"OUR DANCING DAUGHTERS"

Going Home for Dinner

What Will Your Home-going Be Like Ten or Fifteen Years from Now?

The subject of the above sketch made proper preparation in youth by getting a thorough Business Education at the Northern Business College. This enabled him to meet the problems of life successfully and enjoy the fruits of his labors later on.

The subject of this sketch ao doubt had a "good time" in his youth but he neglected to get the necessary education that would have helped him to get a lighter job at larger wages. How many young people have missed the good things of life by neglecting to get a little education in youth?

A nail will go no further than its head will let it. A youngman or a young woman will go no further than his or her head will allow. People do not succeed by chance or by luck but by getting a practical education and using their knowledge.
