Once a summer the younger member of this household takes us for a joyride away from the farm to get us out of the regular routine. The party consisted of our better half, Mina, W. H. and dad. The route was north this trip to Owen Sound, Shallow Lake, Warton, and away well on to Lion's Head.

The scenery was beautiful, roads fairly good, cattle and sheep in the fields well bred and in good condition, but we came back thanking Providence that we hadn't to work among those giant boulders or on those rocky-bottom areas. One thing impressed us greatly—the number of city folk motoring up among the wilds. All seemed trying to get away from urban centres to revel in nature's unspoiled scenes.

Seeding is finished, roots all in, farmers and their sons are anxious now to earn some money working on the side-roads and concessions.

Mr. and Mrs. J. A. Beaton have recently enjoyed motor trips to Guelph and Toronto.

Knox Corners

(Our Own Correspondent)

Mr. Thompson took the service at Knox on Sunday. He spoke of the time when Presbyterians were more faithful in the study of the Bible than many of them are today and also memorized the Shorter Catechism. People need three square meals of food each day for their bodies but try to keep their souls fed with little or no spiritual food. He said that he had been in homes where it was hard to find a Bible showing how little it is used in many homes. He also spoke of sanctification without which no man can see God and yet we hear so little of it now-a-days. Miss Myrtle Marshall and Miss Smith sang "No Longer Lonely".

Visitors at the MacAllister home on Saturday were Dr. and Mrs. Kirk and Miss Mary MacAllister of Toronto and on Sunday Mr. and Mrs. Westbrook, Mr. and Mrs. Burch and Miss MacAllister from near Brantford. They attended service at Knox and Mr. Burch took the Bible class.

The Women's Mission Circle of the Baptist church met at the home of Mrs. Robert McLean for their June meeting with a good attendance. The President, Mrs. Knisley, was in the chair. The meeting opened by singing "Come Thou Fount of Every Blessing". Mrs. McNeice led in prayer. The Scripture lesson was taken by Mrs. Kinnee from the 17th chapter of John verses 1-10 followed by a season of prayer led by Mrs. Knisley. The minutes of the previous meeting were read and adopted. Mrs. Rev. Priest gave a splendid report of the Association meetings held in Meaford last week. The meeting closed with hymn "What a friend we have in Jesus" followed by the Lord's prayer in unison.

Mrs. McLean and assistants served lunch.

QUITE INNOCENT

"There was a fight in front of our workshop today," said a joiner at the dinner table. "Two chaps got into a row; one struck the other, and then the crowd gathered. The chap who was struck ran and grabbed a cart-stake, his eyes blazing. I thought sure he would knock the other fellow's brains out and I stepped in between them."

His little lad had given over eating his dinner as the narrative progressed and his eyes bulged out of his head. He was proud of his father's valor and he said: "He couldn't knock any brains out of you, could he, Dad?"

The man looked long and intently at his heir, then resumed his dinner.—London Weekly Telegraph.

AIR MAIL RECORD GOES TO CANADA

Canada now holds the world's record for air mail speed as well as for operating efficiency, since D. S. Bondurant, air mail pilot, flew from Toronto to Montreal, a distance of 340 miles, at an average speed of 193 miles per hour a short time ago, and W. Fleming flew from Saint John, N.B., to Montreal at an average speed of 240 miles an hour.

According to authentic figures, Canada also holds the title for the highest efficiency as regards successful air mail flights. The laurel goes to Canadian Airways Ltd., which company showed an operating efficiency of 95.3 per cent for the last 18 months.

Another record flight was that of "Shorty" Hatton, a regular air mail pilot who flew from Montreal to Moncton, a distance of 480 miles, in three hours and 45 minutes.

LEARN TO CONTROL YOUR TEMPER IS ADVICE GIVEN

The young fellow with the pink rose in his coat lapel gave me a look that seemed to imply, "Do you think that I could ever be betrayed into getting angry at such a dream of feminine loveliness?" Ah, young groom with swelling pride and love, roses fade and lose their perfume, and human mates need to constantly replenish their stocks of love and affection.

The ancient Greeks thought that insanity was a sort of madness. Modern alienists admit that when we get mad we cease to think straightly.

Mark Twain and his wife made the mutual pledge that "they would not both get mad at the same time."

If I were his Satanic Majesty, the Tempter, I think I would try to get in my work on people's tempers. Life is not all velvet. There is quite a good deal of sand-paper necessary to polish down the average faulty man and woman. The difference between pot metal is that one has temper and the other hasn't. Good racing horses have strong temper, but the successful one is the one that hods his temper in. No matter how sour life gets, you keep sweet.—John Wesley Holland.

Check your brakes carefully before you start out on the highway. You may have to depend on them, and they may fail you . . . to the injury of yourself or others.
