EDGAR NOBLE, son of Mr. Thomas Noble, who is attending the Deaf and Dumb Institute at Belleville, will be home next week and will remain for three months. We are pleased to learn that the little fellow is making good progress at the Institute. Though only eight years old, he has already written home to his parents.

A Happy, Happy Dream!

Bunessan, June 3, 1901.

TO THE CHRONICLE,
DEAR SIR:—While dreaming the other night I heard something say, "Tom, you didn't pay your Sub. to the CHRONICLE; perhaps the editor might want to go to the circus and you know how it used to be with yourself?" So when I woke up I thought it over and now I enclose \$2.00, hoping you may have a good time at the circus.

Yours truly,
THOS. GRAY.

[Many thanks, Mr. Gray, how it would delight us to have about a thousand such dreams turn out like yours.—Ed.]

Millinery.

Durham's Greatest Millinery House.

Vastness! Variety! Value!

Deservedly Popular. The great and increasing growth of our business is abundant proof of our popularity in the trade throughout the length and breadth of Durham. We are popular in every sense of the word. Through our courteous treatment and the liberality shown our patrons, and by our strictly business methods, we have earned the respect, confidence and goodwill of the trade in general. We are popular from the fact that our stock is by far the largest in Millinery and General Dry Goods. The correctness of our goods is undoubted, the value in every line in all departments is the strong argument that strengthens our popularity. It is ever in evidence, more so at this season of the year, when we are kept busy. Our millinery display is

Greater & Grander Than Ever.

We will exert ourselves to make your visit both pleasant and profitable.

S. F. MORLOCK

The Rev. Wray R. Smith will preach to the members of the C. O. F. in the Methodist Church on Sunday a. m., subject "Covenants, Signs and Passwords."

The Rev. J. K. Adams, of Brantford has been appointed chairman and the Rev. Wray R. Smith Secretary of the Sunday School committee of the Hamilton Methodist Conference.

FRANK IRWIN, our war correspondent in the Philippines, had another letter reach us this week. He'll not get his discharge for another year. The letter will likely appear next issue.

An excursion to the Model Farm will be given June 26th under the auspices of the South Grey Farmers' Institute, two days. Fare same as last year, good to return on any train on the 27th.

LACROSSE.—The first League game of District No. 5 between the Aberdeens, of Markdale, and the Durhams of Durham, will take place on the Agricultural grounds at 3 p. m., Thursday, June 13th. Band in attendance.

We have just learned, with regret, of the misfortune of Mr. James Russell, of Fort William, who lost nearly \$1000 through fire on the 10th of last month. Mr. Russell is a son of John Russell, near town, and for the past two or three years has been carrying on an extensive business in harness making. He will commence again shortly.

MISS ROSE, in her address at the Farmers' Institute, made the startling statement that farmers gave a hundred per cent. more attention to the feeding and care of stock than farmers' wives did to the feeding and care of their children and husbands, and pointed out the necessity for better attention along these lines to produce a higher moral tone in the minds of the rising generation. Notwithstanding this, we think that cattle having no better protection than the shaded side of a barb wire fence, will not turn out very profitably to their owners, yet we regret to believe there are cases in which this picture is not much over drawn.

On Saturday afternoon last, while playing in the show grounds, Wilfrid, the little five or six year old son of Mayor Calder, met with an accident which caused considerable excitement for the rest of the evening. A number of lads about his own age, were on the grounds playing lacrosse, and the lad in question undertook to pet a quiet little driver belonging to his father. Somehow or other, another horse came up and kicked the little fellow and left him in an unconscious condition for some time. The other boys thinking him asleep didn't try to arouse him nor give any alarm until they were ready to go home, when they carried him to the parental roof.

We have again to thank Mr. John H. McLaughlan, of Balmly Beach Summer Resort, for a complimentary season ticket on the Steamer Maseppa, plying hourly from Owen Sound to the Beach. The anniversary of the opening of this magnificent summer resort will be held on Monday, July 1st, 1901, with a monster celebration, including three distinct programmes, morning, afternoon and evening. The phenomenal success of the resort ever since its opening in July, 1899, is sufficient guarantee to the public that the company will, this year again, afford unparalleled comfort to all pleasure seekers. We congratulate Mr. McLaughlan for his enterprise, and trust that the success of this year may surpass each of the other two seasons since the opening of the pleasure grounds.

We expect to start next week with the first of a series of lectures on the Glasgow Exhibition from our own special correspondent. This feature is costing us considerable money, and we trust it may be of interest to our readers. Tell your neighbor, who doesn't take THE CHRONICLE to subscribe now and get the benefit of the whole series. Only 50c. for the balance of the year.

We notice a number of our exchanges referring to the marriage of Evangelist Goff to Miss Lou Armstrong, of Flesherton. That an evangelist and a handsome young lady should get married is nothing strange, but that we forget at the time to refer to the matter is what annoys us. Miss Armstrong was a pupil of ours, and we have reason to congratulate Mr. Goff in winning such a prize.

SOME weeks ago we announced the intention of the Orangemen of this locality to have a big demonstration here on the 12th of July. Since then we have heard little or nothing, but seeing that other places are on the move we think it well to remind our own people that to make a success of it they should be up and doing. The time isn't long, and we say advisedly it is folly to think of rushing matters in the last three or four days.

On Friday last the town was shocked on learning of the unexpected death of Mr. James Laurie after a short illness. For some time the deceased gentleman had complained of heart trouble, and this, aggravated by an attack of inflammation hastened death, which occurred Friday as above stated. He was only forty-seven years of age, and leaves a widow, interment took place Sunday to Barber's cemetery, the services being conducted by Rev. Mr. McGregor.

The citizens of Durham will have two opportunities on Friday of seeing the circus parade. No doubt this will be worth looking at, and we have no hesitation from what we have already seen, in believing that the circus will be conducted as well as circuses usually are, but we give a word of warning that it will be well to keep an eye on your property, as all these great shows have a following of unscrupulous characters, who may go in at the back door and rob you of your valuables, while you are standing outside the front one watching this parade.

The annual meeting of the Farmers' Institute, of South Grey, was held in the Town Hall on Monday afternoon last, when the following officers were elected for the ensuing year:—James Allan President, Wm. Irvine Vice-President, Geo. Binnie Secy.-Treas. and Samuel Dickson, John Picken, Wm. Ramage, David Hamilton, and Geo. Hepburn Directors. The meeting closed with an admirable address on butter making by Miss Laura Rose, of the Ontario Agricultural College, a fuller account of which we expect to give in our next issue.

A DIPLOMA is given under direction of the Education Department for schools which meet all the requirements of the Department in reference to buildings, furniture and equipment, together with the class of work done by the teaching staff. Markdale public school is to be congratulated on its being the first graded school in Mr. Campbell's inspectorate to receive this Diploma, thus coming ahead of such places as Durham, Hanover, Dundalk and Meaford, etc.—Markdale Standard. [With reference to the above the reason must be traceable to work outside of the teaching staff so far as Durham is concerned. The result of the Departmental and other examinations shows our school to be one of the best, if not absolutely the best public school in the County.—Ed.]

HITS AND MISSES.

Though Mr. Ramage acknowledged in his last issue that he used to carry whiskey by the keg, no one can make us believe he's a hard drinker.

The offers to sell property made at the Court of Revision, may find purchasers some time. Be cautious gentlemen.

An adjourned meeting of the town Council was almost fixed for Friday night, when Mayor Calder discovered that it might interfere with the circus, and had the date changed. Very considerate, wasn't it?

The busy bees are buzzing, and we heard one gently say, an Ex-M. P. from out of town, will marry our Miss A. The wedding is to take place on Wednesday next, but we'll not say a word about it. Don't ask us please.

Mr. Connor may be a well meaning man, but Sunday last he made poor progress on his way Zionward. To curry favor, or to favor Curry, we don't know which, he drove to Zion, and had considerable fun with a high kicker belonging to one of our livery men. The natives of Glenelg thought it was a portion of the Pan-American circus. The horse they thought was the Bovalapus, but they couldn't decide about the clown.

Handshaking is a manifestation of friendship that often gave us cause of serious doubt. It's well enough to go through the ceremony on meeting a person whom you haven't seen for some time, and especially so if you have a real friendly feeling towards the person met. But to go through the operation two or three times a day renders the act a little monotonous, and changes otherwise pleasant greetings into a sort of ordeal that sensible people don't take much stock in. But "Wouldn't it jar you" the way some people have of shaking hands. They stretch out an indescribable something that looks all the world like a human claw till you take hold of it, when you are forcibly reminded of a pump handle on a cold February morning, so cold and lifeless is the thing you have hold of. If there's any shaking to be done you got to do it yourself. The individual in your grip turns round about a quarter circle, gazes at nothing, and with about as much expression in his face as there is in a cup of cold custard, it's little wonder if a chilly sensation should start at the base of the brain, pass down the spinal column and end somewhere in your boots. Handshaking may be all right, but such an excuse as we have described is enough to jar a fellow every day in the week. If you must shake hands, shake right, and let there be no mockery about it.
