**Latona (Our Own Correspondent)**  
Miss May Skene visited with her sister, Mrs. Renton of Dromore, one day last week. Congratulations are extended to Mr. William Kenny and his bride, who were married this week. Mr. J. Heft and Mr. Speck have been busy this last couple of weeks putting a splendid steel roof on Mr. J. Crutchley's barn and also shingling Mr. Harold Pickard's house. Miss Mary Morrison of Toronto Bell Telephone Staff is spending a couple

of weeks at her home. Several from this vicinity attended the U. F. C. picnic at Flesherton. We were pleased to see Dornoch and helpers win the ball game. Mr. and Mrs. R. Mortley and two daughters spent Sunday with friends in Guelph. A couple of carloads from Kitchener visited over the holiday with the Oberer and Simpson family. Visitors at Crutchley's over the holiday were Mr. A. Snider, Sr., and Mr. and Mrs. Snider, Jr., of Pittsburgh, Mr. and Mrs. A. Crutchley, Mr. and Mrs. Joe Crutchley and Floyd Kearns of Durham. Miss Mary McIntyre of Toronto and Miss Ruth Ledingham spent the holiday at their respective homes. Mr. Donald McGregor of London spent several days of last week visiting Skene's.

**"NO BETTER WILL BE MADE"**  
Looking back only comparatively few years, we may remember many things which were taken seriously then, but which cause a smile today. Such a smile may be evoked by an advertisement appearing in the Review of Reviews of 1899. Properly displayed and accompanied by an illustration that looks very much like an ordinary rubber-tired buggy without a tongue, the advertisement said, in part: "The latest and best Horseless carriage. Combines all requirements for an ideal and practical pleasure or business vehicle. No better will be made. Time cannot improve it. \$600. Delivery in sixty days. Send for illustrated

catalogue and interesting reading matter about self-propelled vehicles." The fellow who wrote that advertisement took in quite a lot of territory. "No better will be made. Time cannot improve it." Think of that—30 years ago.

## THE FORD CAR STEEL SPOKE WHEELS

Close up view showing how Ford Specified Tire fits into drop center rim.

### Greater Strength and Durability

**THE Ford Steel Spoke (Drop Centre) wheel is an advanced step in engineering and the result of exhaustive experimental tests. It is smart in appearance, extra strong, having a lasting finish, easy to clean and provides a simple method for mounting and demounting the tire without tools and in a fraction of the time previously required.**

**The steel rods or spokes, 1/4" in diameter, are electrically welded to rim and hub shell. The finish is enamel baked on steel. Possessing great resiliency and being one solid piece, these wheels have a sturdiness not approached by any other type.**

**The Ford wheel eliminates loose, squeaking spokes and rims, pinched tubes, chipped or peeling finish, necessity of tire flap, misalignment of tires due to carelessly mounted rims, and a host of other wheel and tire ills formerly encountered. It permits of easy steering and no drumming sound is created by the wind.**

**There is an enormous amount of careful work necessary to build strength and service into the Ford Steel Spoke wheel, and the results justify the engineering study and skill devoted to this feature of the Ford car.**

**Drive it Yourself—there is no Better Test**
