Do You Buy Stocks By the Map?

Of course you don't, and nobody does, because there is no geography in the investment of money. Like water, money always flows to its easiest level.

When the Bell Telephone Company needs new capital to extend its service it must compete with American utility companies which offer their new shares to shareholders.

If the Canadian company is restricted in this, Canadian investors cannot be expected to refuse greater attraction abroad and Canadian money will not stay in Canada.

The monthly rates paid by telephone users in Ontario and Quebec are the lowest rates in the world for comparable service.
