PENNY-IN-THE-SLOT NEWS.

Telefon-Hismondo the Most Sin-

The world's strangest journal located in Budapest. It is called the Telefon-Hismondo, or Telephone News, and enjoys a splendid reputa-

gular in the World.

For eight years this venture has been in working order, and it is a great financial success. There are 6,200 subscribers, who at regular stated intervals receive the news of the day, "hot" from all over the world, while sitting comfortably at home. The subscribers take up at a certain time of day their telephone receivers and listen to the news which is spoken to them all simultaneously by a "teller" in the newspaper office. Advertisements are heard in the same way. You cannot skip the advertisements in the same way. You cannot skip the advertisements in the telephone newspaper, for they are artfully sandwiched by the teller between exciting pieces of news, and you are bound to listen for fear of missing anything.

One editor, four assistant editors nine reporters, and a number of "tellers" compose the staff of the paper. News is collected in the usual way, and is written out by the assistant editors, and finally initialled by the editor. Then it is hand- the Sun hearing of Mrs. Harrison's ed to the "teller," who speaks it over the wires.

The telephone newspaper does not escape libel actions. It has had four and won them all.

There are two Sunday "issues," as well as many "editions" during the secular days of the week.

Aggrieved subscribers dissatisfied with the editorial policy of the paper sometimes wish to stop their connection with it, but this is not done easily. In the first place, instruments have been installed in the house, and security given for a year's subscription, and some time must elapse before the receivers can be removed . The subscriber may decline to listen to the news, but the maddening bell will nevertheless continue to ring him up at the customary in-

tervals. The penny-in-tac-slot system is being tried in connection with the newspaper, so that soon anyone in Budapest will be able to have "pennorth's" of news doled out to them.

A reporter of wonderful cure called at her home to inquire into the facts of the case. Mrs. Harrison said she was pleased to be able to testify to the great curative powers of these pills. She said: "For some years I have been a constant sufferer. Just what to call my disease I do not know; even the doctors were unable to diagnose it. I was completely run down, I had racking pains in my head, back and limbs. I was unable to secure sound sleep, and on arising in the morning would feel as tired as before going to bed. My stomach was in a bad condition and the least movement caused my heart to palpitate violently, Doctors' treatment failed to be of benefit to me and I was in a very discouraged state when a friend advised me to try Dr. Williams' Pink Pills.
