Mr. and Mrs. Robert Mead returned to their home at Unity, Saskatchewan, after a two months' visit with their son Earl. The trip worked wonderful improvement in Mrs. Mead's health. Miss Ella Wilson was home from Toronto for a week's visit, accompanied by some friends. They returned to Toronto on Monday. Mr. Wilford Barbour left Sunday to motor to his school at Cache Bay. Mr. and Mrs. Farr Lawrence visited Chesley friends last Sunday. The threshing machines are once more starting out. Grain is turning out very good, although in most cases not so plump or heavy as a year ago. Sunday next should be an important day at St. Paul's church, as the Crusaders who are touring the country in the interests of the Anglican church are to take the service at two o'clock instead of the usual hour of three, and as they are reported to have marked abilities, we expect it will be something special, which all who can should attend and enjoy.

We hope to hear of her speedy recovery. Mr. and Mrs. W. Kerr of Grand Rapids, Mich., are visiting his brother, John Kerr, and other relatives

before returning to their home. Mr. Art McCabe is home to spend a while with his parents here. Monday last Mr. Robert Eden had his little dog run over by a car crushing his head flat. He was a real pet and could do many playful tricks. It is too bad that car drivers are not more careful while driving, and more cautious. Friday last a bad accident occurred one mile south of Varney at Barber's corners. When Miss Hunter was crossing the road another party speeding along crashed into her car putting his own car in the ditch, when it was badly broken. In time of famine they just get scared to death in about two weeks. Alas! Few of the big jobs are held by men who were pointed out as good examples when young. A woman killed her husband with a can opener. But what's news about that?—Quebec Chronicle-Telegraph.

Blueberry Pie Model It is stated, says the Humorist, London, that old films are used to make varnish for motor-cars. A very comic two-seater we saw the other day had probably been treated with a little early Charlie Chaplin. Read The Chronicle ads on page 7.

TH VOL. 61.—NO. 3196 SMITH BROS. LIKELY TO REBUILD AT O Nothing Definite Has Yet Been Ed, But Altogether Likely M Garage Will Take Place of One troyed by Fire Last Week There has been no positive nouncement from the firm but the eral consensus of opinion is that Ford Garage, owned by Smith, and which was destroyed by fire Tuesday afternoon, will be replaced by a more modern building, and along lines that will make for convenience to the firm and public. The Chronicle interviewed the last Monday morning but could gain any information as to the contemplated, though no denial made to our inquiry as to whether the building would be replaced. The firm was non-committal in way. From what we learned, however, would deduce that it is the intention of the firm to rebuild, and as the cleaning up the debris from week's disastrous fire has already commenced, it would appear that it is being paved for some move. Will Be Modern Building Smith Bros. did say, though should they decide to rebuild, the would be commenced this fall that a thoroughly modern would be erected to replace the structure, which, while it suits purpose, could not be considered satisfactory building for which used. The contemplated new building would judge would be around in width and extend back to a of possibly 100 feet. It would probably be a one-storey affair will face on both Garafraza and der streets, the showroom being ed on the former street. One iment will be the placing of pumps on their own property, a erection of a modern gas service. The main building will constructed that the office will close to the service station and dition to the selling of gas it is gether likely that a modern station the oiling of machines without necessity of going into the back will be placed in the front of the mises. Now Razing Walls The new building will altogether heated by a steam boiler in the ment, the heat being conveyed, different parts of the building by ators. In any event, the Smith have assured us that, they decide to rebuild, they will a garage second to none in the vince, but in the absence of plan the estimated cost of a new str they have not definitely decided what their next move will be. In the meantime, the offices c company are located in the Mid House block where business as us being carried on, the only diff being that so far it has not been sible to open the repair end of business although a move is no foot to secure temporary premises service to their customers.
