose that one should if there were. A million people each winter follow the steps of the conquistador of whom, perhaps, they have never heard. They search for gold—the gold of the beach, of the groves, of the sunset over warm pacific waters. And there is a mine there for you; a real mine of health and a wealth of sport and recreation activities for you to exploit at will. B. MacFarlane, Canadian Pacific agent, will gladly supply information regarding fares, routes, etc., upon request. 12 1 2

PLAN NOW FOR PLAY DAYS IN FLORIDA

Get ready for a season in Florida. Have a few weeks' holiday down south—where winter is only the name of a season. Your friends will be there. Your favorite caddy will be ready to follow you around the course; your favorite chair will be waiting for you on the ocean side of the hotel verandah. Florida is famous for its hospital-ity—for its sports and pleasures. There are leagues of clear ocean beach for swimming and sun bathing; miles of tree-bordered roads for motoring; motor-boating, yacht-ing, polo, tennis and golf in abun-dance. Now is the time to plan your winter vacation. Any Agent of the Canadian National Railways will gladly supply you with all the necessary information about Flor-ida—its rates, routes and resorts. 11 24 2 The less conceited men get mar-ried. The others think that all the ladies are pining for them, and get wary.

We congratulate the teacher, Miss Mary Turnbull, on serving hot lunches for the pupils throughout the fall and winter months. This ought to prove beneficial, especial-ly in the colder months. The vary-ing also adds to the lunches. The scholars have already had hot cocoa, potatoes, cabbage, tomato soup, beans, etc., having these al-ternate days.

Guests of Mr. and Mrs. Findlay MacCuaig last week were Mr. Arch, MacCuaig and family, Top Cliff, Mr. and Mrs. R. G. Hopkins, Hutton Hill, and Mr. and Mrs. Fred Cuff of Aberdeen. We were very sorry to hear of Mr. Wilbert Greenwood of Edge Hill being so suddenly stricken with appendicitis. He underwent and operation in Durham hospital last week. We sincerely hope for his speedy recovery. We extend sympathy to Mrs. Ben Coutts in the sudden death of her mother, Mrs. James Atkinson, in Toronto last Saturday. The Y. P. U. held their regular meeting Tuesday evening with a

good attendance. The president, Mrs. John McDonald presided over the devotional part of the meet-ing, after which Mr. Clifford Adlam took the chair. The meeting was opened with the singing of hymn and prayer. The Scripture lesson was read by Elton Adlam after which the minutes of the previous meeting were read and approved. Two very excellent papers, having as a subject were read, the first, "Enlargement" by Miss McDonald, the second, "Speak a Kind Word," by Miss Bessie Adlam. Ford The NEW CAR. ALL THAT engineers have learned, all that millions of owners have experienced in nearly a quarter of a century, have made possible this car which is today as far ahead of its time as was the famous Model T in 1908. Sixteen million automobiles, serving their owners in jungle and desert, on mountain and plain, on boulevard and highway, were the test cars that have made this new automobile possible. Its advent marks a new epoch in auto-motive engineering in point of inbuilt quality—niceties of mechanical design, lavish use of the finer metals, precision in delicate machining processes. Nowhere in its construction has there been slighting of either major essen-tials or minor details. From its out-ermost hub-cap to its innermost bearing, the new Ford car epitomizes engineer-ing skill to a degree unexcelled in the annals of motor car manufacture. This entirely new car surpasses the accepted standards of light car accom-plishment; sweeps aside all boundaries of price class; establishes a new stand-ard of acceleration, speed, power and smoothness that heretofore has marked only expensive cars as fine cars. Yet Ford precision in large scale pro-duction, unparalleled in the history of automotive manufacture, places this car within the reach of every purse. An advance showing of the New Ford Car will be made Friday, December 2nd, in the following cities: HALIFAX, PETERBOROUGH, WINNIPEG, ST. JOHN, TORONTO, REGINA, QUEBEC, HAMILTON, SASKATOON, SHERBROOKE, BRAMPTON, MOOSE JAW, MONTREAL, LONDON, CALGARY, OTTAWA, WINDSOR, EDMONTON, KITCHENER, FORT WILLIAM, VANCOUVER, VICTORIA. As rapidly as increasing production permits these public showings will be extended until all of the 736 Ford dealer points have been covered. If you live in one of the cities listed above, visit the exhibit of this New Car. At other points, see your local dealer next Friday. He will give you complete specifications, prices and an excellent conception of its unusual features. Ford The Real Canadian Car. FORD MOTOR COMPANY OF CANADA, LIMITED, FORD, ONTARIO
