But I have to tell you it is A VOLUNTARY SERVICE. There is no drudgery in it. In our worldly callings sometimes our nerves get worn out, and our head aches, and our physical faculties break down; but in this service of the Lord Jesus, the harder a man works the better he likes it, and a man in this audience, who has been BARRISTER, Solicitor, etc. Office ove Serving God for forty years, enjoys the employment better than when he

first entered it. The grandest honor that can ever be bestowed upon you, is to have Christ say to you on the last day, "Well done, good and faith-Again. I learn from this parable that different qualifications are given to different people. The teacher lifts a blackboard and he draws a diagram, in order that by that diagram he may impress the mind of the pupil with the truth that he has been uttering. And all the truths of this Bible are drawn out in the yourself than in regard to me. Every natural world as in a great diagram. UGH MackAY, Durnam, Land Valu- Here is an acre of ground that has ator and Licensed Auctioneer for the ten talents. Under a little culture, County of Grey. Sales promptly attended it yields twenty bushels of wheat to the acre. Here is another piece of ground that has only one talent. AMES CARSON. Durham, Licensed You may plough it and harrow it Auctioneer for the County of Grey and cultivate it year after year, but Land Valuator, Bailiff of the 2nd Division it yields a mere pittance. So here attended to-highest references furnished of getting good and doing good. He soon, under Christian culture, yields great harvests of faith and good work. Here is another man who seems to have only one talent, and you may put upon him the greatest spiritual culture, but he yields but little of the fruits of righteousness. You are to understand that there are different qualifications for different individuals. There is a great deal of ruinous comparison when a man says: "Oh, if I only had that man's faith, or that man's money. er that man's eloquence, how I would serve God !" Better take the faculty that God has given you, and employ it in the right way. The rabbis used to say, that before the stone and timber were brought to Jerusalem for the Temple every stone and piece of timber was marked; so that before they started for Jerusalem, the architects knew what place that particular piece

SOLEMN SETTLEMENT. victory shall have been achieved. | line of figures. If I see ten or fifteen figures in a line and I attempt to add them up, and I add them up two or three times, I make them different each time. But I have admired the way an accountant will take a long line of figures, and without a single mistake, and with great celerity, announce the aggregate. Now, in the last great settlement, there will be a correct account presented. God has kept a long line of sins, a long line of broken Sabbaths, a long line of profane words, a long line of discarded sacraments, a long line of misimproved privileges. They will all be added up, and before angels, and devils, and men, the aggregate will be announced. Oh, that will be the great day of settlement. I have to ask the question, "Am I ready for it?" It is of more importance to me to answer that question in regard to myself than in regard to you; and it is of more importance for you to answer it in regard to man for himself in that day. Every woman for herself in that day. thou be wise thou shalt be wise for thyself: if thou scornest thou alone shalt bear it." We are apt to speak of the last day as an occasion of vociferation-a demonstration power and pomp; but there will be on that day, I think, a few moments of entire silence. I think a tremendous, an overwhelming silence. think it will be such a silence as the earth never heard. It will be at the moment when all nations are listening for their doom. "Come ye blessed!" It shall thrill with new

THE CARE OF MILK.

The sanitary production of milk commences with healthy cows. This would seem to be a natural inference, and still it is surprising how little attention is given by even the of years the British Government has their dairy cattle. This may be explained by the fact that an animal may be affected by several serious maladies, whose presence cannot readily be detected by mere external British North American squadron, however, that very little thought whose summer rendezvous is at Hali- has ever been given to this subject, and it has rarely occurred to many people that the milk often of unhealthy animals could be vitiated by the forms of disease that might be they have angles and corners which present in the system.
