MANY SPECIMENS GATHER

exhibition house of the National Zoo- early in the following. logical Park in Washington, D. C. Almost every day brings its curious gift of animals to Dr. William Mann, superintendent. He stows them away in basement and furnace rooms, in attic corners and office windows to wait the day when they can preen themselves in decorative glass cubicles before admiring crowds.

The seal tank of his animal hospital caymans from the Upper Amazon, in his own offices are three smooth-clawed African frogs which never come out of the water; several dark-skinned salamand axolotoles from Mexico, and a yellow Florida chicken snake, which already has enhanced its value by proving itself a good feeder, snakes in captivity being wont to starve themselves by hunger strikes.

Dr. Paul Bartsch, curator of mollusks of the Smithsonian, brought 23 live iguanas, giant lizards of the southern Bahamas, and 120 live hermit crabs back to Dr. Mann from a four-month cruise in which he secured for himself 1,000 birdskins, 1,000 snakesskins and a quarter-million snail shells.

"So ugly they are beautiful", Dr. Bartsch said of the iguanas. His largest iguana, three and one-half feet long, he brought back as baggage, fearful to trust it to parcel post. And the hermit crabs-

"Stunning things! The biggest I have ever collected, in huge pearly marine shells borrowed from mollusks they have eaten," said Dr. Bartsch.

Four young tortoise shell turtles, the kind that furnish the true shell for fancy combs and cases, completed the Bartsch contribution.

From the St. Louis Zoo came a 96pound snapping turtle, out of the Mississippi River. His present home is a basement tub, but he's to be put on a pedestal in the new Zoo.

"Too many turtles are exhibited so people only see their backs," said Dr. Mann, "I shall put him in glass, high enough so you can see him eye-to-

From the Toledo Zoo came two beautiful and rare box snakes, chocolate brown and black. Finest specimens, perhaps, of the entire collection is the king cobra, 141/2 feet long, which waits in the New York Zoo for the reptile house opening.

Reptiles to fill 30 cages will come from "Snake" King, Texas collector, who will also send a jar of crystallized That's to be put in a little museum which will illustrate all the appliances snakes have for poisoning man and all the means man has developed for counteracting them.

CURIOSITIES OF THE WELLAND CANAL

The figure "8" and its multiples are curiously in evidence in the construction of the new Welland ship canal. For building purposes the canal was divided into 8 sections. There are 8 locks to the canal; it takes 8 minutes to fill each lock with water and 8 hours for a vessel to pass through the entire canal. The 8 locks have each a usable length of 820 feet, with depth of 80 feet, and 82 feet is the height of the lower mitre gates. The greatest height of lock wall is 130.8 feet, and the weight of metal in the valves of locks is 3,800 tons. A pond 801/2 feet deep, covering 84 acres, feeds the flight locks. The span of the lift bridge, at Peter street, Thorold, is 80 feet, and lock 8 with a length of 1,380 feet, is the longest in the world. The greatest width of the entrance to Port Weller is 800 feet. Over 8,000,000 cubic

yards of rock have been excavated, and FOR SNAKE EXHIBIT more than 28,000,000 pounds of reinforcing steel used. It is interesting to From all the odd corners of the earth note that the first Welland Canal was frogs, lizards, turtles, alligators and 8 feet deep and was practically comsnakes are assembling now for the pleted in 1828, over 100 years ago, the December opening of the new reptile first vessels having been locked through

A DELCO-LIGHT for every job

New 1930 "Red Line" takes care of every light and power need

Your farm may be large or it may be small. You may need lots of light and power or just a little. But whatever your needs, there's a 1930 "Red Line" Delco-Light made to measure for you.

We are the authorized Delco-Light Dealers in this territory and we would like to show you the new Delco-Lights. They're way ahead of anything known before in farm electric plants. So don't let anyone fool you with something "just as good" . . . or with a "bargain" that falls short of Delco-Light standards. See us before you buy. Thus you may avoid regrets later on.

> SMITH BROS. LURHAM PHONE 60

just phone or drop us a card and we'll bring Delco Light to your home for a night demonstration.

MOTORISTS be CAREFUL!

The season for wet, slippery pavements is here and demands that special care be exercised by all drivers of motor vehicles.

DRIVE CAREFULLY ... and read carefully every word of this advertisement

HE Highway Safety Committee has been urging motorists during the year to exercise CARE, COURTESY and COMMON SENSE in the operation of their vehicles. The Committee appreciates the whole-hearted support its efforts have received from every source. We have had the best of co-operation from the Advisory Committee, which is composed of some of the leading citizens of the Province, from the press, from motorists and from pedestrians and, as a result, driving conditions have improved. Let us continue to be traffic conscious and at all times CARE-FUL and COURTEOUS when driving.

Severe penalties are provided in our motor vehicle laws for those who are careless or inconsiderate of the rights of other users of the highway.

The Financial Responsibility Law which became effective on September 1st provides that the driver's license and all motor vehicle permits of a person convicted of any one of the following offences shall be suspended until proof of financial responsibility in the form of a certificate of an insurance company, a bond or securities is filed with the Registrar of Motor Vehicles.

READ CAREFULLY

Driving without holding a chauffeur's or operator's license.

Reckless or negligent driving or exceeding the allowable speed limits if any injury to persons or property

Driving, or being in charge of a motor vehicle, while intoxicated, or any other criminal offence involving the use of a motor vehicle.

Evading responsibility following an accident.

Operating a motor vehicle in a race or on a bet or wager.

Chauffeurs, operators and owners of motor vehicles are warned that the provisions of this law must be applied in every case.

ACCIDENT REPORTING

The law now requires every person directly or indirectly involved in a motor vehicle accident, if the accident results in any personal injuries or property damage apparently exceeding fifty dollars, to report such accident to the nearest police officer. A penalty is provided for failure to so report.

Remember your Personal Responsibility whenever driving a motor vehicle or you may be required to prove your Financial Responsibility.

Highway Safety Committee
