Nay, Nay, Pauline!

We read of school boy howlers in most every paper we pick up and her is a good one that happened in our local school. Mr. Robinson, in his rotary, was teaching history to the Jr. III, and after telling of the Algonquin Iroquois, etc., he said the men they call "Braves", the women are called "Squaws" and now Pauline, can you tell me what the babies are called? and quick as a flash Pauline answered "Squawkers."—Flesherton Advance

Butcher Shop Entered

Sometime during Monday night or early Tuesday morning Allan Montgomery's butcher shop on Proton St. was broken into and a considerable quantity of emat and butter stolen. Entrance was gained to the shop by means of the rear door. A robe, a rain coat and top coat were also removed from the car, which was in the garage at the owner's home. No trace of the thieves has been picked up.—Dundalk Herald.

Blacksmith Severely Burned

"Pat" Lobsinger, blacksmith, has been laid up the past week as a result of a painful accident last Wednesday. He was working on a small piece of iron which he had heated to white heat, and as he was hammering it on the anvil, it flew out of the pinchers, and hit him on the eye. The outer covering of the pupil was burned, and his eyebrow was most painfully seared. He is making a good recovery.—Mildmay Gazette.

Again in Trouble

Murdoch McKenzie, of Harriston, who was sentenced to serve three years for defrauding Mrs. Elizabeth Schon, of Deemerton out of \$2,000 of securities, and was liberated by the parole board after serving about one year, was arrested last week at Hanaover by

Constable Meyer on a charge of passing worthless cheques in payment for goods purchased. He was found guilty and remanded for sentence.—Mildmay Gazette.

Impudent Peddlers

The village was thoroughly combed on Wednesday by a bunch of young men selling "perpetual" calendars. Several householders complain that they were quite impudent in their attempts to dispose of their goods. The calendar is of little practical value, and the price they asked, 25c is outrageous. The old loyalty argument was brought into use. The public is tiring of being lured into purchasing things they don't want by the "loyalty" pretext.—Mildmay Gazette.

Lightning Strikes Water

Rain and hail were our portion on Saturday morning, and a very heavy downpour it was; Sunday was a fine day but Monday morning many townspeople were awakened early by another heavy rain and the roll of thunder. One of our genial milkmen got a bad scare when he was delivering the lacteal fluid down along the lake front. A bolt of lightning struck the water about a hundred yards off shore and shot a spray up about thirty feet. Ben says that even his sensible horse thought it was a good place to be absent from.—Warton Canadian.

Struck by Lightning

During the thunder storm on Tuesday afternoon last week while loading peas at their farm Wilfred Farquhar, his father, Mr. Alex. Farquhar, and a neighbor, Mr. Pritchard, were all struck by lightning. Wilfred, who was on the load with a fork in his hand, was struck on the head, his father on the forehead and arm, and Mr. Pritchard got a thump on the chest like a blow from Jack Dempsey. None of them were seriously affected. When he spoke to Wilfred on Thursday night he said his head felt tight, as though he had on a tight-fitting cap.—Elora Express.

Paving Near Corbetton

Paving is completed almost as far as the 260 Sideroad at Corbetton on Highway No. 10. When that stretch is completed the R. H. McGregor Paving Co. will commence to lay pavement at the Melancthon end of the job and work towards Corbetton. The fact that the Dept. of Highways will allow the company to work only five days of the week somewhat retards the speed of paving operations. Two miles and a half of the 6.2-mile contract will be completed when the Corbetton corner is reached. It is now necessary to detour at Melancthon one concession west and keep to the Back Line until Dundalk is reached.—Dundalk Herald.

Partridge Broke Window

As soon as it was announced that there would be an open season for partridge that toothsome bird immediately went crazy over the prospect and one of them flew into town and crashed through a large bedroom window in Mr. John McDonald's residence about daylight on Tuesday morning. Some of the children were sleeping in the room and they proceeded to scream, thinking it was burglars, and wakened the household. Mrs. McDonald captured the fool bird alive and placing it in a box will probably crate feed it until the season opens, when it will be transformed into "quail on toast."—Flesherton Advance.

A Spider Story

There has been much comment in the daily papers lately concerning a snake which, somewhere in the United States, got emeshed in a spider's web. The efforts of the snake to escape and the work of the spider in keeping it a prisoner until the snake was exhausted from the lack of nourishment, has been the subject of various news dispatches. In Palmerston a somewhat similar struggle has been taking place except that the prisoner is a large worm. The spider has kept close guard over the worm and keeps busy spinning additional web when the worm damages that already spun. Mr. Desmond has been an interested watcher of this incident for some time.—Palmerston Spectator.

Saturday Night Robberies

Saturday night or Sunday morning thieves entered the Jeffery Hardware through an upstairs window and rifled the till of \$150. Brown's Garage was also visited, entrance being made through the back work shop, from there to the show room by pulling the hot air furnace pipe out, and crawling through, from here it was easy as the office door was unlocked. One dollar and 88 cents rewarded their efforts here. A third place to take their fancy was Strome's Garage. Here the thieves secured \$6.20. Three local boys were questioned by County Constable McClevis, of Walkerton, on Sunday, as to their movements during the time of the robberies. If someone will please hand the thieves 2c they will have \$5 for their trouble.—Teeswater News.

Will Build New Lodge Hall

Work commenced on Tuesday on the moving of the old town hall from the property on Toronto Street, where it has stood for the past 60 years. The removal of this building makes way for the erection of a \$6,000 building to be used by both Prince Arthur Lodge No. 333, A.F. & A.M., and L.O.L. No. 2855 and other lodges. The contract for erection of the new building, which will be of brick construction, was given to Mr. H. A. McCauley of Flesherton. This new building will add materially to the appearance of Toronto Street and when completed should be a credit to the builders and the village. We understand the old town hall building will be purchased from Mr. McCauley when it is moved on the lots purchased by Mr. Jack Brackenbury last week and will be converted into a duplex house.—Flesherton Advance.

WHEN TO CUT SUNFLOWERS

"It is generally recommended to cut sunflowers when they are about 50 to 60 per cent. in bloom," states E. S. Hopkins, Dominion Field Husbandman. "At this stage they contain more dry matter than at earlier stages and are more easily handled than at other stages. If the heads are allowed to firm until the seed is in the dough stage the stocks become top heavy and difficult to cut and handle in the field, and difficulty is also experienced in getting the larger heads to pass through the throat of the ensilage cutter."

British Coal  
The Citizen, published in Ottawa, the seat of government, is responsible for the story that the duty of 40 cents per ton imposed last session on American anthracite may be increased to 60 cents at the coming session in order to facilitate the in coming of British anthracite which is said to be of a decidedly better grade than the Pennsylvania product. The Welsh coal is claimed to be largely free from slate which is found in some American mines in large quantities. It is not forgotten the war years Canadians paid heavy freight charges on American coal that was from 60 to 75 per cent. pure slate. Let us give the British coal a fair trial.—Milverton Sun.

"Hello, Gran'ma!— I'm a good boy!"

When Amy married Bill Temple, her people made her promise to visit them often. But after young Bill came, the visits were less and less frequent, although the old folks were only 40 miles or so away.

Then one night Amy's mother telephoned and they found how pleasant and inexpensive a visit by Long Distance can be.

So every Sunday night now Grandma calls them. The weekly chats make them all happier — and the cost is only a few cents.

Low evening rates on Station-to-Station Calls begin 7.00 p.m. Still lower night rates at 8.30 p.m.
