Alaska and Aviation
Alaska has 65 airports and is said to be devoting approximately \$100,000 a year to the extension of its aviation system.

Only O.M.'s Left
The recent death of Marshal Foch, writes Looker-on in the London Daily Chronicle, leaves only one soldier entitled to wear the Order of Merit—his fellow-countryman, Marshal Joffre. The only other foreign member of this Order is the veteran Count Togo of Japan. At present there is no British soldier wearing the Order of Merit. Marshal Foch's death, too, leaves only one foreign field marshal in the British army. This is King Albert of the Belgians, upon whom His Majesty King George conferred this rank eight years ago.

The Ontario Legislature

Toronto, March 8, 1930
Ontario has never since confederation enjoyed such a healthy and prosperous year financially as in 1929, according to the budget address of Hon. J. D. Monteith, Provincial Treasurer, delivered in the Legislature on Tuesday last.

A surplus of \$2,642,000, the largest in the history of the province, was shown and which is to be applied to debt retirement.

No new taxation and no reduced taxation was the keynote of the budget address for the Ferguson administration.

Forecasting the finances for the present year, Hon. Dr. Monteith placed revenues at \$54,865,000; expenditures at \$54,375,000, leaving an estimated surplus of \$490,000.

Many features are contained in the budget, including: Revenues obtained came from services rendered, the taxation being equitable and logical, there being less than 3 per cent of the total revenue from general taxation.

Provincial liabilities are represented by sound investments in revenue, being producing and reliable assets.

Debt is under rigid control, the retirement plan taking care of 100 per cent depreciation.

Over \$3,470,000 was applied to debt retirement in 1929.

Refunding operations were most successful, Ontario's 4.95 per cent rate unequalled in twelve months by any province.

Credit of the province was never higher in the financial world.

Proposed elimination of cross-entries from public accounts considered a great improvement and follows British precedent.

By reason of the Ferguson Government's tax reduction scheme during the government's regime, a saving of \$9,000,000 has been made to the province.

Capital expenditures maintained at a low level.

Ordinary revenue buoyant, and largest in history.

Public services expanding and efficiently maintained.

Hydro makes third payment of debt and pays treasury interest of \$2,200,000. Supplementary estimates for 1930 amounting to \$21,424,390.

Savings office deposits at peak. Substantial surplus from farm loans board.

Excess of assets over liabilities amounting to \$37,870,000.

Revenue producing assets over \$368,000,000.

Outlining the immensity of the province, its resources, and activities, Hon. Dr. Monteith pointed to the fact that the soil of the province produced last year over \$500,000,000 worth of agricultural products, while the province holds a potential wealth exceeding \$10,000,000,000. Ontario is in the forefront of development and normal expansion.

Financing has been carried on under a sound basis, he continued, while a forward progressive policy of legitimate expansion in public service has been pursued, associated with wise business administration soundly financed.

In sound financing, Hon. Dr. Monteith declared the basic principle is: "pay your way and live within your income."

"We propose to continue to give efficient, honest and business-like administration," said Hon. Dr. Monteith, "to audit closely all receipts and expenditures and to adhere strictly to our policy of debt retirement. Our book-keeping method will be sound and an ever-watchful eye will be kept on taxation and capital expenditure."

Government in Toronto. The province last year said Mr. Pearsall was 100,000 hogs behind the demand, while carloads of American hogs are being imported. Ontario farmers, he said, must get down to brass tacks and produce more hogs.

Professor R. Harcourt, head of the Chemistry Department at the Ontario Agricultural College, Guelph, speaking before the Agriculture Committee of the Legislature, said that the preliminary soil survey which had been made of the southwestern Ontario counties, would be extended as rapidly as possible to the rest of the province.

Trained men are needed for the survey, said Professor Harcourt.

C. A. Seguin, Russell, and J. St. Dennis, Prescott, urged the need of immediate government action with respect to agriculture conditions in the Eastern Counties.

Hon. John S. Martin, Minister of Agriculture, in paying tribute to the work done by Professor Harcourt in connection with the soil survey, stated that the tobacco industry, which had produced a \$2,000,000 crop in his county of Norfolk last year, was directly attributable to the survey. It had disclosed that the Norfolk soil was peculiarly adapted to tobacco growing.

Under the Security Frauds Prevention Act, there are 1,047 stock brokers registered. Attorney-General Price informed the Legislature. Non-brokers registered total 495; salesmen 4,456, while 32 brokers had been refused licenses; 91 had been cancelled; 12 non-brokers refused and 29 cancelled; 43 salesmen refused and 98 cancelled.

Under the provisions of Section 16, of the Act, \$1,655 was collected in fines, in most cases jail sentences were imposed.

Hon. Lincoln Goldie, Provincial Secretary, informed the House that 151 patients were released from Ontario hospitals for the insane and allowed to return to their own municipalities for maintenance during 1929. New patients totalled 1,853, and 424 released as cured, while 741 had died in hospitals, leaving a total of inmates at the end of the year of 9,705. Tenders for additional buildings to the Ontario Hospital at Woodstock were awarded to a Brantford firm for \$318,980. These buildings are to provide extra accommodation for 510 patients.

Hon. George S. Henry, Minister of Highways, stated to the House that during the Winter of 1928-29, the cost of cleaning the highways of snow and keeping traffic open was \$151,624.

With a view to restricting cut sections that are without grounds or cause, Attorney-General Price introduced to the Legislature bill known as "the vexatious proceeding act."

In explaining the bill on second reading, Col. Price said there were a number of people who constantly brought actions for which there was no reason or justification. The names of John Berry and Sophie Cohen, both of Toronto, were mentioned as having brought actions that would not have arisen if a responsible solicitor had the say in taking the writ.

Premier Ferguson declared the story was a deliberate fabrication, and written to cause dissension between race and race and religion and religion.

"Thank Heaven," warmly declared Premier Ferguson, "there is no other paper in Canada that I know of but The Star that deals in that sort of thing."

ONE SOCIETY FORGOTTEN
"John, I would like to invite my friend, Mrs. Garfield, this evening. Will you be able to be in?"

"No, my dear, I must attend the meeting of the Royal Orange Lodge tonight."

"Well, tomorrow evening?"

"Oh, the Odd Fellows meet that night, on Thursday I have a meeting of the Board of Trade to attend, on Friday the Royal Templars of Temperance, on Saturday there is a special meeting of the Masonic Lodge and I couldn't miss that and then Sunday night—let me see—what is their Sunday night, my dear? I will tell you, the grand and ancient order of Christian Fellowship."

"Why I had forgotten, am I a member of that, let me see—"

"But you have forgotten another society, John, of which you were once a member."

"What is that?"

"The Home Circle."

A State of Mind
He was a good natured Irishman and was one of a number of men employed in erecting a new building. The owner of the building, who knew him, said to him one day:

"Pat, didn't you tell me once that a brother to yours is a bishop?"

plan to radiator of spected and w—before our spring reasonable will save you later on.
