KNOX Y. W. A. MET IN CHURCH

B. Y. P. U. PICNIC
Who are we? We are who? Durham Baptist Y. P. U. split the air into a thousand fragments as a truckload of forty-five young people of the Baptist Young People's Union made their presence known to the highway inhabitants between Durham and Owen Sound on Tuesday, June 3rd.

sacred and secular and enthusiastic yells. This picnic was the outcome of the ten week's contest recently completed.

ICELAND'S PARLIAMENT THOUSAND YEARS OLD

Yesterday it was Malta; today it is Iceland and tomorrow we do not know what or where it will be except that it will be somewhere else. The prominence given to Iceland is due to the fact that from many parts of Canada and the United States at this time former sons of Iceland are hastening to the seaboard where they are about to take ship for home.

Independent Iceland

In the 19th century, however, the state of Iceland began to improve, one of the reasons being that she had been so exploited that none of her Christian neighbors thought she was worth further squeezing. Her old institutions were revived, and the determination to achieve her ancient independence flourished once more.

Literary Ambitions

It is said that while Finland seems to have an ambition to compete with the rest of the world in athletic exploits and in pursuance of this desire has already contributed some renowned runners and javelin throwers, the national instinct of the Icelandic is literary.

Taxed into Poverty

So firmly did the church establish itself that for a long time is exercised a taxing power, and this was so ruthlessly inflicted that the population of the country declined, the Icelanders, as mentioned, being well adapted for leaving home when conditions became intolerable and settling in other lands.

CURRENT WORMS
Every year hundreds of currant and gooseberry plants are defoliated by green and black spotted sawfly larvae just because the owners did not notice the insect in time.
