Collection of Money by Drafts

THE use of drafts in modern business practice is occasionally overlooked, their purpose misunderstood, and their value not appreciated. This service as practised by the Canadian Bank of Commerce is one of the oldest institutions of the banking business and the logical outcome of a desire on the part of both buyer and seller to expedite the settlement of accounts periodically in the most convenient manner to both parties. We shall be glad to give information on the value of collection by draft as applied to your business.
