

Holstein
(Our Own Correspondent)

All the ladies of Holstein and the neighborhood are invited to Robby Sim's on Thursday afternoon at 2.30 o'clock, April 19 to have a cup of tea with the Scotch ladies of the Women's Institute.

Our teachers are this week spending their Easter holidays at their respective homes. Miss Mckechnie in Durham, Miss Watson in Tara and Mr. Koch in Stratford.

Mrs. Wm. Brown spent the week-end with relatives in Toronto. She reports Mrs. Andrew Henry suffering from the effects of a slight stroke.

Miss Beatrice Smith visited friends in Mount Forest over the week-end.

Mary and Evelyn Eccles of Mount Forest visited a few days recently with their grandmother, Mrs. Brown, Sr.

Miss Florence West, youngest daughter of Rev. and Mrs. West, Laurel, spent a few days this week with former school chums.

Mr. Kenneth Allan of Toronto and formerly of Allan's Corners is renewing acquaintances in Holstein and vicinity.

Mrs. Hartley Allingham and family of Georgetown is at present visiting with her mother, Mrs. Brown, Sr. Mr. Hartley Allingham is residing at the C. N. R. Station, Durham.

Mr. and Mrs. Fred Watson of Toronto spent the Easter holiday with her parents, Mr. and Mrs. W. H. Rogers.

Kathleen and Thelma Lamont of Mount Forest are this week visiting with friends in the village.

Mr. Albert Abbs visited a few days recently with Mr. and Mrs. George McCall and family.

Mr. Wm. Thorne of the Bank of Montreal, Stratford, spent the week-end with his parents, Mr. and Mrs. E. Thorne.

Miss Jean Ellis of Toronto was the guest of her parents, Dr. and Mrs. W. P. Ellis over the week-end.

Miss Margaret Sibbald of Durham spent the Easter holidays with the Pinkerton family.

Mrs. James Warling and daughter Maude of Toronto are visiting at present with her niece, Mrs. J. W. Brown. Miss Warling sang a solo at the morning service in the Presbyterian church which was much appreciated.

Miss Rose of Toronto spent the week-end at the home of Mr. and Mrs. Chas. Drumm.

Rev. Wood of Toronto preached in the Presbyterian church Sunday and a candidate for the vacancy here and left a very favorable impression.

Messrs. George Bye and Bert Eccles motored to Kitchener on Good Friday to attend the annual meeting of the W. F. A. held in the Assembly Room of the City Hall. Holstein have again entered a team in the Senior-Intermediate series and are looking for a good summer's sport. An item of interest at the meeting in Kitchener was Mr. Appel's of Tavistock motion that substitutes be allowed in football to speed up the game also that penalties be given players as in hockey. This motion will be dealt with at the annual meeting next year.

A very enthusiastic meeting was held in R. J. Arnill's store Tuesday night when a Junior Football Club was organized and a team will be entered in the Junior series of the W.F.A. with the following officers: Honorary President, George T. Calder; Pres., W. B. Rife; Vice Pres., R. J. Arnill; Sec. Treas., Alex. Sim; Captain, John Calder; Manager and Coach, Bert Eccles; Mascot, Lloyd Gibson; Selection Committee, Bert Gibson, Bert Brebner, and the captain. We are pleased to see the boys getting this organization going and wish for them every success.

Born—To Mr. and Mrs. Eric Sharpe on Saturday, April 7th, a son, premature.

Died—Infant son of Mr. and Mrs. Eric Sharpe, age 6 hours, Sunday, April 8th.

Mrs. Christie and daughter Mary of Mount Forest spent the Easter week-end with Mr. A. R. Hershey.

Priceville
(Our Own Correspondent)

Easter Sunday here was marked by a regular winter blizzard and terrific wind. Following almost summer heat which prevailed on Friday and Saturday, it was an unwelcome change.

A number of our young people took advantage of the holiday and spent the week-end at their respective homes here. Misses Nellie MacLean, Esther MacInnis, Marjorie MacLean, Eva and Florence Carson, Doris MacLean and Sadie MacKinnon, of Toronto.

Mrs. Dobson and family are spending the Easter holidays with Mr. Jim McArthur.

Mr. N. R. Shortreed, manager of the Standard Bank, Keswick, spent a week under the parental roof.

Messrs. Murray Nichol and Clifford Hinks of Toronto Normal are spending Easter week at their respective homes.

Alroy MacLean, Helen MacKechnie and Marybell MacArthur of Orangeville Business College are also home for the holiday.

Misses E. MacLean, Melanethon, L. Watson, Beeton, and V. MacMillan near Shelburne are home for the holiday.

Messrs. A. MacInnis and A. MacLean from near Orangeville are home for the holiday.

Miss Jessie Nichol is visiting with her cousin, Rebecca Nichol.

Mr. Peter Johnston spent the week-end at D. L. MacArthur's.

Traverston
(Our Own Correspondent)

Never in the history of the oldest residents were the waters of the Big Sauguen and of the Rocky so high as on Thursday and Friday of last week. Sweeping, swirling, slashing with a mighty roar they rushed lakeward to restore the levels,

made by Chicago's steal. Little Glenna Young has been very ill of late with pneumo-pneumonia, both doctor and nurse in attendance.

Mr. T. Ivan Edwards of Shelburne spent a couple of days at the first of the week at the parental home.

Miss Edwards, teacher at Townsend's Lake spent the holiday week at the old home in Toronto.

The Council fathers have a heavy task ahead of them. Two bridges are destroyed and the roads everywhere are badly washed out.

While riding the log carrier in the sawmill here on Monday afternoon, Eva, daughter of Mr. George Street, had her leg broken and the flesh badly lacerated.

Rocky Sauguen
(Our Own Correspondent)

Mr. and Mrs. Lance Rumble and Mr. Alex. and Jack Lawson of Toronto, spent a few days with their parents, Mr. and Mrs. Robert Lawson.

Mr. Thomas Turnbull is in Toronto attending the convention this week.

Miss Carrie Mitchell spent a few days with her sister, Mrs. Neil McLean.

Mr. and Mrs. Thomas Bell of Berkeley attended the funeral of Mr. Archie McDonald.

Miss Agnes McPhail spent a day with Mr. and Mrs. Robert Lawson, recently.

Misses Isabelle and Mary McQuarrie and brother Peter spent Sunday with their aunt, Mrs. Lauchie McLean.

Mr. Cecil McFadden of Stratford spent a few days with his friend Mr. Campbell McLean.

Hutton Hill
(Our Own Correspondent)

With the snow almost completely gone, we are having some lovely spring weather with the exception of a few cold days the first of the week.

Mr. and Mrs. Wm. Noble spent a time with their son, George, north of town.

Mr. Wm. Grierson of Toronto spent a few days at Easter with her mother, Mrs. McKill Grierson and brother Mac.

Mrs. Annie McCormick, teacher near Blenheim is spending part of her vacation with her sister, Mrs. Thos. Milligan.

Mr. Allie Hopkins is assisting Mr. Carson at Knox for a time.

Mr. Edmund Noble with a few other hands and a couple of teams are repairing the washouts in the road caused by the flood and making the road up this way passable.

Mr. Alvin Caswell of north Aberdeen with his sawing outfit saved up the piles of poles for some of the neighbors here last week.

Miss Sybil Lawrence, teacher near Dornoch, is spending her vacation with her parents, Mr. and Mrs. Chas. Lawrence.

Hymeneal
HENDERSON—SMITH

A very quiet but pretty marriage was held at the Presbyterian Manse, Holstein, on Saturday, March 31, at seven a.m. when Mr. Murray A., eldest son of Mr. and Mrs. Alex. Henderson and Miss Margaret Ruth, eldest daughter of Mr. and Mrs. James A. Smith, were united in the holy bonds of matrimony. The bride looked charming in a gown of peach georgette crepe trimmed with rhinestones over peach satin. Her travelling costume was of Peking blue crepe back satin. Her coat was light fawn, trimmed with hat and shoes to match. They left on the 7.30 train to Alma. On Friday they returned to the home of the bride where a reception was held in their honor. They were the recipients of many beautiful and useful gifts. The first part of the evening was spent in games in which old and young took part. This was followed by a short programme, the young couple having a prominent place. Rev. Johnston addressed the newly weds giving them advice both of a serious and humorous nature. Murray in his reply made a neat, little speech thanking all for the kindness shown them and extending an invitation to visit them in their new home.

After lunch was served, the younger people enjoyed a few hours doing the light fantastic. The young couple returned to their home at Alma where they

Featuring Milton Sills

COST OF RAISING PIGS TO WEANING AGE
(Experimental Farms Note.)

The production of pork forms one of the most important lines of animal industry in the farms of Canada, as is shown by the fact that in 1926 there were 4,470,771 pigs in Canada. While the raising of hogs is thus receiving considerable attention at the present time, there are many farmers who do not appreciate the importance of this branch of animal production. Pigs are economical producers of meat when fed skim-milk, whey, garbage, grain and other products and by-products of the farm. In fact they are inseparable from the most successful operation of dairy farms except where the whole milk is sold.

The keeping of hogs is always associated with a well-balanced and progressive agriculture.

For the economical and successful raising of pigs, the value of good sows as to type and prolificacy cannot be over-emphasized. Careful feeding and proper care are also very important in the best results are to be obtained.

At the Dominion Experimental Station, Kapuskasing, Ontario, where a number of pure-bred Yorkshire sows of good type are kept, the breeding records as well as the total amount of feed consumed during each of the following periods are recorded: (1) from weaning to farrowing; (2) from farrowing until the pigs are weaned. During the four years, 1924 to 1927 inclusive, six hundred and thirty-five pigs were raised to weaning age. These represented seventy-nine litters, an average of eight pigs per litter. Over a period of 193 days, the average number of days from weaning to farrowing, each sow consumed an average of 1539 pounds of grain. This, plus a small charge for pasture, cost \$25.55. From farrowing until the pigs are weaned, a period of 58 days, the sows consumed an average of 696 pounds of grain plus some skim-milk, which cost \$14.72 per sow. When \$2.00 is added for the service fee, it is found that the service and the feed cost of the sow and her litter is \$40.27 from the time the last litter was weaned until the next litter is ready to wean. Therefore the average cost of the pigs at that age is \$5.03 each.

The number of litters farrowed per sow each year, as well as the number of pigs in each litter, are two factors which greatly influence the cost. It is also true that every time a nursing sow loses a young pig the cost of the others is relatively increased.

FORD OWNERS!

Have your valves ground, ignition overhauled, carbon cleaned, this spring. Only \$3.00 labor. 3 29 1 SMITH BROS.

Nize Baby

"I want some powder."
"Mennen's?"
"No, vimmins."
"Scented?"
"No, I'll take it mit me."

will take up farming after spending a few days with relatives and friends.

We join in wishing them assured success and happiness.

ACCIDENTS AND COMPENSATION

The Hollinger disaster is beginning to show in compensation figures and the total benefits awarded by the Workmen's Compensation Board in March were higher than any one month since the commencement of the Act in Ontario. Last month the Board awarded \$764,263.57 which included \$108,025.06 for medical aid. The accidents reported numbered in March 5,711, an increase over February when 5,570 were reported. Fatalities in March, however, were considerably below the average, there having been 26 death cases reported. The total number of accidents reported in the first quarter of 1928 was 16,337, an increase of only 216 over last year, which would be more than offset by increased employment.

Some authorities claim that accidents run in cycles and, in this connection, R. B. Morley, General Manager, Industrial Accident Prevention Associations, tells of a recent epidemic of accidents to workers who were seriously injured by wagons or trucks. One driver of a Toronto firm was severely crushed while at back of his own car. Another in Brantford suffered a leg injury when caught between loaded truck and tractor. A third case brought death to a worker in Hamilton when a large truck making deliveries backed into a worker injuring him so severely that he died the following day. This type and thousands of other accidents are being reported to the Workmen's Compensation Board every month in the year and it seems to be true, as Mr. Morley says, that "it takes less time to prevent an accident than to report one."

If a woman's face is her fortune some girls ought to be arrested for counterfeiting.

George McIvor is only 33 years old, but as general manager of the Canadian Co-operative Wheat Producers Ltd. sales department, at Winnipeg, he is said to control the shipment of half of the Canadian wheat crop until it reaches the buyers in all parts of the world. He started out as a telegraph messenger.

Darkies' Corners
(Our Own Correspondent)

Mrs. Thos. Watson and two children of Galt were visitors Good Friday with the former's brother, Mr. John McGirr.

Misses Ethel and Mima Hargrave, Toronto, spent the Easter holidays at their home here. Miss Mima returned on Monday.

Mr. David Hamilton spent the holiday with his daughter, Mrs. Murray Ritchie.

Mr. and Mrs. George Collinson and family have moved to the Kennedy place, which they purchased recently.

Miss Aleda Staples is visiting with her sister, Mrs. Clark Watson, this week.

Miss Annie Arnett, student at Orangeville Business college, visited over the holiday with her parents, Mr. and Mrs. Wes. Arnett.

Miss Donalds Nihool spent the holidays at her home near Priceville.

DRY ICE TO REDUCE PRICE

By the use of "dry ice" or solidified carbon dioxide, the price of ice cream will be reduced considerably within the next few years, according to Fred Rasmussen, of Harrisburg, executive secretary of the International Ice Cream Manufacturers' Association, during the annual convention of that association recently.

Fifty pounds of the "dry ice" will supply the needs of an ice cream delivery truck for nearly a day, he declared, and use of the substitute will spread rapidly when it is made in quantity. It is now being used in transporting ice cream by truck from Philadelphia to Atlantic City.

SAUGEN RIVER BROKE ALL RECORD

This Spring's Flood Highest River's Known History, With Smallest Damage Reported. Stream Almost Back to Normal Now.

For some days locally it was thought we were going to be with out the annual spring flood on the Sauguen, so nicely had the ice and snow disappeared, but the war weather of the preceding few days brought the river to the high peak in its history about 4 o'clock last Sunday morning. The year 1912 was the highest ever recorded when the waters rose to six inches higher than the concrete fire engine stand behind the Calder Block, but on Saturday evening the measured height was ten inches, four inches higher than any previously recorded. As the peak was reached at 4 o'clock Sunday morning, according to those who were watching the dams in town, it water above the fire stand rose even higher, though no measurement was taken.

Fortunately, no serious damage was done, and with the exception the taking away of the McN Bridge on the second concession, Glenig, and some fences carried down stream, we have heard of a big losses. The absence of ice at the weather turning colder on Sunday no doubt helped to keep down the losses.

The annual "going out" of the Mckechnie dam was frequently predicted, but as usual this structure withstood the floods, the loss being one of the upper planks which had to be sawed off to let some logs through. Out at the Darkies' Corners the waters rose until they were running across roads, some of the hydro poles that were inundated took on a dangerous lean, but there was no damage experienced in this quarter.

County Bridge in Danger

At Hanover the County bridge was reported in danger and would have been damaged had it not been for the fact that the water was unusually low. Local C. P. R., and C. N. R. section gangs had a busy time of clearing the bridges of floating logs and timber but managed to keep everything clear. For the biggest flood in recorded history it was the most lucky one, but with the cold weather and a lowering stream water all danger is now thought to be past.

Flooded cellars in the vicinity of the river are the worst casualty reported in town, but as this is an annual affair the residents in the vicinity of the stream are becoming used to it and their only work during the spring freshet is "the high".

Close Call at Rocky Dam

The dam of the Durham Furniture Company on the Rocky Sauguen, three miles north of town, had a close call from getting washed out, and a couple of inches more water would have spelled disaster. As it was, the river rose over banks and a thin stream of water commenced to trickle over the dam on the north end. It was taken care of but had the river continued rising would in all probability washed out this side of the dam and beside the cost of repairing the factory here would have been closed down for some time.

FRILL AND FURBELOW DECREE FOR MILAN

Paris and New York Give Definition in New Mode to Ling Neckwear.

Fashion once more has put seal on frills and furbelows, we betide the reckless woman who lets her heart overrule her head and too many ruffles ruin the rhythm of her silhouette. Paris and New York have given a definite place in the new mode to the garish neckwear, the collar-and-sets, linen and pique, vestes, waistcoats and eyelet embroidered sleeveless blouses.

Interesting arrivals in the realm of neckwear are the many sets vests which are made with collars and cuffs, without collars and with collars. These are made of an impalpable material and guaranteed to retain their original crispness at all times. The designs are mostly of simple flowers, although there are occasional ones done in the modern manner with exceedingly effective results. These vests, too, follow the trend toward elaboration in the of fine frills, contrasting piping, buttons and contrasting pique. Some of the vests are made of backs and elastic at the sides to sure good fitting. Others have escape sleeves, while there are set models made in front set only and attached at the bottom. The colors in these are limited to white and the pastel shades. Waistcoats exploit heavier materials, including broadcloth, linen, crash and pique in silk, cotton. These are shown exclusively in small printed effects, plain white waistcoats receive very little attention this season. There are a few models of the however, shown with sleeves in blouse style, but made of silk pique. On the whole, the trend seems to be toward printed waistcoats.
