Newest Lifeboat Gear

When the Canadian Pacific liner Duchess of Bedford arrived in New York recently to start a series of cruises to the West Indies, the crew, under the direction of Captain H. Sibbons and his officers, demonstrated the efficiency of her up-to-date lifeboat gear in a fashion that amazed the inspectors.

Shown above is the latest thing in lifeboat lowering equipment, capable of lowering twenty-eight boats in ten minutes. The davits, which are controlled by one man, slide down the rails until the boat is at deck level. It is then lowered by gravity to the water and can be released by trigger, the falls then being hoisted again and attached to another boat which is nested on the same davit.

United States officials stated that this Wellin-Maclachlan gear was the most efficient ever seen in New York.

MUST PAY FOR COLLECTIONS

The Town and Township Councils and the Public Utilities Commission have received notice from the banks that no more taxes or other bills will be collected through the bank without pay. For the convenience 5 cents must be paid on items up to \$15 and 10 cents on amounts of \$15 and over.

An agreement has been entered into by all the chartered banks of Canada that hereafter a charge of 5c. per item on items of \$15 and under and 10c. per item on items of over \$15 on all electric light bills, water bills, etc., collected for Municipalities, Public Utilities Commissions, Hydro Commissions, etc.

The town has nothing to fear regarding the bank changes as the collections are made through the Treasurer's office, but this is not so regarding the township and the local commission, the latter of which has been endeavoring to make a change for a large office in the Town Hall to overcome the difficulty and make its own collections.

SUCH IS FAME

An amusing story is going around concerning the British Prime Minister.

While travelling in the south of France some time ago he met a man with whom he had been at Cambridge. The Premier introduced himself as "Baldwin".

"Baldwin? Baldwin. Let me see," the other pondered. Then suddenly his face lit up.

"Oh, yes, of course. I remember you now. Stanley Baldwin, wasn't it? We used to call you 'On, Stanley, on,' you know, because you were so energetic. And I'll bet you have got on."

Then, seeing a somewhat surprised look on the face of the Prime Minister, he added interrogatively:

"But tell me—you don't mind my asking, do you—what are you doing now?"

Paper is being made of cornstalks. The farmer must patiently consider a new disadvantage if the silo is to be depleted for the benefit of literature. —Washington Star.

CHURCHES

KNOX MISSION CIRCLE
The Mission Circle of Knox United church held a very pleasant afternoon Saturday, February 9. The Circle girls put on a play entitled "Pain Street", which was very much enjoyed by all. Miss Elsie Willis gave a good recitation "In the Barber Shop". Miss Elsie Kearney played an instrumental and also played during lunch.

The amount raised at the door for missions was \$15.50. "God Save King" brought an enjoyable afternoon to a close.

WOMEN'S MISSION CIRCLE
The Women's Mission Circle of the Durham Baptist church held their February meeting at the home of Mrs. Miles Wilson on February 6. The president, Mrs. Knisley, was in the chair. The meeting opened by singing hymn 48 followed by prayer by the President. The scripture lesson was read by Miss Moffet from Psalm 67. Hymn 106 was then sung and the roll call was answered by a verse of Scripture on "Joy". The minutes of the last meeting were read and adopted. Mrs. Irwin gave a splendid reading of a mother's story and her two boys. Mrs. M. Wilson then sang very sweetly "Hark, There Comes a Whisper", followed by a season of prayer. The topic was taken by Miss Eva Redford on "Intercessory Prayer" from John 17 which was enjoyed by all. The meeting closed by singing hymn 522 and repeating the Lord's prayer in unison. Mrs. Wilson served lunch at the close.

PRICEVILLE PRESBYTERIAN
Rev. J. Corry
The last two Sabbaths were ideal for attending church and it was very gratifying to see so many turn out. The first step in backsliding is to neglect attendance at God's House.

Will you be at church next Sabbath? I will: can I count on meeting you there?

Services at 11 o'clock and 7:30 p.m. Sabbath school at 10 o'clock. Let nothing hinder the children from attending Sabbath school, it is the best place they can spend an hour.

SWINTON PARK
We had a good attendance at church last Sabbath and yet we missed many that might have been present. Let us all plan to be in our places next Sabbath. Service is at 2:30. Come and bring the children. We love to see the young people present.

"Train up a child in the way it should go and when it is old it will not depart from it."
Y. W. A. HELD SNOWSHOE PARTY
The Knox Young Women's Auxiliary held their annual snow-shoe party on Tuesday evening, February 12th. A fairly large crowd gathered at the church before leaving on the hike. After going several miles the tramps returned to the church where lunch was served by the members of the Auxiliary. An hour was spent playing games. About \$12.00 was realized.

In Montreal a speaker urged that Municipal Councils should be smaller, overlooking the circumstances that some of them are small enough already.—Brantford Expositor.

Here and There

(214)
For the first time in history, an airplane has been carrying furs from the wilds of Northern Manitoba to the Winnipeg market. Hollick Kenyon, aviator, left Cranberry Portage for Brocket settlement recently, taking Del Symonds, veteran trader, whose aim was to beat all competitors who take a month to travel by dog team.

During 1928 between 5,600 and 5,700 Prince Edward Island foxes have been shipped abroad, an increase over the 4,250 shipped the preceding year. These have been handled without a single known casualty. Since the middle of October foxes have been shipped to Norway, Sweden, Scotland, Germany, Czechoslovakia, Bavaria, Finland, France, Holland, Switzerland and Japan.

Forty-two years of service with the Canadian Pacific Railway without having broken any of the company's rules or otherwise earned a mark against himself is the unique record held by Arthur W. Savage, engineer, who has just retired on pension. Mr. Savage, who is well known throughout the Eastern Townships, fired the train that laid the first steel on the line between Sherbrooke and Farnham.

The old English Yuletide Festival held recently at the Empress Hotel in Victoria, B.C., proved to be one of the most popular events of last year. Carols and yuletide music were rendered, the ancient "Cheater Mysteries" staged, and Dickens' "Mrs. Wardle's Christmas Party" was produced. The festival culminated in a ball at which some seven hundred persons attended. It is believed that plans are already being made for a larger and better celebration next year.

A change in telephone numbers has drawn attention to the train inquiry office in the great Windsor Street Station of the Canadian Pacific Railway in Montreal. The girls who are on duty there handle each on an average of 200 calls an hour, and as many as 300 an hour during rush times. They carry most of the information in their heads and seldom have to refer to a time-table. They are asked queer questions sometimes. Recently someone asked, "When does the afternoon begin," and the old poser turned up, "What time does the four o'clock train leave?"

Dr. Knechtel, a farmer residing about four miles east of Souris, Manitoba, has about 6,000 bushels of Reward wheat which he is going to ship out all over Western Canada in two-bushel lots, as soon as the list of addresses arrives from Ottawa—for the project is under the supervision of the Dominion Government. As is pretty generally known, Reward wheat matures about a week earlier than Marquis and, for this reason, can be grown further north. This early ripening means, roughly, that a new strip of country 75 by 1,000 miles, is made available for wheat growing.

A southern packing plant specializes upon horse meat for shipment to parts of Continental Europe where it is very popular. It has been suggested that the nondescript range horses straying about Southern Alberta be herded for packing purposes. It is a pity someone could not figure out a similar way of consuming some of the old motor cars that are loose on the highways.

Twenty oil burners measuring overall 97 feet in length and weighing 725,000 pounds have been ordered by the Canadian Pacific Railway and will be in passenger and freight service through the mountains this summer. Each of them will do the work of two or more of the lighter locomotives. They are the largest in the British Empire and will revolutionize transportation in the west, it is predicted.

Victoria is having a mid winter golf tournament open to members of the local clubs and to guests of the Empress Hotel, and the players won't have to play in mittens and fur coats, either. In the east they have a game called winter golf that they play with bow and arrows on skies or snowshoes, but the golf at Victoria is the legitimate article. The game is played the year round in the equable climate of the Pacific coast.

Unique and luxurious cars, differing from anything operated in this country before, will be carried by the two crack trains of the Canadian Pacific Railway, the Trans-Canada Limited between Montreal, Toronto and Vancouver, and the Mountaineer, from Chicago to the Pacific coast, it has been announced. The cars will have bath rooms, valet service, lounge and smoking space, and a solarium, with vit-a-glass windows.

The sea is constantly productive of tales of adventure. A recently told story is that about Commander S. Robinson, O.B.E., of the Canadian Pacific liner Empress of France who turned his ship into the face of a hurricane and went 500 miles out of his course to take aid to injured seamen on a storm tossed Japanese freighter. The great liner waited beside the freighter, which had been badly battered by the huge waves and some members of whose crew had been injured, but found it impossible for boats to pass between the two ships to convey a doctor. After waiting for half a day the master of the Japanese ship reported that he could make port, and the Empress of France continued on her interrupted voyage.

"If I were dictator I would sweep away all tariff barriers"—Rt. Hon. Mr. Baldwin. —The Daily Records, Glasgow.
