**Knox Corners**

(Our Own Correspondent)

We had beautiful weather for our anniversary services on Sunday and also for the garden party on Monday evening. Rev. Mr. Miller of Mount Forest took the Sunday services and gave good messages both morning and evening. In the morning he took for his text "and Isaac built an altar, pitched his tent, and digged a well." Isaac was not an outstanding character like Abraham, his father, or even like Jacob, his son, but from his actions we find he put first things first. The altar stands for the worship of God, the tent for home, and the well for service. Does not Isaac not put us to shame today in his faithfulness to the worship of God? and the speaker said that the religion that cannot bear a sneer does not amount to much. The services were well attended and the flowers were beautiful. The choir sang two anthems at the morning service, "Rejoice Ye Saints of God," and "A-wake and Sing His Glory." Mr. Miller took for his text in the evening "God is a Son." As the sun shineth in his glory and changeth darkness to light in the earth, so God will do the same for us in our lives and will make the crooked ways straight and the rough places smooth. The choir sang one anthem at this service and another selection "The New Song" was sung by Mrs. C. McAlister, and Misses Myrtle Marshall,

and Charlotte Patterson. Visitors were present at the services from Dromore, Durham and Hampden. An account of the garden party will be given elsewhere in the Chronicle.

**When Your Neighbor's House Burns—**

When fire springs up in a neighboring building—is your home safe? Will flying sparks and brands drop on your roof and die out harmlessly—or will they kindle your roof to flames and contribute your home to another dreaded community conflagration?

If there are buildings anywhere near you, and if your home is covered with inflammable roofing, you are not safe from the menace of roof-communicated fire. Your home is recognized by town, city, state and insurance authorities as a fire risk—a danger to you and your family.

But through Asbestos, Johns-Manville offers you safety—a shingle roof which cannot burn—a positive barrier to roof-communicated fire. This shingle roof not only takes a base rate of insurance, but should last as long as the building it covers. It enhances the architectural appearance of your home and gives you the cheapest per year service of any roofing obtainable.

An investment in Johns-Manville Asbestos Shingles for your home is both a contribution to civic safety and to individual economy. Your money is returned to you many times over in safety, appearance, long life and remarkably low upkeep.

Let us show you samples and give you estimate.
