

NEWS AND INFORMATION FOR THE BUSY FARMER

(Furnished by Provincial and Dominion Departments of Agriculture)

Preference For Honey

Confirmation has been received by the Ontario Marketing Board that Canadian honey is to enjoy the same preference on the British market...

Weekly Crop Report

Average yield of sugar beets in Huron County will be about 12 tons per acre. Sugar contents is not high this year and few growers will receive a bonus above the contract price...

Selling Immature Fruit Upsets the Domestic Market

"Growers who persist in the practice of sending immature fruit to market must realize that they are gradually robbing themselves, through creating dissatisfied customers..."

Buyer Unable to Secure 20,000 Ontario Calves

Garnett Duncan, Ontario Marketing Board, states that a buyer from the United States has been on the Toronto market attempting to purchase 20,000 well finished top calves...

Good Care Essential

The properly balanced ration accomplishes wonderful results when fed to stock that is rightly bred, well managed and correctly housed.

Houses and equipment such as brooders, feed hoppers, drinking pans, etc., that are sufficient to accommodate 100 chicks will not take care of 500.

The condition of a carcass when it is marketed depends almost entirely on the way the bird is cared for up to the time it is killed.

the way in which it is grown and the way it is fattened for market.

A poorly grown bird will not take on weight satisfactorily; its digestive organs have not developed sufficiently to handle the more or less concentrated feed that is fed during the fattening period...

Ontario Honey for England

The newly formed Ontario Honey Export Association has announced the shipment of four car loads of light honey to England. It is estimated that the arrival of this shipment in the Old Country will co-incide with that of George Paterson...

World Grain Conference

The World's Grain Exhibition and Conference will take place at Regina in 1933. Entrants in the competitive classes, exhibitors, visitors and others should take notice of the following important dates:

January 31, 1933—All entries in the competitive classes of the World's Grain Exhibition and Conference must be made on or before January 31, next year.

March 1, 1933—All samples entered in the competitive classes of the World Grain Exhibition and Conference must be in the hands of the secretary, Ernest Rhoades, at Regina, on or before March 1, 1933.

July 24, 1933—Opening day of the World's Grain Exhibition and Conference at Regina.

August 5, 1933—Closing date.

Pear Export Loans

Further impetus to export of Ontario pears to the British Isles has been given by an announcement that the Government has completed arrangements with the Canadian Bankers' Association whereby exporters, either farmers or co-operatives, may secure advance payments on their shipments from banks by way of loans at six per cent interest.

Pear exporters may now go to their once they have loaded their shipment, present their bill of lading and draw from the bank up to \$1.50 per barrel or 50 cents per box on the shipment.

Two important provisions in connection with the new "pears" arrangement is that all such fruit must be shipped through Andrew Fulton, the fruit growers' commercial representative in the British Isles, and no loan made by a bank shall exceed three months.

Fall Wheat Tests

During the past year seven fertilizers were compared with unfertilized areas on wheat in 43 fall wheat sections. The fertilizers was applied at the rate of 375 pounds per acre by O.A.C. officials.

The average gain of all fertilizers above check or no fertilizer was 8.7 bushels per acre. The average in gain in yield for three years was 10.3 bushels per acre. Yields varied considerable on different soils with different fertilizers.

The great value of fertilizer on fall wheat is that it not only gives strength and vigor to the crop to which it is applied, but it almost always insures a good stand of clover and grass where the wheat-field is seeded.

Ontario Farm Products Week

The week of October 17th to 22nd has been chosen as "Ontario Farm Products Week." The primary idea behind the movement being to encourage the greater use of Ontario grown products. Plans have been made to sponsor an "Ontario Farm Products Contest" for retail merchants in all cities in the province during this special week.

Chicks—McDougall 1 2 and 3. Rhode Island Red chicks—McDougall 1, 2 & 3. S.C. Mottled Ancona fowl—J. Robertson, Chicks—J. Robertson.

province. An appeal will also be made to merchants in towns and villages to specialize in Ontario Products during the week of October 17 to 22, and it is expected that Window Dressing contests will be staged in all the cities and larger towns. The co-operation and assistance of everyone is asked in this worthy project, which should have very definite benefits for farmers in the way of increasing the demand for their products.

What The Law Did

The learned counsel glared at the witness. "Are you positive, sir," he demanded, "that the prisoner is the man who stole your car?" "Well, answered the witness, "I was until you cross-examined me. Now I'm not sure whether I ever had a car or not."

Swamp College

(Our Own Correspondent) A number from this vicinity attended anniversary services at Swinton on Sunday.

Mrs. Jack Carson of Orillia is a guest at the home of her parents, Mr. and Mrs. Archie Ferguson.

Miss Ethel Haid is visiting with her aunt, Mrs. Parslow, of St. Catharines. Mr. and Mrs. Palmer Philip and family of Toronto.

Mr. and Mrs. Oliver Milliner have moved their household effects from Toronto to their new home on the 14th concession of Proton.

Mrs. Howard McLean spent a couple days at Mr. Sam McLean's. Mr. and Mrs. Walter Broughton, Sr. of Ravens, spent a few days visiting at the home of their son Walter.

Miss Ethel Goheen, of Dundalk, visited Tuesday at Mr. Wilfred Black's. Little Richard and Agnes Heard, are spending a fortnight with their uncle, and aunt, Mr. and Mrs. Jim Kennedy, Shelburne.

Threshing is almost completed in this part of the locality. A number from this locality took in Dundalk fair on Wednesday.

Mr. Wilfred Wright is visiting with friends in Toronto.

Proton Station

(Our Own Correspondent) Mrs. Graham, Wharton is visiting this week with her sister-in-law, Mrs. Jas. Corbett.

Mr. Jack Corbett, Mrs. Clifford Corbett, Toronto, and Roy Corbett were guests of Mrs. Corbett Sr., and Mr. and Mrs. H. Corbett on Sunday.

Mr. and Mrs. James Oliver, Old Durham Road, and Misses Emma and Sadie Oliver were visitors with Mrs. Jas. Vause on Sunday.

Mr. and Mrs. L. Hodgins, visited at the home of Mr. and Mrs. John Hodgins recently.

Mr. McGillivray, Priceville, gave a very interesting sermon to the Proton Station congregation on Sunday night.

Mr. and Mrs. Bradley, Mr. Ernie and Miss Ina Bradley, Berkeley visited on Thursday last with Mr. and Mrs. Wes. Dever, and Messrs. T. and J. Dever.

Mr. and Mrs. George Woods, and daughter, Miss Isabell were visitors on Thursday last at the home of A. Hergott.

GRAINS ALONE NOT ENOUGH

In order fully to realize the opportunity which is his in marketing bacon hogs the farmer of the prairie provinces, in particular, must realize as a fundamental fact that grains alone are not enough to make good hogs. Where milk in some form is available it supplies the ideal protein supplement, or balance, to the ration, but in many parts of Western Canada, in particular, milk in any form is scarce.

In such cases tankage should be included in the meal mixture. It is an ideal supplement and adds zest to the feed even when milk is available in abundance. To make your home-grown feeds count you must feed a balanced ration, and tankage is a good means to this end.

CANADA'S SEED INDUSTRY

The seed growing industry in Canada has been gradually developed and improved during the period of the past thirty years, a report recently prepared by the Seed Branch states. It now embraces the production and improvement of approved varieties of cereals of pedigreed stock, the production of forage crop seeds, and the production of field root, garden vegetable, and flower seeds. It is estimated that in 1931 3,710 farms were producing seed crops subject to federal inspection, and around 12,000 persons were engaged in the production and marketing of the improved seed.

EMBARGO AFFECTS PRAIRIES

With a view to assisting in the control of crown rust of oats and blackstem rust of wheat, a ministerial order effective after September 1st, 1932 prohibits the importation of the European buckthorn and certain species of barberries into the three prairie provinces—Manitoba, Saskatchewan and Alberta—from any of the other provinces of the Dominion. The order further provides that if the European buckthorn and nine named species of barberries are found within the three prairie provinces they shall be exterminated without any claim for compensation.

Appreciated

"Hard-working little wife you've got, Bill," said the traveller to the small-shop keeper as he watched the man's busy wife in the shop.

"My word yes!" replied the shop-keeper. "I only wish I 'ad a couple more like 'er."

Wife: "Ere you are, just 'ome after doin' two years for arson, and now you can't make the kitchen 'fire draw."
