IN OTHER COMMUNITIES

A Mean Act

Recently fire destroyed the Masonic building in Lucknow and when the debris was being cleared away a number of Masons gathered to remove and open the corner stone, which was supposed to contain papers and other things of interest. When the stone was opened, however, the cavity contained only air. It had been broken into and rifled of its contents, nobody knows when, but it may have happened shortly after the building went up about sixty years ago. During all the years the building stood no one had noticed the stone had been tampered with, it seems, although the side which was out had been broken in several pieces and the pieces placed in position again.—Wingham Advance.

Signs of Short Winter

Old-timers in the district are predicting an early spring backing up their prophecies by many signs of nature. Among those noted is the finding of worms on top of the ground instead of burrowing a distance underground, which they usually do at this season of the year, in preparation for the coming frost. This is considered a sure sign of a mild season. In certain orchards, blossoms have been noticed recently on apple trees and dandelions in various gardens, another sign. Others, who are versed in bird lore, claim that birds are migrating to the south later this year and the unwelcome crow is staying longer than usual.—Mildmay Gazette.

Expensive Fun

A young Carrick farmer found that shooting holes in the Provincial road signs is rather an expensive amusement. Patrol Officer Heffron located the offender, and had him fined \$10 for his shooting.—Mildmay Gazette.
