A SUCCESSFUL TEACHER

The following letter of congratulation was received by Miss Elizabeth Murdock, a former resident here, from the school board of No. 5, Normandy:

"We are pleased to congratulate Miss Elizabeth P. Murdock of Durham, teacher of S. S. No. 5, Normandy, on the success of her pupil, Edmer Feick, in passing his entrance examination. Edmer is 12 years of age. He covered three years' work during the past year with his present teacher, as he was in the Junior Third class last year. Miss Murdock's success is attributed to her ability and thoroughness of her work and untiring labor. Signed by the parents: Geo. L. Feick, secretary of the School Board, and Mrs. Feick."

A teacher was trying to develop the word 'sleigh'. "Now, Jamie," she said, "What is it that comes along on runners?"

"Rum," answered the five-year-old New Yorker sapiently.

DURHAM'S TAX RATE 52 MILLS FOR 1928

Four Mills Higher Than Last Year, and Rise Caused by Increased Estimates For School Purposes.—Agricultural Society Refused Grant.

The monthly meeting of the Town Council on Monday night was not a lengthy one, and very little business was done with the exception of passing finally the Red Cross Hospital bylaw, carried last month by the ratepayers, and the necessary bylaws to strike the rates. The rate this year will be 52 mills on the dollar, four mills more than last year and made up as follows:

Public School34.4mills
High School 9.0mills
Bylaws 3.9mills
County Rate 6.6mills
Public Library 1.3mills
General Rate14.8mills

Postmaster Smith appeared before the Council asking that some means be taken to keep the driveway into the new post office open, especially on Wednesday and Saturday nights. The Council recognized the fairness of his claim, as it is by this driveway that the mail must come in and with parked cars in front of it there was no other way of unloading the night mail without a lot of trouble. Council are to erect a no parking sign at this place and Constable Allen was given authority to see that the driveway was kept open. During the discussion the Council attributed the inconvenience to the thoughtlessness of car owners who have not yet become accustomed to the fact that the incoming mail must be unloaded at the rear of the building and not dragged in through the front entrance as in the old post office.

Should Erect Signs

A letter was received from G. L. Parsons of Goderich, written to the president of the Ontario Motor League and pointing out the advantages of having the roads up in this country properly signboarded. Amongst others he referred to the road running east out of Durham and on to Collingwood. At the Darkies' Corners the writer thought some adequate sign should be erected. This has been something that has been discussed often here locally, and at one time signboards were erected by local motorists but from the tone of Mr. Parsons' letter must have been torn down. Other points on the Blue Water highway were spoken of so this section is not the only one complained of.

Refused Grant of \$100.

Messrs. George Ritchie and James Mather, president and secretary respectively, of the South Grey Agricultural Society, appeared before the Council asking for a grant of \$100 for the society this year. They put up a good argument, telling of the vanishing finances of the society owing to several wet fair days, but their appeal was of no avail, the Council not deeming the present an appropriate time for such expenditure.

Mayor Murdock voiced himself in favor of the grant, though not at present, and thought that possibly the society was entitled to some assistance from the town, as the grounds had been used for a good many years for the holding of town sports and celebrations without recompense to the society. Reeve Bell opposed the grant, which he said he did not like to do, as he was a member of the agricultural board and knew their financial condition. This year, however, the Council had guaranteed \$100 for the Grey County School Fair, and while he hoped it would not be necessary to pay this he considered that the town's finances would not stand any further grants to this or any other society. Councillors Henderson and Noble were of the same opinion that the grant should not be allowed, and here the matter ended.

Council to Investigate

Mayor Murdock brought the attention of the Council to the condition of the creek at the corner of Albert and Sadder streets, where it is alleged to be flooding the property of Miss T. Ross, who had made numerous complaints. The Mayor said that he was placing the complaint before the Council for their disposal.

There was little doubt in the mind of the Council that the establishment of a sawmill midway between Albert and Eagle streets was the whole cause of the trouble. Previous to the sawmill being erected the stream had taken a different course but this water being turned down along the fence. With the accumulation of sawdust in the past few years the stream had been giving considerable trouble and there had been numerous complaints.

The Council felt that there was nothing in the drainage system at this point that would block the water and turn it back to the Rose property, and Reeve Bell expressed the opinion that the matter of settlement lay between Miss Ross and R. Smith, the owner of the sawmill.

The passing of accounts to the amount of \$581.74, a resolution to have the big lamp on the square
