Taken From Our Exchanges About People of Your Acquaintance

**Dundalk Business College Moved**  
Dundalk Business College has been having such continued success, that the management found it necessary to move to larger premises in order to accommodate the classes registered for the winter term.  
The new school is situated over Campbell's Drug Store. The total floor space occupied by the school is 900 square feet. The ventilating and lighting systems are ideal.—Dundalk Herald.

**Teeswater Wins League Honors**  
Teeswater defeated Paisley at Kincardine on Tuesday in final game by a score of 3 to 2. Leo Oberle, of Formosa, who hurled for Teeswater, was directly responsible for the victory. He was accorded bad infield support in the first three innings, but stuck bravely to his job and actually deserved a shut-out. With the score tied at 2 all in the seventh, Leo came to bat and poled out a homer, winning the game. We congratulate our neighbors in winning in the Bruce League.—Mildmay Gazette.

**Fined \$100 and Costs**  
Alvin Racher, of Hanover, was fined \$100 and costs of \$8.75 in police court here last Saturday, when he pleaded guilty to a charge of violating the L. C. A. The police found beer in the car of Gladstone McIntyre, between here and Hanover some time ago. It belonged to Racher, who was in the auto. The charge against McIntyre was withdrawn. The beer had been purchased at the local warehouse, but opened enroute to Hanover, which is contrary to law.—Walkerton Telescope.

**Won Provincial Honors**  
In a recent sport fishermen's contest of province-wide area, held in Hamilton and reported in the Toronto Star, R. Verne Russell, of Hamilton, formerly of Dundalk, won first place in fly rod accuracy and also in fly rod distance. He defeated T. W. Jull, of Toronto Anglers' Association and known as one of the finest fly casters in the Dominion. Verne got most of his fly casting experience over on the Mad River, near Badjers.—Dundalk Herald. Mr. Russell was a former principal of Grand Valley Continuation and Public Schools.—Grand Valley Star and Vidette.

**Organized W. C. T. U.**  
Miss C. R. Duff, Provincial Field Worker for the W. C. T. U., spoke to the pupils of the public school on Wednesday last, and for almost an hour held their attention; their interest never flagged. Miss Duff spoke along the lines of Mr. Ferguson's schoolbook on Temperance. One fact was brought to light, viz., that small boys are learning to smoke cigarettes, though the law states that they may not be sold to boys under eighteen.  
Miss Duff spoke in the United church on Sabbath last on Temperance, an address that was well worth listening to, and full information. Two things that struck us as being rather unique, was the fact that she did not mention politics, nor any member of parliament, the other was that she did

not ask nor receive a collection. After the service a Women's Christian Temperance Union was formed, with Mrs. H. Down as President, and Miss MacMillan as Vice.—Flesherton Advance.

**Prolific Potatoes**  
That it pays to experiment is shown in the results obtained by Mr. C. R. Londry, Townline North, in the growing of potatoes. Last Spring he received from the Department of Agriculture twenty-four potatoes of the Green Mountain variety which were equally divided into southern and northern classes. Each class when cut up, was sufficient to plant 66 hills. After Mother Nature had done her work through the summer months, the package of potatoes that arrived here by mail, had increased to a total weight of 325 pounds, the southern class gaining a little advantage. Twelve Dooley potatoes were also planted into 56 hills, but these favored as well as the Green Mountain production de luxe.—Thornbury Herald.

**New School Opened**  
Monday was a red letter day for the pupils and teachers of the Mildmay Separate School section. The magnificent new school was ready for occupation that day, and all enjoyed the novelty of their new surroundings. The new school is a four-roomed building, three of which are now in use. It is equipped with steam heating, drinking fountains, electric lights and modern lavatory system. The school rooms are bright and cheerful, splendidly ventilated and are equipped with new and very comfortable seats. We understand that at some early date a formal opening of the new school will be arranged. Mildmay residents are justly proud of this fine new school building.—Mildmay Gazette.

**Yankee Drivers More Reckless?**  
It has been remarked frequently this season that American drivers of motor cars in this district have shown a reckless spirit while using the highways, and careful drivers were becoming nervous for fear of meeting them. Recently the Ontario Safety League has issued statistics gathered by them and they show that a high percentage of American cars are responsible for accidents. Of 60 accidents probed 6 were fatal and 108 persons injured. Of these cars only six had Ontario plates and the other 54 had American licenses. This is rather too large a percentage, and some means should be taken to warn Americans at the border that careful driving would be appreciated in Canada.—Walkerton Telescope.

**Accident at Elevator**  
Suddenly toppling from its support the arm of the derrick which holds the hoists was thrown into the harbour Monday afternoon, carrying some of the workmen to an icy dip in the water. The derrick was being used in building the trestle to the site of the new elevator and everything was progressing smoothly when the accident occurred. Those who were thrown into the water wore hip boots and experienced great difficulty in swimming to the nearby raft. One workman named Wright was less fortunate. He

### World News Seen At A Glance

Daily Events as Told by Cable Condensed for Busy Chronicle Readers

Captain George H. Wilkins and three other members of his south polar expedition sailed Saturday from Rio Janeiro for Montevideo on the steamship Southern Cross. His companions were Pilots Carl Ben Elison and Joseph Crossan and Mechanic Orval Porter.

Ty Cobb Monday confirmed reports that he will make a tour of Japan this year with a team of major league players for exhibition games against Japanese teams.

Following an illness of several weeks from heart trouble, Anson Spotton, county judge of Wellington, died at his home in Guelph Saturday night. Judge Spotton was in his fifty-ninth year and had occupied his position since 1914.

A typhoid carrier, who was directed years ago never to engage in employment in which he handled food to be consumed by others, has been isolated as the cause of a typhoid outbreak in Greenwich Village, N.Y., during which two persons died and a score of others were made ill.

Mrs. H. A. Anderson, who lives near Picton, Ont., had her hair entangled in machinery shafting in her husband's dairy on Monday, and patches of her scalp were literally torn off. She will recover.

Fireman Blake of the Adelphi theatre, London, picked up a \$50 note which had been dropped in the theatre, and handed it to the owner, who gave the fireman £25.

Viscount Lascelles and his wife, Princess Mary, received a mixed greeting when they arrived in Dublin early Saturday. Some persons booed them as they drove to the vice-regal lodge for breakfast. At the quay, however, a crowd of 500 persons, mostly women, awaited them, and some who carried Union Jacks waved them loyally. The princess and her husband will go to Portlanna Castle, County Galway, which was damaged Thursday by a fire believed to be of incendiary origin.

Two hunting accidents, one of them fatal, occurred in Montreal district over the week-end. Casare Balderelli, 20, of Delson, Quebec, died when a gun he was using discharged its bullet into his body. Marie Mantel, 25, was wounded in the abdomen when her shotgun accidentally discharged.

Three passengers were killed and eight injured recently, when a bomb shattered a car of a train en route to Bombay. A newspaper correspondent reported that it was believed the bomb was being taken to Bombay by Anarchists to await the arrival of the royal commission on Indian reforms, headed by Sir John Simon. The commissioner is due at Bombay shortly.

Captain Hermann Koehl of transatlantic flying fame as a member of the crew of the aeroplane Bremen, narrowly escaped injury Monday in an automobile accident at Weissensturm, Germany. He is now on a lecture tour in the Rhineland, and his automobile, a gift from American admirers, was badly damaged.

Preparations for the execution of William Edward Hickman, slayer of Senator Parker, are proceeding at San Quentin prison, Calif., on the theory that the youth will go to the gallows October 19, when informed by the United Press that the United States supreme court had declined to review the case.

Harry E. ("Dad") Vail, coach of the University of Wisconsin rowing crew since 1911, and former national champion as a sculler, died Monday at Gagetown, N. B., according to word received today by university authorities.

The report of Murray A. Lang, New York diamond merchant, that he had been kidnapped on a downtown street in San Francisco, Calif., carried away in an automobile, robbed of \$200,000 in gems and then left tied to a tree in a park, mystified the San Francisco police. Lang said that the jewels were insured for about \$150,000.

Twenty-four hours before he died, Thomas Madigan, former sheriff of Hudson county, N. J., summoned his fiancée, Miss Emma Clifton, and was married to her that she might obtain his fortune.

was struck on the back and shoulder by a large beam and painfully, though not seriously injured. The victim was rescued from the water by fellow employees, being unable to swim on account of his injuries. Wright was immediately rushed to a doctor and after receiving first aid was taken to his home. The others after a change of clothing were soon back on the job, none the worse for their autumn bath.—Collingwood Enterprise.

**Objected to Girl's Lack of Clothes**  
The principal of the Kitchener Collegiate, who sent a girl home to put on more clothes, saying she was not decently dressed, the other day, went a little too far in our opinion. What if the girl in question went to school wearing a low-neck, no sleeve dress? Most people will agree that it was a foolish thing to do, but the principal of any school has no business trying to tell a student how she should dress. Any man who undertakes to regulate the fashion has a gigantic task on hand. And every man should know that the more you cross the women about wearing apparel, the more popular that fad becomes.—Kincardine Review-Reporter.

Sixteen-year-old Prince Bertil, grandson of King Gustave III, and son of Crown Prince Gustavus Adolfus, who was fined 500 crowns (approximately \$135) for driving an automobile without a license in Filipstad, Sweden. The court action was the aftermath of a tragic accident when the borrowed car which Prince Bertil was driving, skidded from the road and overturned near Kristinchamm, resulting in the death of Karl Edward Thermanius, one of four college chums with whom the prince was riding.

A young Italian, whose name is being withheld by the police, had a narrow escape from death at Hamilton, Ont., on Saturday when several men in a touring car opened fire at him as he walked along the sidewalk. There were no eyewitnesses and the man refuses to give any information. A revolver containing four empty shells was found a short distance from the spot where the shooting occurred. It is stated that eight shots were fired in all.

Magistrate Vance in Juvenile Court, Hamilton, Saturday, ordered five lads convicted of stealing pears from Matthew Burton, Ancaster, to work after school hours for three days next week. Burton will have the boys gather potatoes. The farmer said his crop disappeared and he learned that the accused boys sold pears at 15 cents a basket. Magistrate Vance said that to steal fruit to sell is more serious than taking a supply to eat, but added that the latter course is not lawful.

A daring crime which so far has baffled the police was perpetrated during the night at the fair grounds, Caledonia, Ont., October 7, when the first-prize pajamas disappeared in the main building. The pair which had been awarded the red ticket were entered by the Women's Institute of Mount Hope, and because of keen rivalry on the part of Caledonia for the honors in this particular class, more than intrinsic value was attached to them.

Canon Ellis Gowing, the sporting rector of Southend, Eng., analyzing the bad language habit says: "Largely the reason why men swear is their limited vocabulary. Instead of saying a thing is a tremendously big job they say it is a 'damn big job'. There is no sense in educated people swearing."

The locomotive which later was to have picked up the two special cars of Senator Joe Robinson, Democratic Vice-Presidential nominee, to draw them from Amarillo, Texas, to Clovis, N.M., was reported to have exploded this afternoon thirty miles east of Amarillo, where Mr. Robinson was at the time, killing the engineer and derailing the baggage cars.

A majority of New Bedford Craft Unions Saturday voted to end the 25-week strike by accepting a compromise of five per cent. wage cut and stipulation of 30 days notice before a general wage cut.

Sitting at her radio Saturday evening, Mrs. Joseph Ovide Legault, 63, of Montreal, was electrocuted when she tried to extinguish the light of a desk lamp beside the radio in the dining room of her home. It is thought that the lamp, which was defective, was fed by an exposed wire and that the ear phone wires of the radio came into contact with the exposed light wire.

Nine persons were killed and 19 seriously injured when a train struck a motor bus filled with tourists near Kaschau, Czecho-Slovakia.

Eugene Wesler, 16-year-old student at Northwestern High School, Detroit, attempted suicide this week because his sister, Mrs. Ruby James, 9066 North Martindale avenue, refused to loan him her automobile to take a girl friend to a football game. The boy is in Providence Hospital with a bullet lodged a few inches below his heart. Physicians pronounce his condition serious.

Word of a brutal murder near Coehill, Ont., caused consternation in Belleville police circles Saturday. Two provincial officers, fully armed, were ready to start for the scene of the crime when belated particulars arrived. It was a dog that had been shot and killed.

**Mistaken Identity**  
At a revival meeting converts were coming forward by the dozen. A negro came striding down the aisle and dropped to his knees. He was barefooted, and two enormous feet stuck up behind him.  
In a moment the revivalist started up the aisle, kneeling here and there beside the converts. The near-sighted old man peered earnestly at the Negro, patted him on the shoulder and murmured: "Bless you, brother." Then kneeling behind him and putting a hand on each heel he said: "And bless these two dear little boys."

### WIARTON MAN IS NEW APPOINTEE

Dr. Hamill to be First Medical Practitioner in the Tobermory District.—Ontario W. I. to Subsidize Work For First Year at Least.

The Ontario Women's Institute announces that Dr. Hamill, a native of Wiarton, has been appointed the first doctor at Tobermory. In the past there has been no doctor within a radius of 45 miles of Tobermory and for some time the Women's Institutes of the Province have been interested in securing a competent practitioner for the district.

The committee in charge of the appointment included Mrs. J. W. Stone, of Bond Head, the provincial president; Mrs. S. Banks, Shelburne, the convener of the committee; Mrs. G. Edwards, of Komoka, and Mrs. C. Macoun, of Campbellford, with Dr. J. W. Crane, of London, as adviser. The appointment has just been ratified.

Dr. Hamill has had a long experience in his profession in the Northern lumber camps, after which he had a wide institutional experience and a short residence in Quebec province. He is the son of the postmaster at Wiarton and is well known in the district in which he will be working.

The Women's Institute is subsidizing Dr. Hamill's work for a year at least and are now receiving the congratulations of the residents of the Tobermory district on their acumen.  
It is understood that Dr. Hamill will be in London for the annual convention of the Western Ontario Women's Institutes, when all the members will be given the opportunity to meet him.

### LET THE SUN INTO THE BUILDINGS

Light and air are important factors in farm buildings where live stock are housed. There is no disinfectant more powerful than sunshine. It is a pity, therefore, in this enlightened age, to see buildings with the sun almost excluded. Dirt and disease germs lurk where darkness conceals their presence. To throw open the door of a stuffy stable on a sharp morning is a

revelation, for the place verily reeks of hot noxious fumes. Horses stabled in badly-ventilated stalls that are not kept too clean frequently suffer from eye trouble as well as being liable to colds and other maladies. No working horse can pull his full weight in the yoke and live his full life of usefulness unless he is kept in healthy sanitary conditions. Good housing is as important as good food, for unless stock are kept healthy unthriftiness and loss are inevitable.

It will pay you to advertise in The Chronicle.

**At Home**  
Come in & Chat With  
—Ruth Rae

Dear Ruth Raeburn,  
I would like to entertain a group of young people on Halloween and would be grateful for suggestions for entertainment.

Dear Fanny:  
The success of your party will depend on your enthusiasm and your ability to keep things going every minute. Do this do for your invitation: piece of yellow paper twenty long and four inches wide and inch wide one of the lines begin at the bottom and end paper up inch by inch. Fasten turn down with a spooly sticker, slip the invitation little envelope, put another at the upper left-hand corner, a the right, address and mail there is no doubt this sort of invitation will mean great anticipation the part of your guests.  
Invitation:  
Now what on earth do you do in this little folder?  
Is just keep right on and you are you're a minute order.  
A few more turns and they know  
Oh! Gee! Aren't you excited? We entertain on Halloween! And this means you're invited. Please come disguised in some. Your head gear we'll supply. Just watch your step, don't boogies molest your fine attire.  
Name \_\_\_\_\_  
Date \_\_\_\_\_  
Place \_\_\_\_\_  
As each guest arrives he a yellow sack with instructions over his head, first punching for eyes, nose and mouth, and any facial expression he may with charcoal or black ink supplied for the purpose.  
Have the house dimly lighted candles instead of electricity in the living-room door have a built and each guest may have choice of climbing over it or under. The hostess and assistants be dressed as witches and disguised in same way as guests. Guests are instructed to start hands with the left hand in the right, calling all whom they size by name and recording guesses by an X on the "X" victim. The person least successful in concealing his identity is later by being compelled to some ludicrous stunt.  
Known only to the hostess or five un-luck spots in the room a whistle-blast the hand-shake required to stop where they still grasping the hand they had shaking, and the couple caught first unlucky spot are required or arrange a tableau. If it is near the piano, the performers be required to sing or arrange leau. If it should be near a register, the suggestion is that they show by pantomime light a fire or shovel coal.  
The company are now in and ready for some contests.  
Nut contest: "What nuts are told toles? Chestnuts? What is sandy coast? Beechnut? What should be eaten with bread? Nut? What nut can make vegetable soup? Pecan? What gives two boys' names? Filbert
