SAFETY TIP:
 Every year thousands of children die as a result of accidents. These accidents are not only traffic accidents, but farm and home accidents. Let's reassess the situation in our homes; on the farm and on the highway. Here are some questions we should ask ourselves.
 Do I take an interest in how my child acts when walking in traffic?, while riding a bicycle?
 Do I set a good example by driving carefully and obeying the traffic laws?
 Do I keep poisonous substances out of reach of children?
 Do I know how to give my child mouth-to-mouth resuscitation in an emergency?
 Do I make sure my child is kept away from dangerous farm animals such as a bull?
 Do I forbid my child to play in high or dangerous places?
 Do I forbid my child to ride in dangerous places on farm implements?

Most adults will let these deplorable conditions just pass by and only consider where it comes from. I think it is unnecessary for children to witness such happenings in Durham. This is not the first time I've noticed conditions like this, and I don't attend all the games.
 Also, when the O.B.A. issues an umpire's card, I don't think they are issued under these conditions.

Are We Going To Sit Back and Say Nothing?

The utmost disrespect for the law was openly displayed at the ball park last Sunday evening when beer was consumed openly during a game, in full view of most spectators.

Thousands of dollars were spent on the new ball park, making it one of the best in this part of Ontario. It is for the use of the general public, young and old alike and was not intended as an outside beverage room. It is most disgraceful that our children must witness booze being consumed illegally on a Sunday evening during a ball game.

Why this was tolerated, is beyond this writer's imagination. At fault is the police department who seldom attend public functions, and obviously this is the reason booze was openly displayed and consumed at the ball park. There was little fear the police would show up. The same situation occurred many times at the Durham Arena last winter.

We have repeatedly heard from the policing authorities it is not their job to attend hockey games and other public functions. We accept no part of this thinking, and consider it only an excuse. This department is being well paid.... and it's time law-abiding citizens received some service for their money.

Since the formation of a police commission in Durham a few years ago, citizens complaints just go by the wayside. All the commission has accomplished, is a greatly increased budget, for which we have received very little. The commission itself has failed to comply with regulations.....they don't meet as often as required by the statute.

A new broom is required here with the commission getting the first "cleaning". Two of the commission members are law officials and neither live in Durham. How do they know what is going on, especially when they seldom hold a meeting? All we are asking is value for our money. This we are not getting.

It is hoped the Recreation Commission will take immediate action against the two ball teams, Carson Cleaners and IGA, and forbid them the use of the ball park in the future until a guarantee is given that game officials will not be permitted to booze it up during the game.

And to the people of Durham -- thanks for being just as you are. Thirty-one children have a special place for you and your town in their hearts.
 The children of Durham may be interested to hear that Mark won't miss one day of school -- the Hospital for Sick Children has a full time teacher and classroom. (Poor Mark, he gets all the breaks!)

Yours faithfully,
 (Mrs.) A. Fedele.

 Dear Editor:
 We often hear the quotation, "Durham is the Sporting Capital of Western Ontario", which I think is something to be proud of. I am proud to be a citizen of a town with such a title. No matter where you go, Durham is given the name of being very active in sports, ball, hockey, etc.
 I visited the ball park Sunday evening, and a better grandstand view there is no where in Ontario, but what I saw from the top of the hill was utterly deplorable or is that the word?
 Two ball teams were playing, and a good ball game it was, but when a base umpire has to go to the sidelines to get a swig out of a beer bottle, and I'm sure it wasn't water or fruit juice, I think it is time something is done. Also behind the screen was a beer case that small children ranging in age from two to twelve went around, played beside, etc.
 No, it was not left there from
