Hon. Dr. Jamieson Chosen to Administer Old Age Pensions Act

Appointment Announced Thursday o Last Week by Premier Ferguson.-Act Under Jurisdiction of Department of Labor.

The announcement last Thursday of the completion of the details for the administration of the Old Age Pensions Act was of peculiar interest to Durham from the fact that while it is to be administered under the Department of Labor under Hen. Dr. Forbes Godfrey, the real work is to be supervised by the Hon. Dr. D. Jamieson of this town.

Dr. Jamieson, also Chairman of the Mothers' Allowances Commission, is to be the Chairman of the Old Age Pensions Commission, which is to handle sions Commission, which is to handle the details of the administration. Other members of the Commission are likely to be the present members of the Mothers' Allowances Board.

J. A. Ellis, Director of the Bureau of Municipal Affairs, will for the time being assist Dr. Jamieson and fellow-Commissioners in their operation of the pensions scheme. As soon as the various municipalities have appointed their local pensions boards the central Commission at Queen's Park will be ready to receive applications for payment.

The appointment of Hon. Dr. Jamieson to the chairmanship of the Pensions Board is no surprise to any who have been at all in touch with his work on the Mothers' Allowances Board. The payments made during the past few years to mothers with dependents. deserted wives and children, has been enserted wives and children, has been en-ormous. In his position as Chairman the success of Mothers' Allowances is almost wholly credited to Dr. Jamieson's supervision, and as the Mothers' Allowances and the Pensions Act run almost hand in hand it is freely admit-ted that he will make as much a success of the latter as he did of the for- Provincial Highways Department Has mer. Dr. Jamieson still retains his chairmanship of the Mothers' Allowance; Commission.

Though the work is to be administered under the department of the Hon.

Election of officers for the political section resulted as follows: Honorary-President. M. E. Murray; President, R. D. Carruthers; Vice-President, R. A. Lawson; Secretary-Treasurer, H. Mc-

Kechnic. The officers for the co-operative section are: Honorary President, M. E. Murray; President and U. F. O. Director, R. L. Aitcheson; 1st Vice-President and U. F. W. O. Director, Mrs. R. A. Lawson; 2nd Vice President and U. F. Y. P. O. Director, Miss Lollie Sporfard; Auditors, L. A. McLean and Joe Crutchley.

TREES ON DURHAM STREETS MAR EFFICIENCY OF HYDRO

Expected That Trimming Will Commence At Once to Remove Danger of Power Tie-up.—Interruptions Were Becoming Too Frequent.

The local hydro system was out of commission last Friday afternoon and the trouble was not located until about supper time when it was found to be in some trees in the lower part of town that had caused a short circuit and blew a fuse at the substation. There was quite a heavy fall of rain on Friday and while there was no storm of any account, it is supposed that the dense foliage in some of the trees, coupled with the wet weather, caused the short circuit. Anyway, it was a simple thing to remedy when found, but a hard one to find. As a result we understand the trees in the town are due for an overhaul and after that the service will be better. One thing to consider in that whatever the understand to the town are the service will be better. One thing to the the town the town to the trees we tree consider is that whatever tie-ups we have had recently, and they have not been very bad, it has all been local Saturday

Professor D. C. MacIntosh, well-

The annual meeting of South Grey Women's Institutes was held in the Public library, Durham, on Tuesday, June 18. There were 110 delegates present, representing eleven of the fifteen branches, namely, Aberdeen, Allan Park, Ayton, Dromore, Durham, Elmwood, Glen Eden, Hanover, Holstein, Lamlash and Zion. The President, Mrs. W. Rogers, Holstein, presided at the morning session and after the opening exercises, reading of minutes, etc., gave a very fine address. Mrs. Rogers stressed temperance education for the women of our land and paid tribute to the departed sister and worker, the late Mrs. Sydney Banks of Shelburne, asking the convention assembled to stand for one minute in memory of her, at the close of which memory of her, at the close of which she offered prayer. Mrs. N. E. McGuire President of the Holstein branch gave an invitation to all the other branches to assemble in Holstein Park on Thursday, July 18, for their annual picnic. each of the visiting branches to provide two numbers for the program and

Reports were now the order of the day and went to show that progress was being made along many lines. The branches have many ways of making money, although generally speaking, this is not the aim in Institute work, but is necessary for the relief work, aiding local hospitals, erecting fountains, flags etc., remembering the sick and destitute, placing first aid kits in schools and beautifying school grounds, giving of gifts to Children's Shelter, House of Refuge, Sick Children's Hospital, Institute for the Blind; Welsh

OBITUARY

EDWARD BURNETT

Another of the pioneers of this district passed away on Monday at the home of his daughter, Mrs. W. J. Black St. Marys, in the person of The Chronicle, Asks Co-operation of Mr. Edward Burnett. Mr. Burnett, who was in his 85th year, had been ill

Mr. Edward Burnett. Mr. Burnett, who was in his 85th year, had been ill only a few hours, and his death is attributed solely to the wearing out of his previously strong constitution.

The late Mr. Burnett was born in Annan, Dumfriesshire, Scotland, and came to Canada with his parents as a young lad. The family settled for a time at Hamilton, subsequently moving up land on the 4th concession. About 55 years ago Mr. Burnett was married to Miss Isabella Ferguson, who died two years ago, and shortly after marriage they came to reside in Durham. The whole of their married life was spent here. Shortly after the death of his wife, the deceased went to live with his daughter at St. Marys. He was a well-known resident of this town and in the earlier days was employed at the Crawford and McKechnie mills. For the past several years he had been living retired.

Surriving is a family of five sone and cone deurs here and death of the cone deurs here and deeth and been living retired.

Surriving is a family of five sone and cone deurs here and deeth and been living retired.

The weed menace in Ontario has markedly increased during the past few years. It is not an exaggeration to say that in certain parts of the Province Certain weeds like the Perennial Sow thistle are driving men off their farms. The tax levied by weeds on the agriculture of the Province has been mounting yearly. One of the chief reasons why the weed menace has increased with each succeeding year is the undeniable fact that in the past vast quantities of weeds have been allowed to ripen seeds on roadsides, in school yards, on waste and vacant lands, along our lanes and headlands and in our fence corners and odd spots here and there on the farm.

The following are the number of seeds produced by single plants of average size in one season: Canada thistle, 3,500; curled or yellow dock, 17,000; common ragweed, 5,000; chicory, 3,000; perennial sow thistle, 2,000; wild lettuce, 8,000; stinkweed 20,000.
